HOW WAS TIMES BUILDING DESTROYED?

It's a dangerous precedent when a man can be spirited out of a State without being consulted as to whether or not he wishes to fight extradition.

McNamara did blow up, or assist in blowing up, the Los Angeles Times. He should be put on trial for the deed.

It is well for the public to understand that the man who owned the Los Angeles Times was a man who cared little for law—unless the law was intended for the other fellow.

Then one does not want to forget when Col. Otis rushes into print, that there is a story of carelessness about the Times building that led to the explosion.

It is hard to think that men would blow up innocent men and women for spite's sake, which is the accusation; on the other hand it has been seen many times that men who were greedy

would take long chances to save a few dollars. If the Times building was destroyed by an explosion that came through carelessness it is not a crime of commission but one of laxness.

When the politician comes at the Democratic Congressman with the charge that the reductions in the tariff will mean the reduction in the revenues to the extent of \$10,000,000 a year this same Democrat counters with that is what is wanted, and that he intends to reduce the cost of government to meet it.

Some one who is given to gathering odd statistics says that but two per cent of the young women attending the University of Chicago contemplate marriage. Perhaps, but let those pretty little maidens meet some nice young lad whose personality appeals to them and see how quick they can make plans for a wedding day.

The Jackson Democratic club of Portland wants Woodrow Wilson to attend their banquet on May 19. The Governor would certainly make a drawing card.

EARTHQUAKE UPSETS MOUNTAIN

ASHVILLE, N. C., April 25.—Belated reports from the mountainous sections of Transylvania County say a portion of "Caesar's Head," a famous peak, had been overturned by an earthquake shock, said to have been felt in western North Carolina Friday night.

It is said part of the mountain top fell with a crash which was heard for miles.

CONGRESS TO INVESTIGATE.

WASHINGTON, April 25.—A resolution demanding an investigation into the arrest of John J. McNamara in Indianapolis was introduced in the House today by Representative Victor Berger, the Milwaukee Socialist.

Berger's resolution recites the 14th amendment to the constitution, sets forth the facts in the arrest of McNamara, and provides for committees of both houses of Congress to investigate the arrest and extradition and to report their findings.

INVITES GOV. WILSON.

PORTLAND, Or., April 25.—The Jackson Democratic Club today wired to Governor Woodrow Wilson, at Trenton, N. J., asking him to speak at a public meeting in Portland under the club's auspices, the night of May 19.

The club's executive committee will meet this week and arrange details as it is regarded as a foregone conclusion that Wilson will agree to speak. The meeting probably will be held in the Armory.

BOURNE PROVIDES WEST MONEY?

SALEM, Or., April 25.—(Special.)—The charge is being made that Senator Jonathan Bourne furnished the money needed for the Gov. West campaign, and not a few believe it. O'cott, the man who is said to have spent it, just simply laughed when the report was shown him.

The chickens we have had housed in open front houses have been healthy, happy and content; whilst in one or two of the tight houses we have encountered frozen combs.

Berries Coming More Freely. Further shipments from the Los Angeles and Florin districts considerably increased the supply of strawberries in Portland yesterday and the

President Taft's Outing on The Links at Augusta, Ga.

PRESIDENT TAFT'S brief vacation in Augusta, Ga., was an enjoyable one, and he returned to the capital the beneficiary of a much needed rest. He was left to his "own sweet will" in Georgia and passed much of the time on the links and in motoring.

Mr. Taft was with the president most of the time and returned with him to Washington. The snapshot of the president was made as he was leaving Augusta to take the train that carried him and his party to the national capital. The president was absent from his duties about ten days, having left Washington soon after the adjournment of congress, March 4.

chances are that by the end of the week the fruit will be much more in evidence. The California crop this year, however, is both late and small, the result of unfavorable weather.

One of the local fruit brokers yesterday declared that the crop in the Florida district would be at least 50 per cent short of that of last year, while the yield in the Penryn and Newcastle sections would be little if at all more than half a crop. Los Angeles is not expected to get out anything like its average output this season.

NEGRO TROOPS PLENTY.

ATLANTA, Ga., April 25.—There are more negro troops available here than there are places for them in the United States Army. Recently the local recruiting station received orders from the War Department to obtain negro recruits for the Twenty-fourth Infantry, which was under orders to sail for the Philippines. The response was instantaneous and in a short time more men had applied than could be taken.

ECONOMIES NEEDED WILL BE INSTITUTED

DEMOCRATS DETERMINED TO CURTAIL THE COST OF THE POOR MAN'S LIVING.

WASHINGTON, April 25.—The free list bill was taken up in the House today, and for several days it will hold the center of the legislative stage. Chairman Underwood, of the ways and means committee, in explaining the proposed measure, acknowledged that it would mean a reduction in government revenues by at least \$10,000,000 a year, but declared that this would be more than met by government economies.

Mr. Underwood announced that this was only the beginning of the Democratic revision of the tariff. "We purpose to revise the tariff schedule by schedule," he said.

The minority report on the free list bill, signed by all of the Republicans on the ways and means committee, declares that the measure represents a "transparent attempt at the manufacture of political capital."

A New Kind of Ice Cream.

Small boys and people of poor digestion need no longer curb their appetite for ice cream, for the more lacto they eat the healthier they will become. Lacto is a new frozen dairy product invented by the Iowa Experiment Station. It is made of lopped whole or skim milk, with the addition of eggs, sugar, lemons, and favoring material. It has a very pleasant flavor, and it supplies the body with lactic acid bacteria, which eminent scientists say is a means of improving health and prolonging life.

Spring Floods in Russia.

ALEXANDROVSK, Government of Archangel, Russia, April 22.—(Delayed in transmission.)—Reports from Western Russia and Siberia tell of the sudden arrival of Spring. The ice has broken up in the rivers and, with the melting snows, has caused abnormal high waters, which are doing great damage.

Parade on Booster Day.

One of the main attractions in the parade on Booster Day was the decorated rig of Jas. Partlow, from Mt. Pleasant. The carriage and horses were decorated with Oregon evergreens and made a very attractive appearance. This rig was awarded the first prize for the best decorated rig. This entry was overlooked when the awards were published.

When the awards of the prizes for the Horse Show, held in this city on Saturday, were published, it was stated that the first prize for single driver

LATEST MARKETS

Oregon City Markets. There is an uncertainty in the markets today. Those who object to the changing of the tariff by the Democrats blame the uncertainty on the prospects of a change and say that the changes in prices are along the line of things that are likely to be changed in the schedule. In these cases a falling one is in prospect. Where there are nearly exhausted stocks the tendency is upwards. Where the new products of the season are soon to show up the price is downward again. There is no general proposition that is influencing markets unless one counts the tariff tinkering as in that class. APPLIES—Local stock is commanding from \$1 to \$2 bushel, with very few in the country of any kind and fewer yet that will get the higher price. Hood River stock is bringing \$2.50 for good and a little more for fancy. POTATOES—Prices for tubers are still climbing and have gone over \$1.50 and \$1.75, with some fancy stock bringing \$2.25. Extra fancy will bring almost anything one can ask in small lots. One dealer says he will pay \$2 for a whole car load, and if the car

America's Danger Not In War, But In High Cost of Living. By Governor T. R. MARSHALL of Indiana. THE DANGER TO THIS COUNTRY IS NOT IN WAR NOR IN FOREIGN ENEMIES. IT IS IN THE SITUATION THAT CONFRONTS THE PEOPLE AT HOME. IN THE LAST FIFTY YEARS THE STANDARD OF LIVING HAS BEEN RAISED VERY HIGH, AND THE HORIZON OF THE PEOPLE IS CORRESPONDINGLY WIDENED. THEY CAN SEE FURTHER THAN THEY USED TO. THEIR NEEDS ARE GREATER; THEIR INTELLIGENCE IS KEENER; THEIR AMBITIONS ARE LIVELIER.
