CHILDREN ENDANGERED BY FIRE AT GLADSTONE

Blaze In School Is Put Out Before Damage Is Serious; Leaky Roof Aids In Fight.

While 215 children were at their desks in the building, fire broke out in the Gladstone school at 2 o'clock this afternoon. A spark from the chimney caught on the roof above the sixth grade room and burned a hole in the roof.

The building was emptied in less than 60 seconds by the children, who marched from the structure in perfect order. The fact that the roof had been leaking aided in the fight on the fire. Buckets, used to catch the drip were full of rain water and were used to fight the flames. A call was sent to the Oregon City fire department, which was slightly delayed while permission was secured from the mayor to take the truck out of the city limits. It did not arrive until the fire had been extinguished with the aid of a chemical borrowed from a nearby office.

Damage to the building was estimated at \$50.

The blaze was discovered by a carpenter working on the roof of a nearby house.

\$63,948 CALL IS ISSUED FOR COUNTY WARRANTS

Indebtedness Now Reduced to \$350,000 Says Treasurer; Deficit Being Paid Off.

A call for all road warrants enforced prior to November 22 1921 was issued yesterday by W. W. Eychart, county treasurer. The call amounts to \$63,948.75, and reduces the outstanding warrant indebtedness of the county to \$360,000.

Two more calls are to be issued this year, Eychart states, representing the final collection of taxes, and they will amount to about \$25,000. The outstanding indebtedness varies, the treasurer explains, with endorsement of warrants to hold over until taxes come in, but the total amount of the indebtedness which represents an overdraft, is about \$350,000. This, the treasurer says, has not increased during the past year, and is being gradually reduced through the provision of a \$40,000 fund in the county budget for payment of outstanding road warrants.

The delinquency in taxes this year, according to the figures compiled by I. D. Taylor, head of the tax department, will not be materially increased this year over 1921 collections which will result in no great change in the present indebtedness through non-payment of taxes.

DEFINITE DATE SET TO PASS ON MARINE BILL

WASHINGTON, Nov. 22.—By a vote of 200 to 110, the house today adopted a rule giving privileged status to the administration shipping bill, which will be taken November 29.

Leaders on both sides of the fight said the vote to put the bill before the house did not indicate the actual line-up for or against its passage.

When the rule for consideration of the shipping bill was called up in the house Chairman Campbell declared there would be ample opportunity for amendments.

"Any honest effort to amend the bill is given but any effort to filibuster is prevented," he said.

Representative Fess, Republican of Ohio supporting the rule, said he was not in favor of government operation or ownership of the merchant fleet. Enticement of the shipping bill would permit America to stay on the seas adding that the proposed government aid was in reality "a subsidy to American labor," because American shipping would have easy sailing if American labor were reduced to the scale paid labor in other countries. He opposed any such reduction in the standards of living for the American workmen.

Opening an attack on the bill, Representative Garrett, Tennessee, Democratic leader, declared that "the Republican administration, with the death rattle in its throat, is running true to form in favoring the special interests.
