

BOURNE TO FRONT ON P.O. COMMITTEE

CHANGES IN PERSONNEL OF SENATE LIKELY TO ADVANCE OREGON SENATOR.

Senator Bourne so unfriendly to President Taft would likely thwart administration plans.

WASHINGTON, March 29.—(Sp.) It looks as if it was necessary to give the chairmanship of the committee on Postoffice and postroads to Senator Bourne, Oregon, whether the President would like to have him in that position or not. According to reports it must be given that position and President Taft would not want to put himself in the way of Bourne.

There have been many plans put forth as to how the chairmanship may be given to another but any one of them would amount to much of a distant slip, and that would not look well and the Senate is not likely to accept it.

It is thought that Bourne's hostility to Taft will make it next to impossible for the President to put into effect certain reforms in the postal service that he has in mind. If Bourne gets the chairmanship, and the administration can now see no way to head him off, he will be in a position to pay him back for efforts to force Bourne in the past.

MAY BE THE END.

BIG GUNS COMING FOR CHAUTAUQUA

PLANS MAKING FOR SOMETHING TO INTEREST ALL SO SCHEDULED ONE MAY KNOW.

GOVERNOR HANLEY, FROM INDIANA

Scotch Day and Boys' Day Are Two New Propositions Squeezed In to the Program by Mrs. Dye.

As the day draws near for the meeting of Chautauqua interest increases at that event. The history of the past successes looms up big in the distance but the program this year promises more than any in the past. With the big show only three months away, and many items on the program that one does not want to miss, it is only natural that the public eagerly reads what is written and listens intently to what is said.

New things are being added daily, changes being made and condensations planned so that additional good things that keep bobbing up from time to time may be squeezed into the program—a program that seems to have been squeezed and crowded about as much as is possible.

Scotch Day, July 6, is one of the new things for which there has been found place by Mrs. Eva Emery Dye, in the Forum. There is to be a Scotch program and all the Scotch societies in this section of the Northwest are to be invited to participate. The program will have both musical and literary numbers and as there is a great variety in what can be served up in a Scotch way friends of such a program can look forward to real enjoyment on that occasion.

July 7 is to be known as Farmer's Day—why Farmer's Day when all are farmer's days one may well ask. Farmer's Day last year proved a very interesting event and this year more effort will be put forth to make the day distinctive and in consequence much more may be expected of the occasion.

That Farmer's Day may have something of special interest attached it is planned to have Ex-Gov. Hanley, of Indiana, on that occasion. Gov. Hanley is the man who refused to give Kentucky to Indiana for protection from those who claimed that Taylor had a hand in the killing of Goebel. Hanley refused to give Taylor up when a regulation was presented from the Governor of Kentucky, and Taylor lived in Indiana not daring to return to Kentucky lest he be put on trial for the crime.

July 13 will be known as Boys' Day. On that day all the boy organizations of the Northwest will be invited to be present, and the day will be given over largely to a program that will fit well into their lives and tastes. There will be two ball games and other outdoor sports that will interest and instruct the youngsters who make it worth their while to attend on this occasion.

July 13 will be known as Woman's Club Day, at which time the clubs the section over will be made welcome and a program prepared with special reference to the tastes of the women who enjoy club matters and club programs.

July 14 there will be a Congress of Oregon Mothers, with a program prepared with a view to their needs and enjoyment that will be given in the afternoon by W. C. F. U. Day, and the organizations affiliated with the temperance work will be supposed to make a grand rally to show to the world that there is a body of organized women who are fighting for the principles announced.

FORMATION IS SOFTER DRILL ENCOUNTERS

HAS BEEN HARD PAST FEW DAYS AND DRILLING WAS VERY SLOW.

STONE, Or., March 29.—(Sp.)—The well was drilled in upwards of ten feet today, in the 24 hours of drilling. The well is now down 1165 feet, but the drill has been going down slowly for the past two or three days on account of the hardness of the formation through which the drill is passing.

The formation has been hard for several days and the drill makes slow progress. But it being hard makes it possible to drive the casing into it securely and thus shut the water out. It is hoped that the water will be shut off by the present drive of the casing.

Tonight the formation through which the drill is passing seems to be getting softer. This will mean faster progress. There are indications at the well side that are causing the drillers to hold whispered consultations but not a word will be given out as to what it is that leads to the mystery.

CHICAGO EDITOR WHO TELLS PART OF THE STORY BUT REFUSES REST.

SPRINGFIELD, Ill., March 29.—H. H. Kohlsaat, publisher of the Chicago Record-Herald, told the Senate investigating committee today that he knew \$100,000 had been used to procure the election of William Lorimer to the United States Senate.

He then refused to give the committee the source of his information, notwithstanding the committee has the power to imprison him because of his refusal.

"Any man who will violate a confidence is not worth a snaf," said Mr. Kohlsaat. "No newspaper man can violate a confidence. That is my code of morals."

"You have been demanding this investigation, and now you refuse to aid us."

"I appreciate the position, but I will not violate this confidence," concluded Mr. Kohlsaat.

The committee then went into executive conference. Again Mr. Kohlsaat refused absolutely to answer the questions.

Mr. Kohlsaat was excused until 10 o'clock Thursday morning. He was informed by the committee that its members had agreed that he must answer the questions regarding the money.
