SENATOR ALDRICH FOR RECIPROCITY

NAMED PRESIDENT TAFT INVITED HIM TO TAKE THE HELM IN THE FIGHT.

PROMISES HIS MORAL INFLUENCE

Will Again Afloat That President Will Call Extra Session If This Congress Fails to Act.

WASHINGTON, Feb. 20.—(Sp.)—This late day Senator Aldrich is reported as coming to the aid of President Taft in his desire for reciprocity in Canada. It is said he has written a letter to the President in which he says as much.

When the announcement was made the Senate that Aldrich had gone to the aid of the President, it caused considerable comment. Aldrich is in Georgia, his health, and may not return, but his influence he must use will necessarily be with his friends.

The White House had said nothing to the effect, and there is speculation as to whether or not it will be published. There is a rumor that the President first wrote Aldrich in the latter and that this is the answer.

The story was again afloat today to the effect that if the reciprocity measure is not passed this session the President will call an extra session to try to get it through then.

DOING JUSTICE AND "DOING IT GOOD."

GRAND MASQUE BALL OF GERMAN VEREIN

BUSCH HALL, WITH ITS SEA OF MASKERS PRESENTS A VERY PRETTY SIGHT.

The grand masque ball given by the German Verein at Busch's hall last Saturday night was a decided success. The music was furnished by an orchestra of seven pieces composed of home talent except two and these were from Portland. Many of the latest dances were furnished by these musicians and the merry dancers danced until a late hour. Many grotesque and pretty costumes were worn. At an early hour people commenced to arrive in the hall and by 9 o'clock the floor was filled with maskers and at 10:30 the masks were removed when many more attending enjoyed the dance. The orchestra was liberal with its music, and responded to all the encores. This was one of the most enjoyable balls ever given by the German Verein, and everything went off with a snap showing those in charge of the affair had spared no pains in carrying out the program of the evening. During the evening punch was served in dining room. Many spectators were in attendance.

The committees in charge of the ball were composed of the following: General committee—H. W. Streib, L. Nobel, D. H. Klemsan, Chris Hartman, P. J. Winkle.

There has been talk of drastic measures in case the company fails to do its part and it may be having its effect. At any rate the company now promises to do its part, and do it at once; members of Council insist it must be done the coming summer as it is unfair to ask the people of Canemah to go through this trouble another winter.

The officials of the company expressed a willingness to do whatever is right in the matter and referred Councilman Burke to Tom Sullivan, who is in charge of the construction work for the company in this section. Councilman Burke took Mr. Sullivan over the ground and the two decided that it would be necessary to raise the roadbed two feet, to conform to the raise in the height of the dam. Mr. Sullivan says that he is ready to do what is best in the matter and that the people shall have no cause for complaint against his company; that he will take up the matter with the engineers of the road and find out just what is necessary to do, what it will cost and how long it will take to do it and then confer further with Council in the matter.

CANEMAH ROAD TO BE RAISED THIS SUMMER

O. W. P. OFFICIALS PROMISE COMPANY WILL DO WHAT IS RIGHT IN THE MATTER.

Council recognizes that something must be done in the matter of raising the road leading to Canemah—this part of it, at least, that is within the city. It cannot be permitted to let matters go on and the road overflow every time there is a small freshet and the people living in Canemah be put to inconvenience and loss.

With that thought in view Councilman Burke made a trip to Portland this week to see officials of the O. W. P., who in the manner of their improvements in that part of town have made it possible for the overflow complaint of Canemah.

The officials of the company expressed a willingness to do whatever is right in the matter and referred Councilman Burke to Tom Sullivan, who is in charge of the construction work for the company in this section. Councilman Burke took Mr. Sullivan over the ground and the two decided that it would be necessary to raise the roadbed two feet, to conform to the raise in the height of the dam. Mr. Sullivan says that he is ready to do what is best in the matter and that the people shall have no cause for complaint against his company; that he will take up the matter with the engineers of the road and find out just what is necessary to do, what it will cost and how long it will take to do it and then confer further with Council in the matter.

In case the road is raised two or three feet it will be necessary to change the grades in the street for some distance each way and this will require the work of an engineer to determine.

There has been talk of drastic measures in case the company fails to do its part and it may be having its effect. At any rate the company now promises to do its part, and do it at once; members of Council insist it must be done the coming summer as it is unfair to ask the people of Canemah to go through this trouble another winter.

SOPHOMORE CLASS BANQUET.

Members, Faculty and Friends Enjoy An Evening With Class of 1913.

The Sophomore class of the High School gave a banquet in W. O. W. hall Saturday evening to which they had invited members and friends. Preceding the banquet there was a program and the evening and its events proved to be one of the most enjoyable in the history of the school.

The program: Grand March, Led by Miss Johnson and Bothwell Avison; address, "Class Spirit," Prof. Toose; piano solo, Marion Money; recitation, Eula Schuchel; song, Sophomores Glee Club Girls, accompanied by Miss Canfield.

The hall and the dining room were decorated with class colors and evergreens, with pennants on the wall. Punch was served during the evening. After the program came the banquet at which all members of the faculty were called on for speeches. The officers of the class and the editor of the Hesperian also made short talks.

"HITS THE PIKE"

For the Reservation as Soon as Released, Does Warren Brainerd.

Warren Brainerd, an educated Indian who is a carpenter by trade but who has been hanging around the city and it is charged gets whiskey for others of his race, was again in the lockup for that offense. Recorder Stipp sentenced him to a fine of \$4 and 25 days in jail, and he was locked up the last of the week. Monday he asked for permission to go back to his tribe, paid his fine and the jail sentence was suspended during good behavior.

Brainerd is evidently tired of the jail for as soon as released he "hit the pike" for the reservation and has not been seen since. It is said he is a good carpenter and when once at work does a good stroke at it until he gets that whiskey taste in his mouth that brings him into civilization (?).

BADLY RUPTURED SUNDAY.

Log Gets Better of Him, Making Visit to Hospital Necessary.

Roland Fosberg, clerk in the Brightbill grocery store on Main street, was seriously injured Sunday at his home near Willamette. He was rolling a log at the time and in some way the log got the start of him and in his effort to control it lifted when in an awkward position, rupturing himself seriously.

So serious was the injury, and so grave the danger from the wound, that he was at once taken to the hospital in Portland and an operation performed. At last accounts he was resting easily with prospects for a speedy recovery.

MEASLE INFECTED PUPILS BARRED

WHERE CHILDREN HAVE PASSED THROUGH THE DISEASE THEY MAY ATTEND, HOWEVER.

HEALTH OFFICER LAYS DOWN RULE

Prof. Toose Does Not Wish to Work Hardship on Pupils Where It is Found to Be Unnecessary.

There has been more or less trouble and annoyance from measles in the public schools the past few weeks and it has been a case of how to handle the matter with the least injury to those pupils living in homes where brothers or sisters are ill and at the same time protect those who have not had the disease.

It has not seemed right to keep pupils out of school who have had the disease, from the reason it is doubtful if it can be carried in the clothing. And it did seem unwise to permit those who had not had the disease, but had been exposed, to continue in attendance as it was uncertain how soon they might come down in the school room and infect the whole room. A conference was had between Superintendent Toose and Health Officer Norris, Monday, and the Superintendent gave out this statement:

Acting upon authoritative advice the public schools have refused to permit children living in homes where the measles prevailed to attend school, though they might have had them in some time past. After consultation the health officer authorizes the following statement as a guide in the matter of contagion from measles for the future:

DEED OF VALOR TOLD IN BRONZE OR MARBLE

STATUE TO BE ERECTED IN COURT HOUSE SQUARE IN MEMORY OF LOCAL FIREMEN.

If the plans of the members of the six fire companies in Oregon City do not miscarry the court house square will be adorned with a marble statue of a life-sized figure of a fireman. The 12 men, two from each company, are working heroically to raise sufficient money to obtain a monument that will be an everlasting credit to the firemen and to the city and county.

George Griffith, who was delegated to go to Portland and make investigations of the prices and character of a suitable monument, reports that a life-sized figure, in marble, six feet and six inches in height, can be purchased for \$1000, and that a similar figure in bronze will cost a little more. This is aside from the base, in which it is proposed to install a drinking fountain, and the officers of the Clackamas County Humane Society are co-operating with the firemen's committee to obtain the monument.

It is proposed to place the monument directly in front of the gate in the court house square, fronting the steps leading to the doors of the court house. The six companies have each appropriated \$25 and with a nucleus of \$150, the committee is encouraged to proceed with its work. Next Friday evening another committee meeting will be held in the Fountain House rooms, at which Mayor Brown and E. G. Caulfield, of the Clackamas County Humane Society, will be present.

BURGLAR ON THE HILL GIVEN A BAD SCARE

EFFECTS ENTRANCE THROUGH WINDOW BUT IS DISCOVERED AND DRIVEN AWAY.

The home of Mrs. Maggie Draper, on the hill, was visited by burglars at an early hour Saturday morning. The burglar was frightened away by the inmates before he had an opportunity to secure any booty.

Shortly after midnight a daughter of Mrs. Draper was awakened by some one pushing up the window to her bedroom. Waking up and looking around she discovered a man about half way into the room, coming in through the window. She at once let up a shout, calling for help in a loud and excited voice. The burglar saw at once that his entrance was not to be effected noiselessly and he quickly fled.

Feeling that the man was as badly scared as themselves, and arguing that it would be a long time before he would dare try it again, no report was made to the police and so the capture of the man, whoever he was.

COMMITTEE FROM PORTLAND LODGE BRINGS IT AND HANGS IT IN LOCAL LODGE ROOM.

Monday night was a gala day in Willamette Council Knights and Ladies of Security. The last quarter of 1910 the local council secured the greater number of new members of any council in the State, and in doing so won the banner that is given over for keeping to the lodge doing so for the succeeding three months. On that occasion Unity council of Portland, that has held the banner the past three months, sent a committee to Oregon City to deliver the banner, and the local council had prepared to receive it. Following the banner presentation ceremony there was a banquet and a social good time.

At the close of 1910 there were 100,383 members and \$1,333,590 surplus. The order had paid in benefits and death losses \$7,551,617. There are 200 members in Oregon City and the order is growing very fast. There is a class of 50 in preparation for initiation.
