WHERE DOES THE MONEY GO?

A movement to develop the local community is receiving attention from newspapers all over the country. It is a campaign for the preservation of the small town; for the betterment of homes, the improvement of farms, the building of good roads and for every forward step that will verify the belief that "There's no place like home."

This is a move in the right direction and should be taken up in our community. Our business men ought to get together and make plans for a healthy local boom. Our principal handicap is our lack of appreciation of the good things we have at home; the real opportunities for advantageous investment of the capital that now is pouring out of the community; going into all sort of enterprises, some good and some bad, when it ought to be invested here and utilized for local development.

A Few Don'ts For the American Girl

By Dr. MARY CRAWFORD, First Woman Surgeon in Brooklyn

THE American woman who wishes to be well should begin the battle for health in her teens, and her mother should help her. In the hands of the young girl lies the future of the woman. Food, clothes and exercise should all be designed to assist her development, not to retard it. For instance, no girl should be allowed to put on corsets before reaching the age of twenty, because they hamper her growth.

and freight service, making possible the prompt delivery of merchandise from the big centers; by the sluggish attitude of many merchants who entirely overlook the value of local advertising as a means of holding local trade, and last, but by no means least, by a falling off in community pride.

Homemade Cannon Battered the Walls of the Mission at Juarez

Photos copyright by American Press Association, 1911.

NECESSITY is the mother of invention in war as well as in peace. The insurgents preparing to attack Juarez needed artillery, but they had none. Their small rifles, effective enough when the army was in sight, were ineffective when the bullet was fired against the solid walls of the adobe houses. Heavier missiles were needed, and so the insurgents devised a homemade cannon. It was not rifled and its aim was erratic, but at close range it could do much damage. The picture above shows the homemade cannon after it had been dragged into the city of Juarez by the victorious insurgents. The other picture shows the walls of the old mission in Juarez inside which the federal troops under command of General Navarro made a desperate stand. The marks of the small bullets on the walls of the church are plainly shown, and the picture also shows where a considerable portion of the wall was torn away, probably by a missile fired from the homemade cannon.

WOOL CONTINUES IN GOOD DEMAND

DULL FEELING IN EAST DESPITE STRENGTH SHOWN IN PRIMARY CENTERS.

FIRST CLASS BERRIES IN DEMAND

New Stock of Potatoes From South Relieves Famine—\$3.50 is Quoted—Offerings Free.

Wool continues to show strength and purchases are reported at prices that have prevailed for a week. Notwithstanding the strength at primary centers there is a dull feeling in the East and especially at Boston. While trade there is somewhat better than several weeks ago, buyers are not showing any great desire to take hold except at the former range.

The potato market has lost its intense strength and prices are down. With the arrival of new stock from the south as well as a famine that has existed in the tuber trade has come to an end. New potatoes are now quoted at \$3.50, with free offerings.

MOHAIR—(Buying)—Prices on mohair have been way up, some having brought as high as 39c locally. Quotations are 37½c and demand is strong from \$26.50 to \$27.50, shorts \$29 to \$30, rolled barley \$31.50 to \$32.25, process barley \$33, whole corn \$31 to \$32, cracked corn \$32 to \$33. Wheat \$32 to \$33.

People who "invest" in enterprises promising abnormally large returns are usually disappointed. They fail to get the interest they expected and the control of their money passes to others. The money saver should take no chances with the promoter. When you deposit your money on a Time Certificate or in the Savings Department of this bank, it remains under your control, and earns a sure and steady rate of interest. There is no depreciation in this kind of an investment. The sooner you begin, the sooner will you be in possession of a growing balance.

Heart to Heart Talks. By EDWIN A. NYE.

THE MAN ON THE JOB. The general manager of the road swung off the rear platform of his private car and walked back to the siding where a gang of section men were at work. "Hello, Mike," said the foreman. He knew every section foreman on the line by his first name. "What's the matter here, Mike?" Mike used forcible language in criticizing the methods of the construction department. He explained the difficulty and showed how somebody higher up was to blame. "If I see about it, Mike." When the manager got aboard his car he dictated some memoranda to his stenographer. In a few days an order was issued embodying Mike's ideas of reform. It worked admirably. Said the manager to a friend, "If you want to get at the bottom of things, ask the man over the small job."

EDWIN RICHARDS PARALYZED. Wife Finds Him in Unconscious Condition at Barn. Edwin Richards, a well-known resident of this city, suffered a paralytic stroke at his home on Twelfth and Main streets, Friday morning. Mr. Richards had gone to the barn to feed his horse. When he did not return for breakfast his wife made a search and found him in an unconscious condition. He was carried into the home and a physician was summoned. This is the first stroke of paralysis Mr. Richards has suffered, and he is expected to recover.
