SUNDAY IN THE CHURCHES.

Today is Sunday, the day of rest. Are you resting? How are you resting? As you no doubt understand there are many ways in which to rest, but some are better than others.

There is an institution—the church—which gives much thought to your needs on the Sabbath. This institution is composed of men, like yourself, and the idea is not that they are better than you, and that you need a guardian, but knowing the needs of all men in this particular this institution has taken up this as a part of its mission and in its efforts to do all men good it has in mind your good.

What can the church do for you today? Its program for the day's services embraces preaching in the morning, Sunday school, young people's service and preaching in the evening. To all of these services you are welcome. Will you attend?

Have you ever stopped to think of what you miss in case you do not avail yourself of these opportunities? Suppose you go to church once on a Sunday, listening to 52 sermons a year. The preacher must be a poor stick indeed if he fail to have some new thought for you, but if he have only one in each sermon note what the total will be in a year or in a lifetime. If you do not hear these sermons, and do not have told to you these thoughts that otherwise you may not hear, then you are the loser. And if anyone wished to take from you this privilege what a roar you would set up.

There is no reason why you should not enjoy the privileges which Sunday brings to you. Things that transpire in the churches may not all interest you, but as an institution there should be much to interest and there is much to instruct. Then with your aid and presence the church itself may in many instances be made more efficient, and then you and your friends will enjoy even greater privileges than is now the case.

So, dear reader, what of today? Your opportunity is open to you and

Government Positions Are Not Open Wide to Women.

By Mrs. FREDERICK W. NATHAN, President and Founder of the Consumers' League of New York.

OUR NATIONAL, STATE AND MUNICIPAL GOVERNMENTS, THROUGH THEIR DISINCLINATION TO THROW OPEN THEIR THOUSANDS OF REMUNERATIVE POSITIONS TO NONVOTING WOMEN WORKERS, ARE MAKING IT INCREASINGLY IMPOSSIBLE FOR WOMEN TO OBTAIN A DECENT LIVING WAGE IN DECENT OCCUPATIONS.

It simply amounts to this—that the GREATEST BUSINESS IN THE UNITED STATES IS PRACTICALLY CLOSED TO WOMEN. The government gives the job to the man whose vote supports it. If the civil service laws interfere some man gets the job just the same, because at least he is A POWER and therefore worth an attempt at conversion. There is no such thing as genuine civil service reform. It is invariably a case of "TO THE MEN BE-LONG THE SPOILS."

With governmental service barred to them, women are forced to CROWD IN EVER INCREASING NUMBERS INTO THE COMPARATIVELY SMALL PRIVATE TRADES AND POSITIONS OPEN TO THEM. The result is more obvious every day. The oversupply cuts down salaries below a living wage. The WOMEN STARVE BY INCHES or else they join that trade which leads to the gutter and the morgue. It is the GOVERNMENT OF THE UNITED STATES THAT IS RESPONSIBLE!

Women may take the examinations, but they may not take the positions. Believe me, there's a difference. Do you know of the arrangement at Washington? Two separate lists of eligibles are kept, one for the women, one for the men. The heads of departments are required to choose only the highest rated on either list.

So usually it is the MEN WHO ARE CHOSEN, though the women may have passed the better examinations. A prominent official said publicly the other day that politicians had to reward their constituents—men—and that the WOMEN COULD NOT BE CONSIDERED, SINCE THEY WERE POLITICAL NONEXISTENCES.

THE POLK GAZETTEER IS OUT.

Complete Information for Northwest Given.

Book Just Off Press Has Business Directory of Cities in Oregon and Washington.

(The Morning Oregonian, Tuesday, January 17, 1911.)

Commercial institutions of the city are receiving the annual gazetteer of the R. L. Polk & Company, which is out for the states of Washington and Oregon.

It is the most complete work of its kind issued in the Northwest. It contains an accurate business directory of Seattle, Tacoma, Spokane, Portland and every city, town and village in the two states. It also contains the names and addresses of country merchants and professional men, lumbermen and others, who are located in the smaller places.

There is a complete list of the Government officials, commissioners of deeds, state boards and statutory provisions and terms of courts, names of the postmasters, postoffices, express, telephone and telegraph offices, justices of the peace, a list of the daily and weekly newspapers, and a world of information carefully compiled. A short descriptive sketch of each town and much valued data is given.

An important feature of the publication is the classified business directory, which enables the seeker of information to ascertain at a glance names and addresses of all of the different firms engaged in any given line of business. The directory has been compiled to meet the wants of the business community and has been inspected thoroughly for the discovery of any errors which might exist. No publication in this section will supply the exacting demands of business life like this one just from the press. It was only by the expenditure of a large sum of money that the facts were gathered in the form that they were. The data is absolutely reliable, so that it is perfectly safe for a concern to issue its list of circulars, daily letters and prove any address desired by referring or compiling such lists as they wish from the book.

The official data with reference to the list of Government, state and county officials will be found to be especially valuable. It is corrected so that the results of the last election are all in and in consequence the book is thoroughly up to date.
