N. WISNER, NEW SUPERINTEN-DENT TO MAKE STUDY OF SALMON.

J. N. Wisner, of Oregon City, appointed superintendent of the State began the performance of his new duties Thursday morning. Mr. Wisner held a conference in Portland in the morning regarding his work.

The new superintendent is an auhority on fish, having had a wide experience in Alaska and the Western part of the United States. He worked with the Alaska Salmon Commission in 1894, and was highly recommended to the state by his former employers. Mr. Wisner sair Thursday that his headquarters would be in Portland, but that his duties would compel him to travel a great deal. Much of his time will be devoted to an investigation of salmon, of which comparatively little is known. There has been much planting of the young fish in the rives, but nothing more has ever been learned of them. It is not known wheter they go into the ocean or die in the rivers. The work that has beeen entrusted to Mr. Wisner is of the highest importance, and it is believed that he will learn much about salmon which has never been known

Mr. Wisner will have charge of the twelve state hatcheries, and probably will establish a central trout hatchery with substations in various parts of

WILSONVILLE, Or., May 24.—(Special.)—A bad accident occurred near Wilsonville ferry landing, on Tuesday evening May 23, about six o'clock, when Mr. and Mrs. Jones, of Butteville, were driving down to take the ferry across. Mrs. Jones had alighted at the top of the hill in order to ring the bell for the ferryman. Mr. Jones horse persisted in going straight over the embankment, notwithstanding his desperate efforts to turn him from course. When the driver saw that his efforts were useless he tried to leap in time to save himself but fell upon rocks, sustaining frightful injuries to his leg near the hip joint. Dwelling of City's Founder Preserved By Public Spirited Citizens-Restoration Is Complete

Governor West notified Rev. A. Hillebrand, E. G. Caufield and J. E. Hedges, Thursday, that they had been appointed trustees of the McLoughlin home in this city to serve four years. The appointments are the result of an act passed at the last session of the Legislature providing for a board of trustees and the appropriation of \$1200 for the maintenance of the building. The trustees are to serve with out salary.

The home was that of Dr. John Mc-Loughlin, the founder of Oregon City. The building, which was located on Main street, was used for some time by the Hawley ruip and Paper Company for storage purposes, and finally, the company decided to tear it down in order to erect a larger building, Public-spirited citizens were notified of the necessity for razing the buildstarted to save it, and have it move started to save it.

AND DON'T OVERLOOK THE LINI-

MENT; LUMBAGO IS ON THE WAY.

As the result of Mayor Brownell designating today and "Clean up days," many of the citizens made preparations yesterday for be-ginning the work and by Sunday the town will appear in its best bib and town will appear in its best bib and tucker, so to speak. The mayor insists that every householder give attention to his front and back yards and cellar. The rubbish should be piled in a convenient place for the men who will call in carts to remove it. The city will pay all the expenses of removing the refuse, and it behooves everyone to take advantage of the opportunity. The right kind of liniment will cure the worst case of lumbaro ever known.

It is the desire of the ladies of the Rose Society that the city be as clean as possible during the rose show, and, as Mayor Brownell says, the only way to have it that way, is for the citizens to "get busy." Portland usually has "clean up" days before the Rose Festival, and Oregon City is to emulate the example set by the metropolis.
