It is noticeable that soon after the tariff is increased in this country to enable the big mills to pay higher wages there is activity in the ranks of cheap foreign labor. Wages in the large steel and iron mills of the East have never been known to show marked increase as a result of tariff boosting.

WEST'S SUCCESS NOT REPUBLICAN DEFEAT.

Many Republicans of Clackamas county are still enjoying the relief that came to them in the late vindication of Statement No. 1. This county has always been "long" on that proposition and its friends over the county are legion.

Yet in the face of the desire to see Statement No. 1 vindicated, and with the belief well grounded that Candidate Bowerman was in league with the enemies of that policy, many Republicans voted for Mr. West with great regret.

Clackamas county is safely Republican on an out-and-out political proposition. Still, on the other hand, there is no other community in the State that will so soon recent interference on the part of men who wish to win regardless of what is right, or regardless of the wishes of the men to whom is granted the right to decide.

Candidate Bowerman had many personal friends in the county who would not turn their backs on principle and support him and that for which they were satisfied he stood. He and his friends found this out on election day, when it was too late.

Representative L. E. Jones left Sunday evening for Salem, to put on the yoke of the people in the Legislature. This is Mr. Jones' third term—he is one of four who have been so honored by their constituents—and naturally Mr. Jones feels more than ever determined to do what he considers is wanted by the people of Oregon in general, and of Clackamas county in particular.

Salmon embarked upon a new era of prosperity Monday, that will last 30 days, for the state legislative convenes. Clackamas provides four out of the 30 Salmons. The local delegation goes to the capital unhampered by numerous election pledges and should be able to do some good.

Yes, Oregon City is a picturesque little city; it is a class by itself and some day in the near future the rich men of Portland will see it and come here to build homes in keeping with its grandeur.

(Editor of the Enterprise.) Thinking that perhaps I have not had the opportunity to see the middle west, I will try to give a brief description of the country I passed through on my way from Portland to Kingfisher, Okla.

Leaving Portland on the 17th of September, I went to the northwest part of Washington to Spokane. Here we changed cars, taking the N. P. R. to Billings, Mont. The country between Spokane and Billings is one of the most picturesque countries it has been my privilege to see.

It is now proposed that the situation among those who wish to keep paper production for business should be kept in the hands of the mill, as in the case of 4 mills in the city and one in the county.
