OPINIONS ON WORLD PEACE.

On the issue of world peace two eminent authorities differ rather widely. These are Admiral Togo and the President of the United States, says the St. Louis Globe-Democrat.

have just been framed. In the treaties with England which we entered into in 1782 and 1814, at the close of wars, there were clauses for the arbitration of future difficulties, and these probably had some influence in averting ruptures.

Thus the President of the United States, if he wished, could make out a pretty strong case for arbitration in the history of his own country. Moreover, the treaties which were signed a few days ago in Washington are likely to be only the beginning in a movement which may gather in all the great countries of the world.

WE PRINT THE NEWS.

At a meeting of the East Side Capital Highway Association attention was called to an article in the Morning Enterprise which gave the information that the special committee appointed to recommend a route for the Capital Highway between here and New Era had decided upon the South End Road.

IF NEW AND TRUE YOU'LL FIND IT IN THE ENTERPRISE, AND NOT OTHERWISE.
