## MOVE ON MEXICO BY THE U.S. ARMY TROOPS TO HALT ON THE FRON-

TIER AND PROCEED TO MA-NEUVER FOR PRACTICE.

## MAS SAID TO BE HIGHLY PLEASED

Our Show of Strength Likely to Make Rebels Careful as to How They Treat Ameri.

WASHINGTON. March 8.-(Spl.) The officials here still insist that the sending of warships and troops to territory continguous to the Mexican frontier is simply a case of military maneuvers. And the sending of a telegram to President Diaz informing him that there is nothing in the movement to cause him alarm, and the story that Diaz is pleased, is also said by the officials to mean nothing.

But unofficial Washington says that things look as if there was a concerted action between Diag and Taftmeaning the War Department when Taft is mentioned. And it is further argued that Diaz is pleased and that unless he understood it he would certainly be alarmed.

It is known that Taft and Diaz are fast friends. It is intimated that the worry the insurgents have given the President makes him have a fellow feeling for Diaz, and has led him to take a step that no one can cavail at and still it will materially aid the organized government in Mexico, morally at least.

Another theory advanced is that the insurrection has proceeded far enough to endanger financial holdings of American investors and that from that fact it was high time our govern-ment did something to give the destroyers a set back, and that the encouragement of the Mexican government was certain to have that effect. Troops and ships are now on their way and within a few hours this Nawill be in shape to whip the whole Mexican frontier.

#### TWO NEW TARIFFS.

Will Scheme to Keep Mean Rate About As it is. CHICAGO, March 8.-(Spl.)-It is hard matter to get ahead of a railway

if you let them write the tariff. The report is current that already the railsays are planning to meet the competition that is certain to come once the Panama Canal is opened. Rumor has it that the new rates will be put into operation; one low of products that are likely to go by water, to meet that competition; the second high, on commodities that cannot well be shipped by canal in any event, to even up matters and preserve about the same mean incom from the traffic handled.

**RICE TO BE GROWN** BELIEF HELD THAT SOIL IN WIL LAMETTE VALLEY WILL PROVE IDEAL. the annovance. **IRRIGATION FOR VERY MANY ACRES** More Profitable Crop Than Wheat

Where It Will Flourish-Will Try it Here at an Early Day.

PORTLAND, Or., March 8.-(Spl.) -That rice can be grown in the Willamette Valley successfully is the belief of Government experts and at tempts will be made to introduce this new crop. Charles E. Chambliss, in charge of rice investigations for the United States Department of Agriculture, will come to Portland soon to look over the situation. Local people

believe the Willamette Valley offers ideal conditions for rice culture. The crop has been found to be success in Arkansas and Texas and tests made at Red Bluff, Cal., last year were encouraging. Seed from the California experimental plots will be used in sowing the small tracts to be tried in this State. The mild winters, early springs, dry summers, with abundant water for irrigation and flooding the rice fields of the Willam

ette Valley indicate to those interest ed in the subject that rice culture may be made very successful here and a big industry built up.

The character of the soil has been found to be similar to that at Louisiana. Ark., and the elevation is about the same. There rice growing has become a big business, with good pro-fits to the farmers. There is a duty on imported rice of 2 cents per pound and a ready market is found for the product in the United States at 71/2 cents a pound. It is said to be a more

profitable crop to grow than wheat Many suppose it is a difficult cereal to raise and harvest. This is said to be a mistake for by modern methods it can be handled as easily as other grains. Only after the planting has been made is the field flooded and the water is drained from the ground a few weeks before harvest. Then

headers are run over the field and the rice threshed the same as if it were wheat.

APPOINTS COMMITTEES, ENJOYS point DUTCH LUNCH AND TRANS ACTS ROUTINE BUSINESS.

Tuesday night was the monthly meeting night of Green Point Hose Co. No. 5. There was a good attend-ance and the usual routine business was transacted. After the business of the evening there were refreshments, music and a few short addresses. Councilman Burke was present and joined in the festivities and the discussions.

The company appointed a commit tee to wait on Council and ask that the meeting quarters of the company be enlarged, as they are inadequate to the needs of the company. The members of the committee are Wm. Berggren, R. Griffith, F. Champion and Tony Haas.

It is the bellef of the firemen that he fire companies should receive the more money than they do now-which is \$25 a year-and it is the purpose of the firemen to ask for \$50 per annum. Acres of This Froductive Valley.

"The great need of the apple indus try in the Willamette Valley is more up-to-date and intensive methods," said Prof. C. I. Lewis of the Oregon Agricultral College department of hor-ticulture in a recent address before the Lane County Horticultural Society at the Eugene Y. M. C. A.

"We must use more care in lection of our orchard sites," he con-tinued. "Gently rolling locations that have good air and soll drainage and good depth of soil, preferably the clay loams, should be selected. One-year old trees should be insisted upon. These should be headed low, from 18 to 20 inches, and an attempt should be made to try not to have the branches all grow out at nearly the same

"By careful summer watching the first season we can develop much better heads to our trees. We should give the trees plenty of room to grow, too. When they are on strong bottom land, 30 to 35 feet will be needed for proper planting, while hill lands will stand closer planting. Deep and in-tensive cultivation should be practiced and the young roots should be encouraged to strike deeper. this with frequent shallow soil cultivations not over three inches in depth, never allowing the ground to become caked or to dry out. In the you orchard cultivation should cease abo the first of August, so that the trees may harden properly so that they will not winter kill. Old, heavy bearing orchards will need intensive cultivation late into September in many

cases. "Nearly all our older orchards and many of the new orchards planted on fallow wheat fields should be planted to cover crops. About 40 pounds of Oregon yetch and 10 or 15 pounds of rye to the acre, drilled in at the first of August, is very satisfactory in this valley. This should be plowed under in the spring, at the time when we

naturally plow the orchard. Must Prune Every Year. "Pruning must be followed annually. Severe heading in and thinning

## Judge in Lucky Baldwin Case So De-

cides Today. LOS ANGELES, March 8.-(Spl.)-Anita Baldwin Turnbull, who has been asking for one-sixth of the \$11,000,000 left by Lucky Baldwin, lost in the court here today. The judge hearing the case decided that there was not enough evidence to establish a marriage and that if such was not the case the claimant would lose.

The final clause in the decision was, "That Beatrice Anita Baldwin, otherwise known as Beatrice Anita Turnbull is not a legitimate daughter of a legitimate child of Elias J. Baldwin, deceased."

#### MARRIAGE LICENSES.

Licenses to marry were issued Wednesday to Mamie Annie King and William S. Faust, and Clara Belle Grant and Harry C. Eckles. The latter couple was married at the court house by County Judge Beatle.

PEOPLE OF THE EAST TO BE TOLD OF GOOD THINGS BY YOUNG FRIENDS.

EUGENE, Or., March 8.-(Spl.)-This city will have a special Colonist Day on March 10, when people living here will write to some Eastern friend telling why they like to live in Eugene. School children will join in the campaign of personal advertising and will be encouraged to send illustrated booklets issued by the Eugene Commercial Club. Postage on these let-ters will be paid by the club.

Teachers promise to interest their pupils in the work and special time will be taken for it. Considerable descriptive matter about the Northwest will be included in the letters, giving people addressed a better idea of the country and tending to create a desire to visit that section. The Eugene idea might well be adopted by other cities.

Court Martial May Be Used to Enforce

Better Attendance. Announcement is made that First Lieutenant William Logus, a veteran of the Spanish American war, who is in command of Co. G. O. N. G., will resign in June. He is said to feel that he has seen enough of service and wishes to put off the responsibilities of his command.

In this connection there is said to be some talk of using the court martial in case there is not a better at-tendance at the drills of the company. Only about half the boys attend drill and it is said that there is too loose a rein being held over them.
