THE BEST EVER.

Barnes Big Three-Ring Wild Animal Show is coming.

A novelty of any description is thoroughly appreciated by man, especially so in the amusement line, of which there are a few. The one that enjoys the distinction of possessing really more novelty and interesting features is Barnes Big Three-Ring Animal Circus, which exhibits in this city under monster tents on Monday, May 8.

Barnes Shows always have something new to present and this year is no exception to the rule. In fact, no other tented organization in America has as many sensational acts. The press of California pronounced Barnes Circus "the best ever in the West," and their tents were packed at all the leading cities. In addition to a number of special attractions, over 200

wild and domestic animals from all parts of the world are presented in new and novel acts, under the direction of fearless male and female trainers in three rings, steel arena and on elevated stages, all going on at the same time. You will see monster lions ride horseback; Arctic sea lions that play on musical instruments, play football and do other funny stunts.

Two Booster Meetings Scheduled. The Clackamas Southern Ry. Co. has two meetings scheduled for the future—Tuesday evening at Maple Lane and Wednesday evening at Claymont.

Heart to Heart Talks.

PERSONIFIED RADIUM.

There's radium. What a wonderful reservoir of forces in a tiny fragment of it!

Summed up, somehow within that mysterious substance is the essence of light and heat and healing.

And—astounding fact—it gives out those qualities constantly and loses apparently no iota of its strange potency. Year after year, without appreciable loss, it sends out its marvelous rays.

Great is radium. But—Infinitely greater than radium is you.

Because there are forces within you stronger than in radium; because, like radium, you are capable of pouring out from your inner self light and love and healing. And—

"Think of it! When you send out from your aura the rays of strength and health and hopefulness you not only do not lose, but gain power. Understand?

One side of it is stated this way: "To him that bath shall be given." Which is to say that if you have within you force or virtue and use it rightly there shall be added to you virtue and power.

And the other side is: "From him that bath not shall be taken away even that which he hath." Which is to say if you have power of helplessness and worth and do not use it rightly even that power shall die out in you.

Note the "if!" If you correctly use your life you are not only greater than radium, but you are greater, better and higher than any created thing. If you use it improperly, you may become not only less than radium, but less than any created thing.

The mystery of it! Where and how and when and where the active energy was concentrated in radium we do not know. Like the positive forces of human life, we know only that all of it comes from the Source.

But we know this: If we have power, buoyancy, virtue, charm, they were given to us to be used again. If we do not give out to our fellows our strength for helplessness, our charm for virtue's sake, we cannot keep those potencies within us.

Which are you? Are you greater or less than a thing? On the Go

"You say you seldom spend an evening at home?" "Yes," replied Mr. Meekton. "I'm out most every night."

"But doesn't your wife object?" "I don't see how she can. I never go any place except where Henrietta is making a speech."—Washington Star.

It Wouldn't Pay to Advertise

A Poor Article— Nor a proposition of doubtful merit or honesty—for advertisers, newswriters, are DISCRIMINATING. They know values—they know GENUINE things, genuine opportunities. Any article which can be sold by advertising is, by that test, a GOOD article, YOU are safe in buying a thing which has "stood the fire of publicity." The maker of a widely advertised article, or commodity, is at ways on trial for his business life. He cannot shirk, nor cheapen his product—and this is the best possible protection for the consumer. You are SAFE in buying advertised things—it's the logic of newswriters business conditions.
