It isn't always: the city in which there are the greater number of arrests where one finds the most lawlessness. Arrests for trivial offenses don't clear the moral atmosphere to any great extent. Men are not made good by intimidation, and arrests for petty offenses are nothing more than an effort at intimidation.

Some one suggested that we have fewer arrests in Oregon City than any city of its population and with so promiscuous a citizenship anywhere in the State, at Council meeting last night Then some one threw a stone through the picture by declaring that while we don't arrest men it isn't because they don't deserve it. However, Oregon City is not such a lawless city as it

Rev Hayworth was in Council to represent the people who want to see the laws enforced. And Rev. Heyworth is of the opinion that one officer can't enforce the laws in a town like Oregon City. He is probably right in his conjecture, but when it comes to footing the bill many men who wish the laws enforced don't like to see the tax roll grow. There are many people who want things so long as you can get them and not raise the tax duplicate; they then begin to quar- O. Lucht rel with city legislators.

There seems to be a wide divergence F. C. Burk 1.20 of opinion as to what is needed in po H. Anuue lice matters between the Mayor and J. L. Swafford Council. The Mayor wants to have Geo. Waste of Humanity Is Test of Civilization and the Cost of It.

By RAYMOND ROBIN, Socialist, of Chicago.

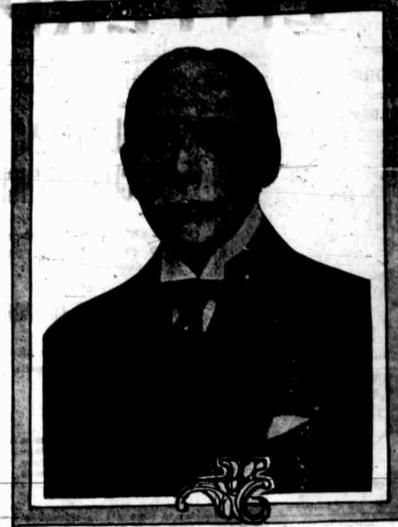

iron plants and present hours of labor are a direct violation of all Christian tradition. When a young man works twelve hours a day,

seven days in a week, month after month, he becomes STUPID AND SODDEN. He goes down physically and mentally. If he went to church he'd lose his job.

Take him away from the steel plant, put him to cleaning streets eight hours a day, give him decent pay and his mind freshens and NEW LIFE BREAKS FORTH. In the steel plant he had been forming habits that would have ruined him. It isn't preaching that changes him. It is SOCIAL SERVICE. It is useless to preach to people who are hungry. Jesus Christ knew it, and he didn't do it.

No more spiritual sermon has ever been known than the Sermon on the Mount. If he had been a sham, a faker or even stupid he would have said let the people be filled with this wonderful spiritual food and be happy. He knew that WHEN PEOPLE ARE AP-PEASED OF THEIR HUNGER THEY WILL REMEMBER AND PRACTICE THE PRECEPTS THEY HAVE HEARD. If hungry they would go away quarreling, forget everything he had said and prey upon one another before they got home.

\$50,000 a Year Steel Trust Head Began Work at \$5 Weekly

AMES A. FARRELL, who bereafter will draw \$50,000 a year as president of the United States Steel corporation, is forty-eight yes as a humble workman in a wire mill in New Haven, Conn., where he was born. His pay was \$5 a week at the start, but within a few years be was a foreman and was getting comfortable wages. Then he decided that Pittsburg was the place for a man who knew as much about the steel business as he did, so be went to Pittsburg. He remained there in various capacities with steel and wire concerns until the billion dollar steel corporation was formed, when he became president of the United States Steel Products Export company, the export department of the parent concern. He has held that position for eight years, during which time the export business of the corporation has shown steady gains. It was his work in this capacity that caused his selection to his new post. Mr. Parrell lives in Brooklyn. He is married and is the father of two boys and three girls. He has a great capacity for work and usually spends ten to twelve hours daily at his desk.
