The sons and daughters of T. L. Turner, of Stafford, with their families, met at the old home at Stafford Sunday for a last reunion before the father goes to the home of a son in Dayton, Wash., for a long visit—the mother of the children having died a short time ago and the home not likely to be the same from this time on. The Stafford home was the childhood home of the children now grown.

Those present on the occasion were Mr. and Mrs. E. R. Seelye, of Woodburn; Mr. and Mrs. Fred Elliker and family, of Stafford; Albert Turner and

The day was as happily spent as it could be so near to the demise of the loving mother. A visit was made to the grave and flowers strewn in remembrance of the love which was once given as homage to one all loved so well.

Damascus Has Amusement Club. Realizing that in order to make young people enjoy and prefer country homes and country life, good amusements must be provided for their entertainment.

With this thought in mind the people of Damascus have organized an amateur athletic club.

The spacious hall of J. C. Elliott affords a very comfortable home for the club, it being equipped with excellent lights and furnishings of all sorts.

The club room has been furnished with trapeze, turning bars, rings, ropes, mats and all the paraphernalia necessary for good athletic work.

Irish Colleens Come to Show How to Make Laces and Rugs

Copyright by American Press Association.

FOUR pretty Irish girls have just arrived in the United States to show us how to make lace, weave rugs and do embroidery, cut work and leather carving. Incidentally they will give an exhibition of personal piety that will be worth seeing, for these colleens are undeniably beautiful, and they will be as interesting and as attractive as the work they do. The girls were brought from Ireland by the Gaelic league, and they are to visit all the large cities in this country. In the picture printed above the colleens, reading from left to right, are Bridget McLaughlin, Maftan J. O'Shea, Eileen Noone and Bridget Quinn. Miss O'Shea is in charge of the party, and she is the one who describes the wonders of handicraft that the others turn out. They are not a bit vain of their beauty, but they show considerable pride in their craftsmanship. They hope to prove by exhibiting their work that it would be better for girls to revive the ancient arts and crafts of Ireland than to wear out their lives over machines in dingy factories. Colleen Quinn is an expert lacemaker, and she can describe as well as construct the Irish crochet, Limerick and Carrickmacross varieties. Colleen McLaughlin weaves rugs, some of those she produces requiring a month in the loom to weave a square yard. Eileen Noone does the embroidery and leather work, and during her spare moments she turns out oil paintings that correctly reproduce the beautiful Irish landscapes. The girls say they are not militant suffragettes, and all but Miss Noone said they had no desire to vote. Miss Noone said she would like to have the ballot, and she added, "I don't believe the women would make any worse mess of politics than the men have." She expressed surprise at the height of New York's skyscrapers and said she would be afraid to go to the top of them.

Brotherhood Sermon Sunday Evening. Sunday evening at the Congregational church will be given over to a Brotherhood service, at which time the members of the Congregational Brotherhood will be invited to attend in a body and listen to a sermon special to the occasion. Rev. Nyland, of Portland, will occupy the pulpit at that time. All brotherhood men and those who have an interest in the work are invited to be present.

Are You A Money Saver? Most every one expects to be a money saver some time. Some expect to save when their income is larger; others plan to save when their expenses are less. People who wait until they can save without effort rarely begin to save; they wake up some day filled with regrets because of the opportunities they have missed. The moral is: Begin regular saving at this bank NOW; whatever the income, make the outgo a little less and save the difference. It's a simple matter to start a savings account here.

Heart to Heart Talks.

By EDWIN A. NYE

OVER THE PHONE.

Eight-year-old Alonzo Cummings of Terre Haute, Ind., was hurrying to school when the poor lad was struck down by a street car.

Taken to a hospital, it was discovered that his arm was badly mashed and that amputation would be necessary.

Just before he took the anaesthetic for the operation Alonzo asked to be allowed to say a prayer he had been taught in Sunday school.

And so while the surgeons waited and the nurses bowed their tearful faces the little fellow recited to its amen the petition he had learned.

Then, turning to the nurses with a smiling face, the boy said: "Now I'm ready."

An affecting incident surely. But why and how was it? Why the child's strengthened spirit? Whence came the light on his face? Was it merely the "reflex influence" of his prayer, the reaction from a mental attitude? Somehow that does not explain. It lacks something.

There was the great Leo Tolstoy. In his last interview with his niece, recently published, he was asked what to him was the greatest thing in the world. Answering, he said in substance: "The most wonderful thing is prayer—the fact that mortals may make a close connection with the spiritual world."

Is it not so?

If one may by means of some mysterious telephone call up and talk with spiritual personalities, is it not wonderful—incomparably more wonderful than any wireless telegraph?

Not that every mumbled ritual or verbal recital is a prayer. Most of them are not. Some of them are little less than blasphemy. The poet says that—

Prayer is the soul's sincere desire Unuttered or expressed.

The cry of the publican, "God be merciful to me, a sinner," was a prayer, while the verbose recital of the Pharisee was merely a public rehearsal.

Tyndal prayer tests? Say what you will, is it not natural that in a crisis the human spirit should call up its kin?

Simply because your spiritual terminal facilities may be poor how do you know that Alonzo Cummings' message was not heard at the other end of the telephone?

APPLES—Good stock is scarce and high, prices ranging from \$1 to \$2. Local stock is nearly gone and the Hood River product is reduced to a few varieties. Few good apples are left in the local market.

POTATOES—Market is a little off from last report, in demand if not in price. Real good potatoes are scarce and bring \$1 to \$1.25, while seed product commands 75c to a \$1. There are not enough being offered to fill in quantities. San Francisco market is off 15c a hundred, 30 cars arriving in one day and demoralizing the market. Local stock pretty well marketed; a few with choice stock hold for a rise.

VEGETABLES—Little change since last report; onions are a little stiffer in price but other vegetables remain about the same. Onions 2 1/2c, turnips and carrots 75c to \$1 sack, parsnips \$1 to \$1.25 sack, cabbage 3c pound. New vegetables are coming in. California is sending many things, at a high price. Local lettuce sells 5c bush, radishes 5c, onions 5c; California lettuce 10c head, asparagus 10c to 12 1/2c, Mexican tomatoes 15c pound.

FLOUR AND FEED—Little change in flour; selling down to \$5 with best bringing about \$5.50; some as low as \$4.50. In feed the tendency is upward. Bran commands \$22 to \$24, shorts \$24 to \$25, rolled barley \$30, process barley \$31, whole corn \$29, cracked corn \$30.

WHEAT—Prices in the local market show an advance of 1c to 2c per bushel. Chicago and Eastern markets are lower. Holders here want their price and the local price is 4c to 5c above the exporting price. Local dealers are paying 95c to 96c the bushel.

HAY—Is very weak and little demand. Those who have it where it is not well protected want to let go, causing the price to gradually settle to a lower level. Clover \$8 to \$10, cut hay \$11 to \$12, timothy \$15 and \$16. Alfalfa commands \$18 to \$20.

OATS—Dealers buying for shipment to meet the demand in the cities. Pricing—gray \$25, white \$25.50 to \$26. At that the market is weak and unsatisfactory.

BUTTER—Very weak and country only commanding from 10c to 15c; creamery always stiff and commanding 30c to 35c now. The Portland market is only paying from 12c to 16c. Choice dairy will bring from 20c to 25c.

EGGS—Prices about the same with demand about equalling the supply. Quotation at 19c dozen.

POULTRY—Prices are somewhat higher and the demand good. Hens bring 15c, roosters 12c, young cocks and mixed chickens 13c to 15c. Nothing doing in larger fowls.

MEATS—Veal, dressed, is bringing 10c to 11c, hogs 8c and 10c, with a big demand for mutton that makes it fluctuate according to what is offered.

HIDES—Green 5c pound, salted 6c, dry hides 12c to 14c, sheep pelts 5c to 75c each.

WOOL—Brings 15c to 18c pound, mohair 25c to 30c.

DRIED FRUITS—Evaporated apples 6c and 7c, sun dried 5c, prunes 6c to 8c.

SALT—Selling 60c to 75c for 50 lb. sack, half ground 40c 75c for 100 lb. sacks.

Why Do We Sit Still And Allow People To Die?

By Dr. C. W. STILES

Discoverer of the Disease Due to Hookworm

DUTY TO THE AMERICAN WOMAN REQUIRES ACTION TO REDUCE THE 630,000 DEATHS PER YEAR IN THIS COUNTRY—42 PER CENT OF THE 1,500,000 TOTAL—WHICH ARE DUE TO PREVENTABLE CAUSES.

Recall that about 35,000 of these human sacrifices are due to that easily PREVENTABLE DISEASE—TYPHOID FEVER. Recall that our typhoid death rate is about 46.5 per 100,000 inhabitants, that of Germany 6.3 and that of Switzerland 4.80 per 100,000. This means that we American men permit our country to be about SEVEN TIMES AS DIRTY AS GERMANY AND TEN TIMES AS DIRTY AS SWITZERLAND. And besides these 35,000 deaths there are each year about 300,000 persons who contract typhoid.

Recall that each year we bury about 150,000 of our fellow citizens who die from tuberculosis.

Each year we have over 1,500,000 cases of malaria and over 12,000 deaths from this disease. We bury 15,000 to 30,000 persons from DIPHTHERIA, 6,000 from SCARLET FEVER and 10,000 from WHOOPING COUGH.

Is the real trouble in this country that not enough children are born in any class or that too many are permitted to die in all classes? Is it RACE SUICIDE by the women or RACE SLAUGHTER by the men? What real encouragement is there to the American mother to bear more children when the American father permits our country to be so behind the advance in science that we SACRIFICE OVER HALF A MILLION AMERICAN LIVES PER YEAR TO PREVENTABLE CAUSES?
