SHOPPING POINTERS.

Silks and Laces Offered in Wonderful Diversity of Patterns.

Shantungs are quite banished from the fashionable world of dress. Foulards have taken their place in popular favor.

The latest touch in embroidered lunch cloths is to form them of alternate strips of lace and fine linen. Fillet, fine elany and copies of the old Venetian laces are used for these innovations, and a border of lace to match completes the cover.

Of extreme elegance is a tailored costume of fine black cloth trimmed with velvet bands covered with a lattice

CHILD'S SIMPLE FROCK.

work of fine silk cord. A wide band of it knee high crosses the skirt, to disappear under the edges of a wide box plait that finishes the back breadth.

Linon, poplin, batiste or lawn is suitable for this little paneled frock, which may be worn with or without a belt. The gown closes at the side of the panel.

JUDIC CHOLLET.

This May Manton pattern is cut in sizes for children two, four and six years of age. Send 10 cents to this office, giving number, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

CORRESPONDENCE

CANBY.

Judge C. N. Wait, City Recorder C. F. Romig and Capt. Almsby, a committee from the Commercial organization of Canby, were sent to interview Judge Beattie for the purpose of getting him to postpone action of disposing of the Josselyn bridge across the Molalla River, leading to Canby, as advertised.

The result of the interview was that the Judge promised to do as requested and give those protesting the sale of the bridge an opportunity to present their reasons next Friday at the session of Court why this bridge should not be abandoned.

EAST CLACKAMAS.

The school and outsiders gave a rousing entertainment at the school house in District No. 9 on Saturday evening, April 29, the program, lasting over an hour, was most enjoyable. ADRIAN WIRE FENCE CO

A TALK OF FENCING

Woven-wire fences must be heavy as they have to turn animals by the sheer strength of the wire.

A fence with barbs is protected from excessive pressure because the animal fears the barbs. Remove the barbs and the greatest strength of the animal is thrown upon the fence.

Hence its wires must be larger and stronger. Therefore, to have a long-lived woven wire fence, you must have a heavy fence.

ADRIAN FENCING is made of hard, stiff wire, of honest quality. It is a heavy fencing.

If you are considering adding to the value of your land by a good fencing, you cannot afford to overlook the ADRIAN. It is the best fencing made.
