BORAH SAYS RELEASE POLITICAL PRISONERS

CHICAGO, Oct. 2 .- Vigorously de nouncing the Harding administration | With the "blue-white, icy, for the continued imprisonment of 75 political prisoners and for its failure to recognize the Russian soviet government, Senator William E. Borah of Idaho, Sunday urged 4000 Chicago liberals to disregard party lines in the fall elections and to cast their votes on the basis of a candidate's stand on Americanism and free speech.

"Don't ask a man whether he's a Republican or a Democrat," Borah said, "ask him if he's an American and believes in free speech."

Borah addressed a mass meeting held under the auspices of the national emergency committee, which will arrange similar meetings in behalf of political prisoners throughout the country during the fall campaigns.

The Idaho senator's advice to disregard party lines was the only thing he said which might in any way be construed as a veiled reference to a possible third party, such as had been predicted he would make. Borah has been suggested as a leader for such a party.

Borah advanced a lengthy argument for the immediate release of the political prisoners, declaring congress had violated the constitutional guarantees of free speech and that the government was holding the 75 in prison "possibly, because they are poor and without influence."
