# ARMISTICE SURE PEACE PROBABLE

BOTH SIDES IN MEXICO WANT PEACE AND HOSTILITIES CEASE SIMILTANEOUS.

### CHAMBER OF DEPUTIES TAKES ACTION

icans Shall Suffer From Mexican Bullets, Through Carelessness.

MEXICO CITY, April 19.—(Special) The Chamber of Deputies has now taken a hand in the negotiations for peace and has come to the front with a request that all the data in the matter be given it. It seems that there have been negotiations going on under cover so that Diaz might not be forced to show his hand, but now that the Chamber of Deputies has come out in the open with its request for information things can be discussed on the streets and the Insurrectos be given to understand that they are dealing with a known quantity.

Terms of peace are known to be on their way to General Madero, and he is to be informed that they are official and need not be quibbled over later. Both sides to the controversy are anxious for peace, the only question being as to a question as to what will be honorable peace for both sides,

The terms of the armistice will be easily arranged now that both sides want peace; the terms of peace may take more time in the settlement.

In the meantime both sides seem to be satisfied to rest on their arms until the terms of the armistice can be agreed to. Chamber promises no more casualties to Americans.

### TAFT WON'T COME TO COAST.

SEATTLE, Wash., April 19.—(Spe cial.)—According to Richard Ballinger, just home from a vacation, President Taft will not visit the Coast this er, and probably not in 1912. This termation was given him before he left Washington, he says, and he is East this year. Bruce C. Shorts wil be Ballinger's law partner here.

## REBELS SURROUND JUAREZ.

EL PASQ, Texas, April 19.—(Special.)—Rebels have surrounded Juarez and are demanding its surrender. The General Navarro says he has received no demand to surrender. Americans believe that the demand has been made and that unless the city surrenders within 24 hours there will be

## PARIS TAKES CENSUS.

PARIS, France, Apri 19,-(Special.) -A census taken here last month shows this city to be still the third largest in the world. Population 2,-846,986, an increase over 1906 of 124,-

DISCUSSION MADE OF "SOLID ROCK" AND "LOOSE ROCK" EXCAVATION.

Fill on Lower Twelfth Street Elimin ated-Pool Room Ordinance is Passed First Reading.

Council met in special session at 8 o'clock Wednesday evening with a quorum present. The pool room ordinance, up for discussion at a previous meeting, was read first time and passed to the printer. The ordinance received considerable discussion but at that few changes were made from the draft as read at the late meeting.

The principal clauses that will interest the general public are those requiring open fronts, similar to the ordered in the saloons, and a cutting out of cards and dice and like games of chance, generally used for petty

gaming. There was an impromptu discussion of the overhead bridge at the Twelfth street crossing of the Southern Pacific. No representative of the company was present and no plans submitted by the company so that what little discussion there was on the subject was of an

informal nature. A fill had been planned for Twelfth street, between Main and the river, but property owners being will-ing it was decided to change the grade

at this point and omit the fill. The question of what the city is paying for rock excavation on the streets, notably on Washington street at the present point of excavation and on that street between Eleventh and Twelfth, was up for its share of discussion. The fact was elicited that the city is paying \$2.75 per square

This led to a discussion of the differ ence between loose rock and solid rock excavation. It was brought into the discussion that the price of \$2.75 was not too much to pay for solid rock work; it was also shown that the rock now being taken out in the Washngton street excavation is loose rock and not solld rock, and this has be the case in nearly all the excavation work that the city has so far paid for. And \$2.75 is said to be too much for

that class of excavation. Where there are large and small boulders it matters not how large they are that is loose rock work and not solid rock. It is solid rock when it is one mass of stone and it is neces sary to drill into the rock and blast in order to make headway. And it is said that little of that class of work has been encountered in the street

work on Oregon City streets. It was further shown that by some error the keeping tab on the city work in the past had been done along the line of calling loose rock work solid stone, and in this an overcharge had een made against the city in much of its improvement work.

# STATISTICS SHOW WELL FOR CHURCH

GAIN WITHIN THE YEAR HAS BEEN MARKED IN ALL DE-PARTMENTS.

# PORTLAND PRESBYTERY MAKES REPORT

Very Interesting Session Held in This City on Wednesday-Enthusiasm Runs High Through Several Sessions.

The Wednesday session of the Presbyterian Presbytery, in session in this city, opened at 9 o'clock. Rev. S. Pinney, of Tillamook, conducted devotional exercises. There were 60 ministers and elders present. At 9:30 the routine work of the Presbytery, consisting of reports from committees and relative to the work of the past year was begun and continued until 12 o'clock noon, when a recess was taken for dinner. Dinner was served in the parlors of the church by the ladies of the church.

From 1 to 2 in the afternoon the several committees of the Presbytery met for the transaction of business Later each was given time for report after which—at 3 o'clock—Secretary Knodell, of the Anti-Saloon League, of Portland, made a short address on the work in his department and as to how comes a part of the uplift work of the church.

tend the General Assembly meet in Atlantic City, N. J., May 18, resulted in the choice as delegates of Rev. Arms and Rev. E. Nelson Allen, both of Portland. Rev. A. S. Gilbert, of Astoria, and Rev. Chas. Hayes, of Portland, were chosen as alternates.

Elders chosen as commissioners were Mr. Bennifield, of the Third church, Portland, and A. E. Frost, of Oregon City. Alternates are George Scott, of Piedmont church, and C. Mason, of Spokane avenue church, both of Portland.

closed the Presbytery adjourned to meet Thursday in Calvary Presbyter-ian church, Portland. Many of the pastors and delegates went to Port-land for a missionary meeting to be held in the First Presbyterian church hasty. in Portland Wednesday evening.

Statistics reported to the Portland Presbytery here Wednesday indicate a decided rosy color for the affairs of that denomination in the Presbytery, which extends from Oregon City to Astoria. There are 42 churches, with a total property valuation of \$473,550 and 10 manses with a valuation of \$55,950. In the Presbytery there are 6043 communicants, a gain over last year of 385. This gain has been added by confession of faith, and 593 have een admitted through certificate The Sunday schools in the Presbytery show a total enrollment of 6254, a gain of 111 over 1910. Besides being self supporting the Presbytery has made the following contributions to the various boards of the church: Home missions, \$9234; foreign missions, \$7798; education, \$803; Sunday school, \$932; church erection, \$1725; terial relief, \$987; freedmen, \$734; col-

leges, \$2141; temperance, \$2618. The total congregational expense for the year were \$136.363, an increase for the year of \$50,000. For all other purposes the disbursements were \$10,-The total for penevolences was \$26,972, and total for all purposes was

\$174,970. The Presbytery has a membership of 50 ministers, 23 pastors, 7 stated supplies, 13 home missionaries, 5 honorably retired, 1 evangelist, 1 teacher, 3 general church work, and 6 with no

During the year Rev. Robert Mc-Lean and Rev. Otto Hoffner were ordained. Four men have been installed and two ministers have died, Rev. Robert Christinson, October 12, 1910, aged 85 years, 7 months, 12 days, and Albert Robinson, February 4, 1911, aged

These figures will be presented to the General Assembly, and a petition will be filed for the establishing of a church at Arbor Lodge.

# FISHERMEN IN SKIFF CHASED BY OFFICERS

UNLAWFUL FISHING AT OSWEGO LEADS TO A HOT CHASE OF GUILTY PARTIES.

It has been known by those who are there is all the time more or less unlawful fishing in the Willamette. The better class of fishermen are not only obeying the law but many of them are rendering the Fish Warden and his assistants all the aid possible in an effort to catch and punish those who will not obey the law.

The regular fishermen in and about this city are law abiding citizens, and while they feel that the law-or perhaps it is better to say the interpretation of the law-is loaded against the fishermen on the Willamette River, still all of the better men are obey-ing the law and rendering assistance to the capture of those who are ignor-

Unlawful fishing has been continued from the first. Tuesday evening the Water Balliff, an under officer to the Warden, discovered fisherme plying their trade near Oswego. A plying their trade near Oswego. A chase was made but the culprits got away, not, however, without a good scare and a hard pull down stream with the officers of the law in hot pur-

Wm. Woods, accused of pointing his
gun at W. F. Schooley and the party
of men and women in his auto Satur-

day evening, and bound over to the grand jury by Justice Samson, was re-leased by the jury on Tuesday. School-ey wonders what it would take to cause this jury to hold a man for trial for, it is said, the man admitted pointing the gun and said in extenuation of the error that he was a little too

# TO USE BY PUBLIC

ROTTEN TIMBERS IN THE LONG SPAN CAUSED IT TO GIVE WAY UNDER LOAD.

The Gladstone-Parkplace bridge across the Clackamas River has been so far repaired that teams are permit-ted to again cross it. The damage done to the bridge by the heavy steam gang plow that attempted to cross on Tuesday evening will not total over \$200. With a little care and prepara tory work it was possible to back the engine off the bridge Wednesday without the bent on which it rested, and which made the trouble, going into the river. Then it was a short ter to make it safe to light vehicles,

which was done. The bridge is a light one and was not built to stand extra heavy traffic. When it was rebuilt four years ago it was thought safe to leave two of the old needle beams in place, and it was the crushing of the soft timber in one of these that made the trouble. It is the purpose of Roadmaster Jag-gar and County Judge Beatie to replace these with new ones in the belief that if properly repaired the bridge will do service, in safety, for three or four years more. At time a new bridge will be needed, and it is believed that the traffic by that time will make it wise to put in a

The engine that did the damage is one of the large plow engines, called catapillar and made for hauling a gang of plows, that are being introduced in this section now, weighing upwards of eight tons, and was more than the bridge could sustain. The bridge is a light structure and not intended to carry over eight tons when new. The bridge is composed of a short ap-proach on the north end, a main span of about 30 feet, a short span and a short south approach. It was the 30 foot span that gave down, making the

steel bridge

During the time that the bridge was closed a number of autos crossed the railway bridge a short distance furth wise" to conditions on the river that er up stream. This was a dangerous here is all the time more or less un-expedient as trains were due at any time but a few men preferred to take the risk to making a journey around by the next bridge up stream, a dis tance of 8 miles. One autolat had just turned his machine off the south end of the S. P. bridge as a train entered at the north end, so close was the
