Tenders for Improvement of Bluff Route Are Asked by State Body for November 21; Basin Is Eliminated

VACATION OF RIVER ROADWAY IS ASKED

Canemah Folk Asked to Sign Request to County Court; Original Plans Are Cited

The State Highway commission will received bids on November 21 for the construction of the so-called South End Road in Oregon City over the Fifth street routing. This announcement was made at Salem Monday by R. A. Booth, chairman of the commiss-

The commission, it has indicated, has reconsidered its attitude upon the question, pursuant to the agreement of the city council to improve Seventh street as the permanent routing as soon as the funds became available. This agreement was made contingent upon the establishment of Fifth street as the temporary route for the pres-

ent time. This action will, it is understood, eliminate the consideration of the Canemah roadway. The highway commission recently ordered the survey of the basin route continued at it was believed that the plans for the construction of the bluff route, either by Fifth or Seventh streets, had been

held up A petition was placed in circulation Monday among the residents of Canemah asking the county court to vacate lower Main street and the Canemah road way as originally asked by the P. R. L. and P. as one of the considerations upon which their contribution toward the South End road was contingent. The entire matter of the vacation, is under the consideration of the county court on advisement following a hearing about two months

The petition asks that the road be vacated upon the same conditions proposed in the original agreement whereby the P. R. L. and P. is to extend its car service to Canemah, furnish lights for the city, and establish a 5 foot walk between the city limits and Canemah. Under a later agreement a six foot walk was to be pro-

## PROTECTION PLEDGE OF SOVIET IS WITHDRAWN

government has withdrawn its guarantee of protection to foreigners at Vladivostok, owing to the Japanese demand that the Mikado's troops must be permitted to complete evacuation of the city before the Russians march in, Foreign Minister Tehitcherin told the Uunited Press today.

Under this plan the city will be clear of both Japanese and Russian troops for a time and the soviet government will not be responsible for what may occur during that period.

American and British marines are

to protect foreigners.
The situation at Vladivostok is this: The Japanese have agreed to withdraw and let the troops of the Russian Far Eastern army occuy the city.

Tchitcherin sald to the United Press correspondent today that the Japanese demanding that the Russians withdraw to a considerable distance and enter Vladivostok only after the Japanese have marched out, some time

"All responsibility for everything which may happen falls fully upon the Japanese, especially as they already have begun destroying the fortifications, artillery depots and explosives,"

### The Cross Recall

I JNLESS UNEXPECTED complications intervene, the recall of Harvey E. Cross, county judge, will go upon the November 7 ballot. Five charges have been publicly made against the judge, and the sponsors of the recall movement indicate that they have further

Recall of a public official is a serious matter. It should be invoked only in cases of extreme inefficiency, or malfeasance. The definite charges upon which such an action is based, should be public property in sufficient time to allow the accused officer an answer. The submission of the matter to the people for a decision

If the proponents of the recall have nothing to present other than their five charges, it would not appear that there is sufficient ground for the recall. The charge of extravagance is not substantiated by accurate figures, nor is the charge that pensions have been ruthlessly curtailed. Charges of curt treatment and failure to visit road districts after promising to do so, are not in themselves, sufficient for such an attack. The charge that the judge has been unjust in the handling of juvenile court cases, before it can be accredited, must be substantiated by definite facts and figures.

It is charged by the judge that the proponents of the recall are sponsoring the movement out of personal prejudice. The value of the recall law is dependent upon being safeguarded against use as a weapon of spite and jealousy.

If the recallers have evidence of a weighty character, the period has arrived in the campaign when it should be presented. If they are sincere in their pur-pose, it should have taken tangible facts to give rise to the movement. The patent unpopularity of an officer, should that officer be honest and reasonably efficient, should not be capitalized for his recall.

The records of the county are public property and those interested may peruse them. The location of any dishonesty, favoritism, or serious inefficiency should result in a recall as the remedy which the law

The question of whether or not Harvey E. Cross shall remain in office should be decided purely upon the basis of the facts. The recallers intimate that their active campaign awaited the formal filing of the petitions. That time is now passed. The public and the press await the illumination of whatever may be wrong with the present administration before it condemns or approves.

# TWO IRRIGATION DISTRICTS TO BE PUT ON BALLOT

December 9 Is Set By County Court For Elections At Molalla and Canby; Wide Areas Will Be Affected

COST OF PROJECTS MAY BE \$250,000

Nine Thousand Acres Listed in Proposed Improvement; No Definite Data Yet Available

The formation of two irrigation dis-

tricts giving Clackamas county the first irrigation projects ever attempted upon a sizeable basis, in this vicinity, will be voted upon December 9. Dates for the elections were set Monday by the Clackamas county court. The elections will be for the selection of directors for the districts, who will take charge of the work of engineering and securing bids to determine the cost of the work. When this is determined, the actual formation of the district with a working bonded capital, will be voted upon.

A total of 9,000 acres are included. Of this. 5,000 is included in the Canby district and 4,000 in the Molalla district. Canby will get its water from the lower Molalla and Milk Creek and Molalla from the upper Molalla river.
