

## DEMOCRAT CAUCUS ON RECIPROCITY

FARMERS' FREE LIST WILL ALSO RECEIVE NEAR-FUTURE CONSIDERATION.

## WOOLLEN AND COTTON SCHEDULES TOO

Will Be Among the Things the Democrats Will Try and Tamper With—Statehood Measures Too.

WASHINGTON, April 11.—(Special.)—The Democratic caucus, held tonight, decided that reciprocity with Canada and a farmers' free list are the two items that will be taken up first. Then the woolen and cotton schedules are to receive consideration.

The caucus made no changes and offered no amendments to the bill as presented by Chairman Underwood, and there was no opposition to Canadian reciprocity. It is said the free list will embrace the things that the farmers need. At the present time, under the Joe Cannon tariff, the import duty makes it prohibitive in many instances, but these will be cut so that it will be possible to import them. The Underwood reciprocity bill was endorsed without change. The caucus asked the President to continue his efforts to secure further reciprocal trade relations where it is made possible.

There are three other measures near to the Democratic heart likely to be reached—the election of Senators by the people, publicity of campaign expenses before the vote in states and statehood for Arizona and New Mexico.

Another caucus is promised to debate the revision of the wool and cotton schedules.

## LIVE WIRES MEET CHOOSE OFFICERS

J. E. HEDGES IS ELECTED MAIN TRUNK FOR THE NEXT SIX MONTHS.

## A VERY ENTHUSIASTIC GATHERING

Monday, May 15, Chosen as Oregon City Post-Card Boost Day, at Suggestion of Major C. S. Noble.

J. E. Hedges will guide the destinies of the Live Wires for the next three months, succeeding W. A. Huntley, who has been Main Trunk of the organization since its formation six months ago. Roswell L. Holman succeeds Dr. L. A. Morris as Sub-Trunk, M. J. Lazelle is the new Transmission Wire, and Theodore Osmond is Guy Wire.

These officers were elected last night at the quarterly meeting of the Live Wires in the parlors of the Commercial Club. The attendance was not large, proving conclusively that the Wires work best in the light of day, during the feeding hour. But what the meeting lacked in numbers it more than made up in earnestness and the third quarter starts auspiciously with a luncheon next Tuesday noon in the Masonic Hall by the grace of Feed Wire Tom P. Randall.

Under a resolution proposed by Major C. S. Noble, the Live Wires will father a movement to observe Monday, May 15, as "Oregon City Post-Card and Boost Day." It is proposed that all business men, public-spirited citizens or visitors having an interest in the town and State, should send to those they deal with, their acquaintances, relatives, friends and other persons throughout the United States and Europe, postal cards, pamphlets and newspapers containing views and articles specially descriptive of Oregon City and immediate vicinity.

The Live Wires believe that all those interested in the development and growth of this prosperous city, county and State, should make a special effort to cause its manifold advantages to be known to the outside world. M. J. Lazelle, secretary of the publicity department of the Commercial Club, was last night appointed a committee to direct a campaign of education along the lines suggested in Major Noble's resolution.

## REPORT IS UNTRUTHFUL.

Rev. J. R. Landsborough Says He Did Not Speak of Booster Day at All.

Some one who either did not hear correctly, or permitted himself to be imposed upon by some one who listened carelessly, was telling the story about town Tuesday that Rev. J. R. Landsborough, of the Presbyterian church, made the statement Sunday in an allusion to Booster Day that it should be denominated "Booze Day." When his attention was called to the matter later in the day Rev. Mr. Landsborough said there was no truth in the statement at all; that at no time on Sunday did he allude to Booster Day in any way, and that he had no thought of so characterizing it.

## WEDDING BELLS RING FOR WORTHY COUPLE

WILLIAM CLYDE HUGHES AND MISS CLEO CLAUDIA DILLOW MARRIED TUESDAY.

Miss Cleo Claudia Dillow, eldest daughter of Mr. and Mrs. J. R. Dillow, of Bolton, was united in marriage to Mr. William Clyde Hughes, of Bolton, Tuesday afternoon at 4:30 o'clock at the parsonage of the Taylor Street Methodist church, Portland, Rev. E. F. The ceremony was very quiet, and the young couple left for Hillsboro and Forest Grove, where they will spend their honeymoon, and upon their return will make their home at Bolton, where the groom has a nicely furnished cottage in waiting for his bride. They will be at home to their friends after April 25.

## The bride was very attractive in her gown of white crepe de chine and line, and wore a large white picture hat.

She graduated from the Hollister High school in the year of 1906, and has been for some time bookkeeper and cashier for the Oregon City Enterprise. She has been active in church work, and has been a member of the Methodist church, and has many many friends since taking up her residence in Oregon City.

Notwithstanding the inclement weather, the work is still progressing on the grade of the Clackamas Southern Railway line, although yesterday only a few men were braving the storm. The directors are very much encouraged for the reason that people who do not even live in the county are subscribing to the capital stock as an investment. Also, a large number of our most influential farmers and business men are subscribing for stock in the company, believing that

## CARS RUN TOO SLOW CHARGE NOW MADE

O. W. P. CARS RUN IN CONFORMITY TO ORDINANCE AND PEOPLE NOT SATISFIED.

For several weeks there were constant complaints made that the cars of the O. W. P. Ry. Co. were running into town too fast—that they were being taken down the line at a gait something like 40 miles an hour. Complaint was almost constant to Mayor Brownell until he finally instructed the Chief of Police to put a stop to it. This was done. Several motormen were hauled up in Police court and fines were assessed that made a hole in the motormen's wages. The natural sequence is that the motormen are now careful not to exceed the speed limit.

## BROTHERHOOD BANQUET BY PRESBYTERIANS

DR. WILLIAM PARSONS MAKES VERY INSTRUCTIVE ADDRESS—BOUNTIFUL REPAST.

More than fifty men sat down to loaded tables at the Presbyterian Brotherhood banquet Tuesday evening. The music for the evening was furnished by Haries and Carol Ely and was much enjoyed by those present. The speaker of the evening was Dr. William Parsons, of Portland, who spoke on the "Making of the Constitution." Dr. Parsons delivered a masterful discourse and brought to the men present a new and clearer conception of the conditions that brought about the adoption of the Constitution in its present form. In speaking of the makers he described them in order of their importance in terse and glowing language that made them real to most of his auditors. The unstable conditions existing previous to the adoption of the Constitution were vividly presented and made a most interesting subject. The comparisons with present day conditions throw into startling contrast the times of which he spoke. To many of those present it was news that there are almost enough State applications filed with the Secretary of State to bring about the calling by Congress of a constitutional convention. When this becomes necessary our country will be brought to the greatest crisis of its career. The method of conducting presidential elections through the electoral college; the lack of power by the government to enforce the foreign treaties by the States and the utter lack of moral foundation for the constitution were considered by Dr. Parsons the greatest weaknesses of the present instrument. In the light of the explanations offered with it Dr. Parsons' suggestion that the new Constitution that is sure to come should include in the preamble the words "to promote justice and Christian morality" was greeted with rounds of hearty applause. Rev. Landsborough and Prof. Bowland offered short but laudatory criticisms of the address.

## DRILL AT STONE WELL IS DOWN 1360 FEET

CABLE GIVES WAY AND A NEW ONE IS SECURED IN PORTLAND.

STONE, Or., April 11.—(Special.)—There has been little headway made here within the past 48 hours for the reason that the cable used in the drilling gave way and it was necessary to go to Portland for another. This was secured and put in place today and the drill has again started downward. The drill is down about 1360 feet, and is now and has been for 24 hours in a hard stone formation that goes very slow. General conditions about the well are about as reported at the last time, but the formation in which the drill is working now is very hard and makes drilling very slow. At that every day shows some progress, which keeps up the interest of those closely associated with the work.
