LIVE WIRES TO ATTEND COURT. The Live Wires will meet with the County Court on Friday afternoon to talk over the matter of road supervisors. The people of this county are warming up to the necessity of a change in methods of road making and the County Court is alive to the fact that the taxpayers want something done in the way of reform.

Because of the wish on the part of the County Court to do what is best in the matter the meeting between the Court and the Live Wires is to be held. The County Court wishes to be shown in this as in other things, and the Live Wires believe they can induce the Court to take steps, promising something more than has been secured to the people in the past.

There are new methods of road making that produce better results than old methods, and the taxpayers of Clackamas county want them. With this in mind the Live Wires are trying to get into harmony with the pay. Court so that the best information obtainable may be used in road making. The friends of better roads and better Centenary to be Observed by the Unisystem in road making are invited to go with the Live Wires to the meeting on Friday so that the Court may see that the people are anxious for the best that can be done for them. If they are present in numbers it will not averse to spending a little more than now if assured the money will be

In the farming communities there is some opposition to a road commission, or a State supervisor of roads. This comes through the fear that it means simply another fat salary and the same old results. If something good is to come out of the present road discussion it must come through all who want better roads working together in that end. The way seems opening to that end in this county, and Friday the friends of better roads are to be given a say in the matter. A large delegation of friends should be on hand to prove to the Court that it will be given backing in case new measures are to be put in vogue.

Lamy Brothers, the Three Speed And Jumping Skate Champions

F. C. Lamy, father of Edmund Lamy, the world's champion ice skater, is probably the most picturesque character in the resim of sport today, for, in addition to having in his charge the most illustrious ice speed merchant of the present time, he has also two younger sons, Ernest and Claudius, who give promise of occupying the place held by the older brother in a few years to come. Lamy the elder is probably as much responsible for the success of his son Edmund as any other agency which has had to do with making the boy a champion. When Edmund started out in the sport the father attended to the most minute detail of the training of the boy, and he would not let any other hands care for the skater either just before or immediately after a race. The consequence is that his careful attention, with the young man's native ability, made him the greatest amateur ice skater in America. Edmund broke the world's amateur skating record for the 220 yard dash at Saranac Lake recently when he negotiated the distance in 17 2-5 seconds, taking two and two-fifths seconds from the record of 19 4-5, held by Leroy See since 1900. Lamy was paced by his brother Ernest, and the time was made at the Pontiac rink on a track of seven laps to the mile. The Lamy brothers are the three speed and jumping champions. The two smaller ones, Claudius and Ernest, have won international championship races in Montreal, Cleveland and Saranac Lake for their respective ages, fifteen and seventeen years. All three boys were born and brought up at Saranac Lake, a health and sporting resort. The picture shows Ernest on the left, Edmund in the center and Claudius on the right.

APPLEGATE, STATE BUILDER.

EUGENE, Or., Feb. 1 .- (Spl.) -lt may not be generally known that the year 1911 is the one hundredth anniversary of one of Oregon's noblest convince the Court that the people are pioneers, Jesse Applegate. The Department of History at the University

Mr. Applegate came to Oregon from Missouri, in company with his two older brothers, Charles and Lindsey, in 1843, settling in what was then Yamhill county, but now Polk county, He died at Yoncalla, in Douglas county, where he had resided most of the time since 1849, in the year 1888. He is noteworthy as one of the ablest men Oregon has ever had, and as a disinterested, public spirited citizen, whose influence upon public affairs

was frequently very great. Recent researches in the manuscript archives at Salem have shown that Applegate was the real founder of the reorganized provisional government adopted in 1845, that he drew most of the important laws passed by the legislative committee of that year, as well as the memorial to the United States Congress, and that he was instrumental in persuading the Hudon's Bay Company to take shelter under the provisional government. Some of the documents revealing his agency in these significant matters have recently been unearthed in the Public Record Office of Great Britain, at London, by a professor of the Uni-

The contemplated publication will contain, first, a unique portrait of the Fred Warren, editor of Appeal to pioneer statesman; second, a biographical sketch of his life and services; third, Applegate's "Views of Oregon History," an extended commentary on affairs in the early days of Oregon written by Mr. Applegate late in life, for the benefit of those who should write the history of Oregon

To cure beef tongues: Trim and drop them into boiling water for a few minutes to "plump" them, and close the pores so as to retain the juices. When cool, rub them with a mixture in the proportion of one pint of salt one teaspoonful of saltpeter, and a quarter of a pound of brown sugar to every twenty pounds of tongue, Pack them in an earthen vessel, not a tin or iron one; sprinkle lightly with salt and put a weight on top. Turn them every other day, putting the bottom ones on top and packing them closely Let them lie about ten days, then hang them up, and when dry put them into bags to keep from the flies. "Track and street conditions are very bad, caused by railway company, for several hundred feet south of the Hawley mills. The planking in the streets has been taken up and not put back in proper shape, leaving the streets and sidewalks in bad condition.

"Another condition complained o to the Mayor is that the basin has Lazelle B. This forces the company to push cars on those tracks to hold the roadway down, which blocks the roadway. What the company should do at once is to repair those conditions, put in gates and switches, raise the tracks and roadbed about three feet and anchor it down.

"Another condition complained of to the Mayor is that freight cars have the East. The booklets are the tracks from 8 or 9 in the evening to the annoyance and inconvenience of the public. Directory of Cities in Oregon and Washington. (The Morning Oregonian, Tuesday,

January 17, 1911.) Commercial institutions of the city are receiving the annual gazatteer of the R. L. Polk & Company, which is

out for the states of Washington and Oregon. It is the most complete work of its kind issued in the Northwest It contains an accurate business directory of Seattle, Tacoma, Spokane, Portland and every city, town and village in the two states. It also contains the names and addresses of country merchants and professional men, lumbermen and others, who are located in the smaller places. There is a complete list of the Gov

ernment officials, commissioners of deeds, state boards and statutory provisions and terms of courts, names of the postmasters, postoffices, express, telephone and telegraph offices, justices of the peace, a list of the daily and weekly newspapers, and a world of information carefully compiled. A short descriptive sketch of each town and much valued data is given.

An important feature of the publication is the classified business directory, which enables the seeker of information to ascertain at a glance names and addresses of all of the different firms engaged in any given line of business. The directory has been compiled to meet the wants of the business community and has been in spected thoroughly for the discovery of any errors which might exist. No publication in this section will supply the exacting demands of business life like this one just from the press. It was only by the expenditure of a large sum of money that the facts were gath ered in the form that they were. The data is absolutely reliable, so that it is perfectly safe for a concern to issue its list of circulars, daily letters and prove any address desired by referring or compiling such line as they wish

from the book,

The official data with reference to the list of Government, state and county officials will be found to be especially valuable. It is corrected so that the results of the last election are all in and in consequence the book is thoroughly up to date.
