SEVERAL REGIMENTS IN DREGON ORDERED PLACED ON A FIELD FOOTING.

### NUMBER OF PETTY OFFIGERS REDUCED

Machine Gun Company Ordered Recruited for Each Regiment-All States and Territorles Affected.

PORTLAND, Or., March 18 .- (Spl.) The War Department has sent or ders to Adjutant General Pinzer that he at once bring the Oregon National Guard to a footing for field service. Steps were at once taken to carry out these orders.

The orders bear the signature of Major General Wood, chief of staff of the army. The important change ordered is recruiting to a field footing. The Guard is at present on a peace footing. At the same time the number of petty officers will be reduced. Nothing is said about field service, and no hint is given that such a thing is contemplated. The order is formal and on the surface contains nothing to cause suspicion. Similar orders have been sent to the other States and territories and it is a general movement to increase the efficiency of the to per cent.

One important addition to the force of a regiment is found in the fact that machine gun company is to be provided for each regiment,

# GLADSTONE'S PARK

MR. CROSS, THE DONOR SAYS HE HAD NO IDEA OF INJECT. ING TROUBLE

has a misapprehension as to what he wishes in the matter of the park. Mr. Cross says he has no idea of starting a row between Gladstone and the Willamette mill. He says that he is cer tain that the paper company will gladmeet the village half way and that the few cords of cottonwood growing on the island would be no inducement the denuding of the island now as at is and is prepared to put its

shade to good use, This island is a pretty spot-it is made a pretty spot by nature and all that is needed is for man to do a little work to clean it up and trim out the fank growth amongst the underbrush make it a spot of beauty and a place where people can go for enjoyment on a summer's evening. But Mr. Cross says he did not give-

to be a dispute as to its ownership, and that it is not fair to intimate any such thing. He gave several acres in addition to Gladstone and he wants to see the whole matter taken over and put into shape for beauty and convenience; and Mr. Cross says that if Gladstone wishes to do this he is of the opinion that the Willamette will meet the village half way.

#### DR MARY WALKER

Talks About the Hobble Skirt and the ALBANY, N. Y. March 18.—The so-called "harem skirt" is an improve-ment on the "hobble skirt," said Dr. Mary Walker, who is in Albany today, and the "hobble" will be in advance

on the style that went before. "Both styles," she asserts, "are an approach to the dress I have advocated for years, namely, peg-top trous-

ers and a frock coat." Dr. Walker wears a frock coat and trousers herself and tops off the out

ht with a silk hat or fur cap. In time she believes all American women will come to her manner of dressing, "because of the added free dom it gives, and the great case of getting in and out of trousers, coat and waistcoat, as compared with skirts, petticoats and so forth."

#### MESSAGE WILL BE BRIEF.

WASHINGTON, March 18 .- (Spl. The President's message to Congres will be brief, it is promised, and the President will return to Washington next week to do the work neces sary in preparing for the special session that he has called for April 4.

YOUNG LADIES MAKING UP PAR-TIES TO HIKE THE COUNTRY ACROSS IN JULY.

Some of the young women of this city, who are members of a party to walk to Newport the coming summer for their vacation, will get in trim immediately for the long trip before it to the city because there happened them, which will be over 135 miles, as they will go by way of the West Side, and will make a trip to Portland on Sunday by foot, returning on the electric car. They will try to make the trip in about three hours, as several wagers are up, and they will try to come out with flying colors on their first effort. Upon arrival in Portland the Falls City hikers will enjoy a supper at the Oregon grill.

Since the young women have announced their intention many wagers have been put up. Although the trip will be a long and tedious one the girls will not back out, and as several new members have been added, one of whom will take her 22-rifle, and sentence of 14 years, was begun today. make good use of it if necessary, as no doubt many wild and vicious man-eating animals will be seen on the trip. # SUSPENSION BRIDGE WILL CLOSE TUESDAY

NECESSARY TO STOP TRAFFIC ACROSS THE STRUCTURE FOR TWO DAYS.

The big suspension bridge spanning the Willamette River at Oregon City will be closed to team and automobile traffic at least two days, commencing next Tuesday morning. This an-nouncement was made Saturday afternoon by County Judge Beatle, who says the structure will be closed for a few days to give the contractor an oportunity to get the necessary repairs under way without interference. No vehicles will be permitted on the bridge during the time, but pedestrians will be allowed to use the structure as usual.

# HENRY GEORGE, JR. TALKS SINGLE TAX

HERE FOR A MONTH'S WORK BUT MUST RETURN EAST NEXT WEEK.

### SPECIAL SESSION OF CONGRESS CALLS

Talks of the Part Advanced Methods of Taxation Will Play in Saving This Nation and

Congressman Henry George, of New York, arrived in Oregon Saturday. Portland Saturday afternoon and after completing arrangements for two ad dresses in the Rose City on Sunday came to this city for a talk on Single

Tax Saturday evening The meeting was held in Willam ette hall, and the house was filled to receive him. There was a sprinkling of the warhorses of both old parties to greet Mr. George, and it was easy to e seen that they were interested in what he had to say.

Mr. George came to Oregon to take part in the two years' campaign that was recently begun in this State. He is a member of Congress from New York city and as a representative of the liberal wing of the taxation reformation propaganda he is a man carrying great weight in the counsels of his party. It was the intention of Mr. George to spend a month or six weeks in this State when his campaign was first mapped out, but the extra session of Congress makes it imperative to cut his visit short. He will return East in a few days.

Mr. George's talk Saturday evening was along the advanced idea line. of his party-a desire to put into prac a system of taxation that shall equalize the burdens of taxation-taxation being made a burden for the one reason that it is not equalized, and some men—generally the poorer classes and those who can ill afford it being made under the old system to carry a greater load than is in propor tion to the benefits conferred.

In addition to Single Tax there are two other questions that are of "s pecial interest to Mr. George at this time. He is deeply interested in the success of reciprocity, as advocated by President Taft, and in securing a material modification of the present tariff.

Mr. George expressed himself as pleased to think it is possible to follow President Taft, who is a Republican President, into fields of desires that have heretofore belonged to the Democrats—the giving to the masses of reforms that are needed while yet the people may benefit from them. As a Democrat, with Democratic sympathies on matters of general concern ne was glad to see the day when a Republican president could put aside party for the time being and assist in putting Democratic measures on the statute books of the Nation. And for this he wished to commend Taft—and these other Republicans who were rising above party and taking hold on

measures patriotic.

The audience to greet Mr. George proved to be seeking for light and became interested in what he had to say early in the evening.

#### BANQUET DATE ADVANCED.

Board of Governors Decides to Give Elks Free Field for April 21. The Commercial Club has been plan-

degree of satisfaction.

As a result the Commercial Club Governors met and decided to advance the date for the banquet to Wednes-day evening. April 19. This gives the Elks clear field, which the members of that organization will no doubt ap-

# MOLALLA RAILWAY REAL NECESSITY

NO OTHER ENTERPRISE PROMI SES SO MUCH FUTURE BENE-FITS FOR CITY

#### LOCAL PEOPLE MEAN BUSINESS

"Live Wire" Committee Has Made Careful Investigation and Has the Matter Well in

Hand.

For more than twenty years past the people of Clackamas county have felt the necessity of a railway into the Molalla country for the purpose of marketing the large amount of timber standing in the foot hills and mountains, and also for the purpose of ren dering it possible for the farmers liv-ing in that large territory to find a market for their produce that is raised in that fertile section of the county, and in addition thereto, to obtain an easier and more commodious way of charged him... with beating her and traveling to and from that rich section knocking her down. Bullard was released on his own recognizance, his

of the county to the market places. As a mater of fact, the people of Oregon City, and in fact all of those who live in this part of the county, are more or less directly interested in seeing a railroad built into the Molalla country from Oregon City, as they recognize the fact that a road built from Salem into the Molalia country would practically destroy Oregon City's prospects of ever accomplishing anything, for the reason that the entire surrounding country that is naturally tributary to Oregon City, would

drained away in another direction. About a month ago surveyors from Salem were investigating the value of the Molalla country for railroad purposes, and figuring upon an extension of the line built from Falls City to poses, and figuring upon an extension of the line built from Falls City to Salem on to Silverton and down into the Molalia country for the purpose of handling that large belt of timber which is natually tributary to the pro posed road, and in furtherance of their plans, they have obtained from the legislature a right to build a bridge across the Willamette River at Salem, and have obtained from the City Coun cil of Salem a franchise allowing the road to be built through the city to its eastern limits so that their plans may be carried out according to their

intended program. . The Live Wires of the Commercial Thib of Oregon City immediately saw that if the plan above mentioned was carried out, it would mean ruination of one of Oregon City's most valuable assets, and appointed a committee to investigate the mater and report some own people in order that we might protect ourselves against the proposed invasion. The committee carefully investigated the matter and made a detail report, and the substance of that

There is no section in Oregon so inviting than is the Molalla country and that country tributary to a line of railway built from Oregon City to that beautiful valley, and if a road were built along the lines laid down by the committee appointed by the Live Wires of the Commercial Club of Oregon City, the interests of all of the stockholders would be carefully guarded and the road could be built.

OHN LEWTHWAITE TELLS STORY OF THE FINANCIAL SHOW-ING MADE BY MILLS.

Mr. John Lewthwaite, a long-time West Side resident, owner of some of the newly opened West Side townsite, choir of the First Baptist church in public spirited, and interested in almost every undertaking for the good of Clackamas county, stated to the Enterprise man yesterday evening:

"I have been in Oregon for nearly twenty feasible plan to be pursued by our across the river grow step by step, at the same time watching day in and day out like progress in the industrial development on the West Side. When the hard times struck other cities some three or four years ago, very few knew how difficult the task to secure the wherewithal to meet the heavy demands on pay day. It is true Clearing House Certificates were used by the banks, still every cent was paid and the workingmen of this district never lost a day from their regular employment. Business in Oregon City continued—the banks had some be used exclusively for work on the difficulty on account of banking gener ally being "out of order," but no one here closed his doors or was forced to

the wall. What brought about this unusual condition? "I say, Industry. For the size of the County from point of population, this County has more and better industrial chances than any other in the State. The railroad records, including shipments of logs to the upper river, will show the handling of over 700 tons per day for the West Side mills and as conditions in the past have warranted, the industries have kept up with the demand. Oregon City gets all the benefit of these conditions even though the plants are not within the corporate limits. Over \$60,000 in pay roll monthly come from the various West Side enterprises and almost ,if not all, goes into Oregon City homes and, through them, into the business houses. The mills, there fore, are doing their part to keep the

The suspect, who was taken into ustody at a late hour Friday night on the charge of murdering little Barbara Holzman at Portland, was released Saturday morning, after Detective Coleman, of Portland, had come up to examine the prisoner. Coleman was quick to declare that the man, who says his name is Morgan, is not the murderer, who is said to be nearly six feet tall, while Morgan is of less than medium stature.

Morgan was found Friday at Logan and the people of that section believed he was the slayer and took him to Fisher's house, where Sheriff Mass at Deputy Sheriff Ely went Friday night and brought him to Oregon City.
