Legal advertising at legal advertising rates. Circuit advertising and special advertising at 25c to 50c an inch, according to special conditions governing the same.

Wisconsin is the last State to come forward with a scandal. Her recently elected Senator is charged with bribery.

The Morning Enterprise is not as large as some of the city papers, and never will be; we must make up in accuracy and activity.

There are enough people in Oregon City to support a good little daily paper if all who wish it success will take it and pay the delivery boy his dime weekly.

Give us a tip as to any news matters that come under your notice. If you don't know all the particulars call us up and give us a tip so we may chase it down.

We don't expect to always do just as you would have done had you been in our place. We'll do the best we can and please you as often as our judgment coincides with yours.

We are running the Morning Enterprise to make a living. In doing this we will try and do good to as large a number as possible and offend as few as is consistent with what we think to be right.

It's the home paper that you rush to when in need of an explanation of defense from some malicious attack. But if the home paper has failed from lack of support, how can it put up a defense for you?

The few dollars expense that a fruit and produce association would cost each man interested is small compared to the benefits. Get together, farmers; you can't win unless you make a start.

You may think you can get on with-out a daily paper in Oregon City—and you can—but considering the small cost of so great a luxury, is it wise? Boost your home city by supporting the most persistent and inexpensive publicity agency so far devised—the live little daily.

Every merchant in Clackamas county should aid in establishing a fruit and produce association. It would make prices for fruits and produce stable, and the farmer would have cash to spend and not be urging you to take his product on account, and you not able to realize on it.

It's a funny situation when the State Senate, composed of the "best men in the State," can't find a volunteer who will up in a single day's session with prayer. That was the situation Wednesday, and that body is supposed to have been left to the mercy of circumstances because no member had the courage to stand up and ask for divine guidance.

The tendency of the past few years has been towards boosting the prices of manufactured goods to the small retailer. The evident intention of the manufacturer was to take the raise out of the small dealer rather than to punish the consumer. But the retailer has passed the raise along—and he says conditions forced him to do so—and the manufacturer sits back and adds the additional coupons from his bonds and draws down his swollen dividends with many a smile.

The Portland lads who, when taken in crime, blamed it on the picture shows displayed a yellow streak. Some picture shows are bad, and certain pictures shown in the better theatres are not in good taste, but the boys who chase them up should not blame their directions on their favorite form of amusement, but face the music and admit their shortcomings and promise to do better. We never admired the yellow streak in old Adam, and its display by younger Adams would be no stage of the game lead up to lechery—be game boys; admit your errors and after due punishment, start right and stick to the correct course until cured of past follies.

TIME TO TAKE ON DIGNITY.

One of the main questions that interests business men of Oregon City and citizens of Clackamas county is that of the sale to Eastern people of lands in the city and the county. People who have lands to sell wish to realize on them. Those who have not but who have homes here wish to see unoccupied lands settled with enterprising people that the number of those who will bear the burden of improvement of conditions in the city and county may be multiplied.

As a result of these conditions we have a number of real estate men who have property to sell—often times for themselves, but many times for other people. The question arising is how to make these sales with the greatest frequency and to the better class of people who visit this section to "take a look."

The present plan is for our real estate men and those having property for sale to keep a lookout for strangers and to nab each and every one who may look as if he had a few loose simoleons in his jeans. It is a "catch-as-catch-can" game, and Oregon City dealers seldom loose out to wily ones of sister cities. But that is neither here nor there; the real question is how to make a better showing, both as to the maximum of sales made and as to the number of desirable people induced to become citizens of our city and county.

Mt. Clemens, Mich., is perhaps the greatest health resort in America. Thousands visit the springs and are benefited by the baths yearly, proving profitable visitors to the city hotels, bathing establishments and boarding houses. This number increased yearly until it has become very profitable, drawing into the business many men of means. But competition became fierce and each hotel and boarding house deemed it wise to put on guard runners who should grab and spirit away from the crowd strangers who were looking for quarters. It was not long after the conflict became a real conflict, until it was to be seen that the eagerness of the solicitors was working to the injury of the business, and that a change must be made. As a result it was decided to hire a policeman and to assign one directly to the force to the work and station the two on the main street so as to cover the arrival points at which transportation companies would deposit travelers. These men, in uniform, were to direct strangers to hotels and boarding houses, impartially, giving to each stranger who desired a card containing the names and rates of each hotel and boarding house in the city. As a result the scramble for strangers ceased, the tone of the business improved, and the stories sent out by strangers were to the credit of the city and its citizenship, rather than one of greed and grab.

Why, not when the next season opens, add another day officer to the present police force of Oregon City and make it one of his duties to meet and direct strangers to the several offices of real estate men in the city and give to visitors any other information desired concerning the city and the county? The real estate man can have cards printed giving the names and places of business of all and put into the hands of this officer. These he will hand to those seeking information concerning investments, giving impartial answers to all inquiries.

Naturally all our real estate men are anxious to make sales; but on the other hand no one of them wishes to prejudice a stranger through over-eagerness. The adoption of this plan will avoid the appearance of undue eagerness, which often spoils a sale, and give more dignity to the business. Oregon City and Clackamas county want to increase the number of desirable citizens and to that end all honorable means are permissible—but, naturally, the best means is the one desired.

There are many things to interest strangers in the city and the county. A man in uniform, who is courteous and well informed, can tell an impartial story that will inspire confidence in these people, and when set aright by this uniformed officer there is no reason why they should not be favorably impressed and in the end led to invest in our midst.

The present rivalry between real estate men does not favorably impress strangers. And the stories told by the real estate men—many of them true even if they do deal in what looks improbable—when told by men to whom the stranger has been directed by a man in uniform, will not take on that degree of improbability that enshrouds them when told by one who has participated in a "catch-as-catch-can" scramble but a few hours before.

We suggest that our real estate men—who we know are anxious to do what is for the best—get together on this proposition and Interest Council in taking steps that promise the greatest good to the upbuilding of the business interests of the city and county.

WANTED: A FIRM TO BUY EVERYTHING. Every city the size of Oregon City should have a grain and produce warehouse or elevator. This is an essential to best business conditions. Oregon City has none in the broad sense of the word. It has firms that buy and sell grain, and produce on occasion, and many times this provides a market when otherwise the producer would be forced to haul his grain and produce home again.

But what the farmers of Clackamas county wish to see in the city is an elevator where they can take anything that they produce at any time in the year and receive in exchange the highest market price. Such an institution would require considerable capital, but if properly handled the business would pay a good dividend on the investment, and at the same time provide a market for Clackamas county products that would gladden the hearts of the producers.

SUPERVISORS ARE NAMED BY COURT

ROAD BUILDERS APPOINTED TO SERVE CLACKAMAS COUNTY DURING PRESENT YEAR.

Several Farmers Are Interested. Gladstone May Be Abolished and Territory Added to Oak Grove and Parkplace.

The appointments of the road supervisors for Clackamas County in all but a few districts were announced late yesterday afternoon by the county court. The county judge and commissioners have been wrestling with these appointments for the past week, and hundreds of farmers have been in Oregon City from every section of the county in the interest of the various aspirants.

Interested parties are trying to organize a fruit and produce association that will, among other things, perform such a service for its members. It will be on the co-operative plan and when once established will fill a long felt want. In view of the needs of Clackamas farmers it is to be hoped that the men interested in the formation of the association may be successful, and that the association be put upon its feet in the shortest possible time.

MAGONE HAS CHATEAU MEASURE IN POCKET

JOINT REPRESENTATIVE MAKES BAD BREAK BUT JUMPS BACK TO SAFETY.

M. A. Magone, representative from Clackamas County in the state legislature, returned last night from Salem, bringing in his inside pocket the fish bill introduced by W. H. Chatten, joint representative from Clackamas and Multnomah. Mr. Chatten presented the bill at the request of the Multnomah anglers who are trying to close the Clackamas River and the Willamette above the Oregon City suspension bridge to gillnet fishing, and when he learned of the strenuous opposition to the measure from the Clackamas delegation, he withdrew the bill. The members of the legislature from this county will make a determined and concerted effort to kill any measure that may be antagonistic to the interests of the fishermen of this locality.

It was learned yesterday that Representatives Magone, Carter and Joffe, of this county, voted for "Jerry" Rusk for Speaker of the House, and they are therefore in a position to obtain good places on committees. There is a possibility that Mr. Magone may be offered the chairmanship of the fisheries committee. The Clackamas delegation will return to Salem next Monday, the legislature having adjourned until that time.

DON PORFIRIO. Short be the lives of those who seek To play with the Lord of Chapultepec! Heart of bronze and hand of steel, He trades his way with an iron heel.

Knit the baby's mittens without any thumb; then, no matter which way they are put on, they are all right. If large enough he can move his fingers all around inside, while the long wrists keep the sleeves of his duds down over his arms and make him comfortable.

Why There Are So Few American Singers. Good American Singers. By Mme. OLIVE FREMSTAD, Grand Opera Singer.

It seems only natural that, having concentrated all the hopes and energies of all one's years upon one object to the EXCLUSION OF EVERYTHING ELSE IN LIFE, one should finally gain that object. The reason the girl who starts out early in life to be an artist fails—for in most cases she does fail—is that she DOESN'T STUDY INTELLIGENTLY AND DOES NOT LIVE SENSIBLY. The rules of the game are simple. Common sense is the keynote. But the penalty paid by those who ignore the rules is terrible. Mere artistic failure is only a part of it—lost health and hope and reputations and, in the end, the fate of those poor girls whom we read of as having thrown themselves into the Seine or taken poison in some garret in the Quartier.

The trouble was not that the girl did not win artistic recognition. She probably would have won it if she had tried long and hard, for the American voices are the most beautiful in the world. The trouble was that she DIDN'T LEAD A SIMPLE, REGULAR LIFE AND DIDN'T EAT SIMPLE AND REGULAR MEALS. IT'S THE WRETCHED WAY THE AMERICAN GIRL IS BROUGHT UP, WITH HER LUNCH OF ICE CREAM, SODA AND ICE WATER AND ECLAIRS AND HER AFTERNOON COCKTAIL, THAT CURSE OF THE COUNTRY. SHE HASN'T BEEN TAUGHT THAT HER HEALTH AND SUCCESS DEPEND LARGELY UPON WHAT SHE EATS, AND SHE DOESN'T SEEM TO REALIZE THAT COCKTAILS WILL DEGRADE HER MIND AND SOUL AS WELL AS HER DIGESTION. Early training is the saving of the girl who struggles to be an artist. She may have talent, but it will avail her nothing without ideals and character to steady her.

SEA FOOD IN ATTRACTIVE FORM

Swedish Bread That is the Staff of Life in the Land of the Midnight Sun—A Chocolate Pudding Fit For Royalty—Cookies of Childhood Days.

Once a week at least sea food is included in the menu of every house hold, so why not try lobster a grain for a change? To make it remove the flesh from the lobster bones and cut it in small cubes. A lobster weighing between two and three pounds will give about a pint of meat. Make a

cup of stock by cooking the body bones in a cupful and a half of water, with a slice of onion and two of carrot. Half an hour, according to the Boston Cooking School Magazine, is sufficient. Use this cupful of stock, three-fourths of a cupful of cream and one fourth of a cupful each of butter and flour in making a sauce. Put the fish and sauce in an earthen dish alternately, having sauce as the last layer. Mix half a cupful of cracker crumbs with three tablespoonfuls of melted butter and spread over the sauce. Set into a hot oven to brown the crumbs. Crab meat, clams or oysters may be cooked in the same manner.

Chocolate Pudding. For chocolate bread pudding dissolve half a cake of cooking chocolate in a quart of milk and when perfectly blended turn the milk over two cupfuls of breadcrumbs and let stand for an hour. Press the mixture through a sieve, add four eggs that have been well beaten, a cupful of butter, two cupfuls of sugar, a little grated nutmeg, a cupful of seeded raisins and a cupful of chopped blanched almonds. Strain the pudding for an hour and serve with cream. The amount given is enough for a large family. Half the quantity would be sufficient for six persons.

Cinnamon Stars. One pound of pulverized sugar, one and one-quarter pounds of almond meats, one-quarter ounce of ground cinnamon, whites of seven eggs and a pinch of salt. Beat the sugar and eggs one hour; then add the almond meats (chopped fine), cinnamon and salt; no flour; cut with small star cutter; very moderate oven.

Swedish Bread. Pour two cupfuls of boiling water over one cupful of cornmeal, two level tablespoonfuls of lard and one teaspoonful of salt. Mix thoroughly, then let cool. When the mixture is of lukewarm temperature add a cake of

NEGATIVE WINS DEBATE.

Bachelor Girls Are Now Safe From Tax Gatherers. The Friendly Bible class of the Presbyterian church held its regular monthly business meeting last night, and gave an entertaining program to live up to the occasion. There was a musical and literary program, with a debate as one of the more important numbers on the bill. Following the program there was a social hour.

The subject debated was: "Resolved, That Bachelor Girls 25 or Over Should Pay Taxes." Ralph Eddy, James Burrows and Clarence A. Aldredge were on the affirmative and Joe Aldredge, Paul Burrows and John Meade in support of the negative. The committee awarded the decision to the negative.

Walnut Wafers. One pound of brown sugar, one pound of walnut meats, two eggs, six even tablespoonfuls of flour, two-thirds teaspoonful of salt and one-half teaspoonful of baking powder. Beat the eggs very light, gradually add sugar, then salt, flour and lastly the walnut meats, broken, not chopped. Drop in small lumps in buttered pan and bake in moderate oven.

Walnut Macaroons. One pound of pulverized sugar, one pound of walnut meats (chopped fine), three eggs and two tablespoonfuls of flour. Beat the eggs very light, gradually adding the sugar. Add flour and meats. Drop in greased pan and bake in moderate oven.

Ironing Table Linen Without Starch. It is said that an experienced laundress never sprinkles her table linen. She dries it thoroughly in the air, then dips it into boiling water and puts it through the wringer. Each article is then folded in a dry cloth as smoothly as possible and allowed to remain there for a couple of hours or so. Irons must be hot, but not scorching, because the linen must be ironed perfectly dry. Herein lies the secret of table linen that is guiltless of starch.

Go to Secret's for that hot lunch-succesor to Lentils, 610 Main street. What a lot of strength there is wasted chopping with dull axes! Spend a few minutes at the grindstone and see how nicely the world will go after that. The rude, vulgar and often malicious pictures put forth in the guise of wit and caricature through the daily and Sunday press, are destroying the artistic sense, if not the kindly instincts, of a whole generation of young people, who are growing to maturity looking upon them as one of the ordinary incidents of life. Carry the "shameful things out of the house with the togs, for the sake of the children.

Wants Prisoners Made Work.

Editor Enterprise: Why is it that Clackamas county does not put its prisoners to work at something that will enable them to earn their living? They are able to work and I see no reason for keeping them in idleness and me forced to work to keep them eating.

In Multnomah county prisoners are put to work on the rock pile or on the crusher; why not here? It would not be necessary to build much of a stockade to hold them. It is no wonder that the miser county can fix her streets and roads when the crushed rock costs her but little. And we can see no reason why Clackamas county should not likewise benefit. If we have fewer prisoners we will need be satisfied with less crushed rock. Laboring men who cannot afford to pay much in taxes will be thankful for small favors in tax relief, and the man who will not behave himself should be made to support himself. If he has a family, and can earn more than his keep, it should be given into the support of his family.

Why not give this subject a little publicity? FARMER.

Wants Awnings For Seats.

Editor Enterprise: I have recently come here and many things are done different from what we do back East—and some things are done better. One thing that meets my approval is the seats—at intervals on the stairways leading to the top of the bluff. But one thing seems to be lacking even there—you provide no covers to them. If it rains they are wet and one would scarce dare to sit and rest lest they catch cold. But I suppose you Oregon "Web Feet"—I use the term with no desire to be disrespectful—are so used to rain that a little water, even on the seat you wish to occupy, has no terrors for you. From one who is. THANKFUL FOR SEATS.

Do the "Drys" Attempt Too Much?

Editor Enterprise: There are some things in this world which we can get without any great effort, while on the other hand there are some things we cannot get without great effort—and oftentimes we don't succeed then. A question in mind is the much discussed temperance problem. Naturally one thinks that if great effort is put forth without success in moving people there must be something lacking in the proposition put forth. There has been much effort put forth in years past for temperance—under many guises—but what of the results? States and counties have gone dry one year to turn back the next, or at most a few years later. What is the explanation: was too much attempted?

It is certain that there was something wrong to produce this phenomenon; can it be possible that the temperance men will agree as to what shall be asked for or as to how to get that which is sought. Can it be possible that the counsels of Abithophel are wont to creep into the camp of the Prohibitionists to work injury to the dry cause at all times?

It should not be necessary to put forth great effort to secure reform of so great an evil as that presented by the lower order of saloons. Yet great effort is made necessary and oftentimes that will not succeed. How can one think, with this fact staring him in the face, that to some great error of some sort must be attributed the lack of success?

The price of license has been boosted from \$300 to \$1000 in Oregon City within the past few years, and still the temperance people seem no nearer the goal than before. You make the saloonist scramble that much harder for the dollar, you take the dollar and use it in your business, and then you again fall on him with a club.

This milking of the saloonist cannot all be charged to the dry advocate and yet it looks as if he was strong enough to put a stop to it if he wished. Fact is, if the saloonist is to be clubbed into insensibility he should not be robbed first—that delicate operation should be postponed until after the clubbing, to be consistent. If the dry advocate wishes to put the saloonist out of business for sure he should agree on some plan that is not only fair to all concerned but see to it that his program is carried out and not wink at hit political friend robbing the saloonist while he plans to come in later and forever put him out of business. RISLEY.

Electric Line For Ely.

Editor Enterprise: What's the matter with the Commercial Club "starting something" towards an electric line to Ely? With Eleventh street finished to the top of the hill and a grade set that a good motor can climb at a fair rate of speed don't you think it is up to the Commercial Club to get a line to the pretty home spot out Mo-lalla way? We recognize that the Commercial

Ride to Death

(A Western Story)

In "The Dispensation" Miss Lenora and two children appear at their best. No man, woman or child can see this picture without being made better.

"Little Nell's Tobacco Box" tells of the story of the death of a daughter, and marriage of son-in-law and the severe treatment of the old man by the new wife. Little Nell is Grandpa's friend.

Club can't do everything and that its members need time to accomplish what is within the power of the club; but we are here to say that if the club will do something for Ely—the club—shall have the prayers of those of us who have to climb the hill nights after a hard day's work. EVERETT.

Lavatories for Oregon City Cars.

Your correspondent rode to the city on an Oregon City car a few days ago and had her attention called to the need of "salons" for the convenience of the passengers. An elderly lady, who was not far removed from what might be termed an invalid, suffered much inconvenience because of this lack, and it was very apparent to her friends who were on the car. Old people, children and invalids often suffer much from lack of this convenience on this line. In fact I have often heard elderly people say that they do not go oftener to Portland because of this lack—they fear to attempt the journey.

In the East all interurban cars are so supplied and in some states it is enforced by statute. And as it would prove a great convenience to the public there is no doubt in my mind but that the service would increase the revenues greatly in excess of the expenditure. MARY.

The best Homemade Bread that can be baked; you can get it at Schrader's Bakery, on Main street near Postoffice.

BURNING STUMP HEATS TEPEE

Washington Indians Pleased With Their Commercial Ingenuity.

That the charcoal pit process for clearing land is a good thing can be testified to by Sally Frank, a squaw, who with two young bucks pitched her tepee over a stump under which a charcoal fire had been started, at White Salmon, Wash.

"Heap big stump burn all time—him no go out—keep Sally and hippos warm when big snow come," said the squaw in explanation of her selection of the strange camp ground.

The stumps give little smoke and warm the earth all around. Three other stumps are smoldering, and other Indians have pitched their wigwams and are proud of their ingenuity.
