D ID YOU EVER HEAR THE REmark, "Put all the big apples on top, John" -- which meant that the small and spoilt fruit was underneath. Even if we wished it, that could not happen at our store. Our customers demand the closest inspection.

Besides, it does not pay us to buy any fruit but the best. One bad melon peach will spoil a whole box, basket or barrel. We are therefore just as anxious to secure good melons and fruit as you are,

Our buying is done to please you and our guarantee is that we will gladly replace any spoiled fruit, that we may unwittingly sell you.

#### Here are some of our offers for the current week:
