**T**HERE is a difference between fresh canned goods and old stock. Only the newest is the best—having that delicate natural flavor of the fruit or vegetables. Knowing this, we buy only from factories which can their goods immediately after they are picked or grown—factories which are known to work under conditions of perfect cleanliness.

You may rely absolutely on our goods. We keep a large variety rather than an extensive stock—constant renewal being our policy. Next time you use our canned goods note the fresh, natural taste—the character of them all.

Prices this week are reasonable—see the following:

## Two-Minute Toast-Any Time

Toast is the foundation for many delicious dishes—Welsh Rarebits, Asparagus, Club Sandwiches, etc. But if these ordinarily toothsome viands are served on charred, or soggy, or brittle Toast, they lose their delicious zest.

PERFECT TOAST can be made only in the Radiant Toaster. For this reason: RADIANT HEAT forces the absolutely necessary chemical change in the bread. This insures the delicious golden Toast that fairly makes the mouth water.

You can operate the Radiant Toaster on the finest damask tablecloth. The cheerful glow of its coils on a neat porcelain base creates a snug and soothing atmosphere. It makes Perfect Toast as fast as you can eat it—and at the mearest fraction of a cent per slice.
