CITY OFFICIAL NEWSPAPER.

Aug. 10 In American History.

1814—Commodore Hardy's fleet of three men-of-war and a bomb ship was repulsed by small force of Americans at Stonington, Conn.

1821—Missouri admitted to the Union.

1861—Battle of Wilson's Creek and tragic death in action of General Nathaniel Lyon, U. S. A.

1860—John Boyle O'Reilly, Irish American poet, died; born 1844.

1868—Louise Chandler Moulton, author, died; born 1825.

ASTRONOMICAL EVENTS.

(From noon today to noon tomorrow.) Sun sets 7:01, rises 5:02; moon rises 7:56 p. m.; planet Mercury visible setting after the sun; 8:30 p. m., eastern time. Jupiter's four principal satellites arranged as follows: No. 2 close on west of planet; No. 1 below the same; No. 3 on east and No. 4 farther east; sun's declination, 15 degrees 34 minutes north of celestial equator.

CAN'T READ THE PAPER.

The Washington office of the Panama-California Exposition receives a paper called the Rocky Mountain Times, of Salt Lake City. The Washington Commissioner recently wrote to the Times, saying: "If the editor of the Rocky Mountain Times would be good enough to mark the notices he prints in his valuable and interesting journal, it would be very much appreciated, and have the time necessary to read the entire paper."

As the Times is printed in Chinese, the time required to read it would be considerable.

PLEASES CURTISS.

Glenn Curtiss, the eminent aeroplane and inventor, when in Washington last week, expressed satisfaction over Col. D. C. Collier's announcement of a \$10,000 prize for a flight from Panama to San Diego, to take a message announcing the opening of the Canal, which probably will be in 1913. He declares thefeat to be perfectly feasible.

The New York stock market is doing less business all of the time. The late Wall street cry of "let us alone" seems to have been taken by the country more literally than Wall street intended.

Under a new Illinois law, no railroad company can allow liquor to be drunk aboard any of its trains, nor permit an intoxicated passenger to board any of them. Is this a blow at next year's Democratic campaign?

People Once More In Control

By Governor WOODROW WILSON of New Jersey

PUBLIC OPINION HAS AT LAST FOUND ITS VOICE, AND THERE IS A FEELING ON ALL HANDS THAT THE PEOPLE HAVE AGAIN TAKEN CONTROL OF THEIR OWN AFFAIRS.

But some men put a FALSE interpretation upon this. There is a certain UNREASONABLE fear in the air, as if the process we have been going through was in some degree VINDICTIVE—as if there had been bitter feeling in it and the intention to discredit those who opposed it. Men have spoken of party splits and divisions and factions and have talked as if it were warfare among persons rather than among IDEAS.

For my own part I regard this as an entirely false interpretation. There need be no fear connected with these things except the fear that those most immediately concerned will not understand. The crush of organizations has been only the crush of those that did not COMPREHEND, but resisted when there was no right reason for resisting.

My own hope is that the men who have withheld these reforms will not be crushed, but CONVERTED; that they will see that they were fighting against their own interest in fighting against the interest of the public which has once again intrusted them with its confidence.

POPE GROWS WORSE; SUFFERS FROM HEAT

WHY BRESNAHAN IS SUCCESSFUL

Manager of St. Louis Cardinals Gets Everything Out of Players.

HIS METHODS DESCRIBED.

Pitchers Obey Orders and Work in Rotation—Believes in Putting Ball Over Plate and Inspires Men With Confidence—His Catching a Factor.

Critics who have studied the St. Louis Cardinals this year say the remarkable success of the team is due to heavy, consistent batting, fast base running and steady fielding—a combination that has more than offset an ordinary quality of pitching. But practical baseball men—players on other National league teams who can speak from actual experience—say that Bresnan's catching, which means the expert handling of young pitchers, the

publicity of the club, and the

success of
