

It Wouldn't Pay to Advertise A Poor Article

Nor a proposition of doubtful merit or honesty—for ad-readers, nowadays, are DISCRIMINATING. They know values—they know GENUINE things, genuine opportunities.

Any article which can be sold by advertising is, by that test, a GOOD article. YOU are safe in buying a thing which has "set the fire of publicity."

The maker of a widely advertised article, or commodity, is at ways on trial for his business life. He cannot shirk, nor cheapen his product—and this is the best possible protection for the consumer.

You are SAFE in buying advertised things—it's the logic of nowadays business conditions.

Benton County Fruitmen Combine. CORVALLIS, Or., Feb. 27.—At a meeting of the Benton county fruit-growers in the Commercial Club rooms, plans were made for an association similar to the Hood River combination, and a committee was appointed to draw up articles of incorporation. This is the first movement made by fruit men of this part of the valley toward organization, and it was brought about by the unstable condition of the market and the refusal of numerous small growers and farmers to comply with the requirements of the insecticide law. It was shown that while Benton county growers were getting only 50 and 75 cents a box for choice apples, Lin county was getting \$1.75 and upwards for the same quality.

Raising Turkeys. Turkey hens produce such a limited number of eggs that it is scarcely necessary to bring into use the incubator for their hatching, as the hens themselves can take care of all they lay. Moreover, the fact that the turkey hens are almost indispensable to the successful rearing of the poults makes it an absolute necessity that they should hatch some of their eggs, so as to induce them to brood the poults.—Field and Farm.

Parental Tactics. A worried parent is sometimes obliged to do something like this: "Pa, what is a transcendentalist?" "Have you chained up the dog, as I told you?" "Not yet, pa." A New York lawyer who has acted as administrator of an estate valued at \$7500 has finally turned over \$750 to the heirs. He probably gave them that amount for the purpose of showing them that he was no hog.

IT WON'T COST YOU A CEN

Come and see those beautiful Shirts Waists in Holmes' Window.

The American Woman. The most spoiled woman in the world are the American women. No one disputes this, yet even the American woman herself. She accepts it with complacency.

But are the grounds for her complacency justifiable? Is it her credit that the man spends his last dollar that she may be indulged; that she occupies the position of a spoiled darling rather than as helpmeet and companion; that her days vacillate between rest cures and a mad search for excitement?

Are not the American men responsible for this helpless attitude of the American woman? Have they not in their desire to guard women from every pin prick really crippled them and spoiled their efficiency as assistant burden bearers?

The attitude of the American woman has become definitely frivolous. She wastes her abundant vitality on things not worth while; she bends her keen mentality upon the attainment of social prestige, with its endless and life destroying competition; she recklessly saps her strength in a hundred ineffectual ways.

But her ambition is frivolous, her energy spasmodic and the expression of both is futile, because the objects upon which they are spent are not worth while. Why not give her insight and her vitality to the men of her family in their struggle for success? And let her make of society a relaxation, not an object; let her use it as a graceful ornamentation, but not as a foundation.

Who is to blame for so unjust a situation? Both. The American man because he foolishly shields the woman from every wind that blows, making of her a fragile orchid of hothouse beauty when she should be a hardy garden rose. And the woman is to blame for shutting her eyes to life's serious aspect, for chasing butterflies in the fair gardens of convention day in and day out, when she might be climbing side by side, with the man to the high mountain tops in the land of fine achievement.

Good Things to Know. In preparing grapefruit for the table if you will roll the fruit before cutting you will find that it is improved. It not only makes the fruit more juicy, but loosens the pulp and gives it a far better flavor.

A convenient broom holder is made in this way: Take a square of cloth a little larger than will cover the brush of the broom. Put a hem an inch wide in each end and run a tape or string in each hem, then all that is needed to have a broom cover is to lay cloth over the broom, draw the string at each end and tie.

If all the reserve cords are too large for the bottle try soaking one in hot water. It will go easily into the bottle and leave no space for air to get in. Before hemming heavy table linen rub them with dry white soap and need will go through more readily.

Try putting lemon juice on rust spots and then applying a hot iron. If rust does not disappear try again.

Good to Live By. There is only one way to get ready for immortality, and that is to love this life and live it as bravely and faithfully and cheerfully as we can.—Henry van Dyke.
