ASSASSIN FATALLY WOUNDS STOLYPIN

RUSSIAN PREMIER SHOT IN PRESENCE OF CZAR WHILE ATTENDING OPERA.

BIG AUDIENCE THREATENS ASSAILANT

Lawyer Third Man To Make Attempt On Life Of Premier Who Has Been Favorite Of Nicholas.

KIEV, Sept. 14.—The Russian Premier, R. A. Stolypin, was attacked while attending a gala performance at the opera tonight. He was wounded twice by his assailant.

One bullet entered his hand, while the other penetrated the body, grazing the liver and lodging in the spine. It is reported that the Premier's wounds are mortal.

Emperor Nicholas was present in the theater. The Premier's assailant was arrested.

The two bullets were fired from behind by a lawyer named Bagrot. The audience turned to lynch the assassin. Some reports have it that a musician also was wounded.

The Minister of Finance, M. Kokovsov, was sitting behind the Premier at the time of the attack.

Probably no one person other than the Czar himself has exercised greater strength of influence in the Russian Empire in recent years than M. Stolypin, sometimes known as the "Iron Man" of the government and often criticized, on the other hand, for many weaknesses of his administration.

For 51 years ago, M. Stolypin early in his career as a statesman made his power felt. He received the credit of blocking outbreaks in Russia which threatened to effect a revolution that came to a head in the administration of Count Witte. His conduct in this affair, while drastic and representative in the extreme, pleased the Czar and Stolypin became the governor of Saratof.

In this capacity his policy of drastic repression was continued and he quickly incurred the hatred of the revolutionists, who, in 1905, made an unsuccessful attempt on his life. He escaped this attack without harm, although three shots were fired at him.

In May, 1906, Stolypin was appointed minister of the interior in the Gorkymin Cabinet, under a regime that was short-lived. Late in July of the same year an imperial ukase created him Premier, but he still retained the post of Minister of the Interior.

In this dual capacity, and with his greatly increased power, Stolypin rapidly forged ahead as an imperial power. His repressive steps toward the terrorists and the Liberals soon won their detestation, as well as the enmity of all advanced groups. With all this, however, the new Premier retained the confidence and increased support of the Czar.

PRESIDENT STARTS ON LONG TRIP TODAY

BEVERLY, Mass., Sept. 14.—President Taft leaves Beverly tomorrow on his second swing "around the circle." In the opinion of his friends the trip promises to be one of the most important ever undertaken by a Chief Executive.

He himself has said that he will spend most of his speaking hours in discussing the lesser political subjects, but it is admitted that other subjects may be thrust upon him. Two years ago tomorrow the President started for Beverly on his first continental trip after entering the White House. He had been six months in office and the Payne-Aldrich tariff law had been five weeks on the statute books. On that trip he delivered his famous address at Winona, Minn., in defense of that law on which most of the criticism of the Administration's tariff policy has been based.

ALL COUNTIES AID PACIFIC HIGHWAY

Vice-President Frank R. Riley, of the Pacific Highway Association, has received notice that the sign-placing party under direction of Secretary Fretwell has been to Eugene and is progressing through the upper Willamette toward the Umpqua basin. In the route across Oregon it is planned to place 600 signs, which will necessitate 400 posts. Secretary D. C. Freeman, of the Eugene Commercial Club, says Lane county is entering into the spirit of the work with the greatest enthusiasm. Equal cordiality is assured in Jackson county, as the residents of Rogue River Valley plan to have that portion of the highway made the best of the Oregon section.

FREAK POTATO WOULD BE MEAL FOR FAMILY

A freak potato, grown by Mrs. Ida C. Bommer, of 1718 Harrison street, which is on display at the Promotion Office of the Commercial Club, is attracting much attention. The potato weighs three and one-half pounds, and would make a meal for a large family. At three cents a pound, the price of potatoes several years ago, this tuber would be worth a little more than ten cents. The spud has a peculiar shape, and looks as if it was formed by several potatoes growing together.

SESSION LIKELY FOR ROAD LEGISLATION

Members of the Good Roads Commission feel reasonably confident that Governor West will convene the legislature in special session for the enactment of the good roads legislation which has been prepared and recommended by the Commission. If the Governor should decide to recall the solons together, it is regarded a certainty that he will undertake in advance to exact from the legislature an honorable discharge at the close of the session. Members of the Commission expressed the belief that the Governor would respond to the general demand for legislation that is essential if systematic road-building in the state is to be accomplished only by calling a special session of the Legislature.

The party system for road-building proposed by the special legislation committee, briefly summarized, provides for state-aid method of road-building presided over by a highway commissioner subject to the approval of the Governor and supported by a state highway fund; permits counties through their respective courts to obtain state aid if desired for roads in their respective counties, otherwise to conduct their road affairs as now solely with their own money and within their own county or by holding an election and issuing bonds if desired.

'SHERIFF BOB' OFFERS FORTUNE FOR DIVORCE

NEW YORK, Sept. 14.—An offer of \$70,000 for a divorce is to be made by Robert Winthrop Chandler to his wife, Lina Cavalleri, the opera singer, it was reported yesterday. Sidney Harris, counsel for "Sheriff Bob" Chandler, is on his way to Paris, his friends say, carrying a check that it is believed will cause the diva to waive all claims on the Chandler income.

Cavalleri and her husband, who have been separated since the end of a honeymoon lasting only two weeks, want to settle their troubles, but each side distrusts the other.

BIG BOOM IS DUE IN OREGON CITY

BUILDING OF CANAL, RAILROAD AND HIGHWAYS WILL ATTRACT THOUSANDS.

MUNICIPALITY'S FUTURE ASSURED

Mayor Brownell Asked What Price City Will Ask For Right Of Way Of Canal-Route Not Chosen.

That Oregon City will have a boom in a short time that will place it in the first rank of Oregon cities is the consensus of opinion of business and professional men here who are familiar with conditions in fact, with the possible exception of Portland, this city is being favored as none other in the state. The building of the canal around the Falls of the Willamette at a cost of \$754,000, the assurance that the Clackamas Southern Railway, which is to traverse the rich Molalla Valley, will be in operation within a year, and the establishment of the Capital Highway and the Pacific Coast Highway through the heart of the city, will stimulate business to such an extent that it is believed thousands of persons will locate here and in the county.

The larger part of the money for building the canal will be spent in Oregon City, and a general prosperous condition is certain to result. The directors of the Clackamas Southern also will spend as much as possible of the money used in building the railroad here, and a large sum will be expended in building the two great highways through the county. With the canal and railroad in operation and the highways opened for traffic thousands of persons will come to this city, who would not have been attracted otherwise and that many will remain and invest is a foregone conclusion. Millions of dollars worth of timber will be brought here by the railroad, and that several sawmills will be established is predicted. It is believed that the greatest expansion will be toward Portland, and that it will not be many years before the cities will form a junction.

Mayor Brownell received the following letter Thursday regarding the right of way for the canal:

September 13, 1911. George C. Brownell, Mayor of Oregon City, Oregon City, Or.

Sir:—Referring to the map showing the proposed location for a canal and lock on the east side of the Willamette River at Oregon City, a blue print of which is sent you herewith, I am required to obtain for submission to the Secretary of War, through the chief of engineers, the cost of securing the necessary lands and right of way, upon each of the two routes for the canal indicated on the blue print.

Will this view you kindly state whether your city is willing to sell such portion of the right of way referred to as it is legally possessed of, and if so at what price? The price asked must cover the cost of furnishing satisfactory abstract of title to the United States. A detailed description by metes and bounds with plan for each piece of land offered for sale must accompany the offer, together with a statement that the offer holds good for at least six months from the date of receipt thereof by this office.

For your guidance I will state that it is proposed to take care of the tall races by culverts passing beneath the new canal. In "Proposed Canal No. 1" the height of lock walls No. 4 and No. 2 will be about 60 feet, or 8 feet above the crest of the existing concrete dam around the Falls, the height of the walls of lock No. 2, 25 feet, and of No. 1, 23 feet. In "Proposed Canal No. 2" the height of walls of lock Nos. 4, 3 and 2 will be about 60 feet and of lock No. 1, 23 feet.

Detailed drawings of the locks have not yet been made and these figures are approximate.

The route selected will depend upon the reasonableness of the prices asked.

Very respectfully,
J. F. M'INDOE,
Major Corps of Engineers.

SEVERE WIND PUTS HOPPICKERS TO ROUT

Mrs. F. H. Cross and children, who have been at returned to their home and reported an exciting experience with the big wind during the electric storm Monday night, in which their tent and shanty were blown away and one of the children, Carrie, twelve years old, had a narrow escape from death. The family were just sitting down to supper when the wind struck the hop dryer close by, wrenching it from its foundation.

Mrs. Cross and the children, with the exception of Carrie, ran out to see what was causing the disturbance. No sooner had they got outside than their shanty was in the grip of the wind and had it not been for a fence, upon which the ruins fell, in all probability Carrie Cross would have sustained serious injury if not death. As it was she escaped with but one scratch.

The wind played havoc with many other campers at the Kyle and adjoining yards. A hophouse and a barn, near by, were struck by lightning and burned. The path of the cyclone missed the Kyle hopyard entirely, but a large cornfield, adjoining, was completely destroyed. People living in Aurora knew nothing of the disturbance.

GRADE SCHOOLS TO OPEN MONDAY

ATTENDANCE IS EXPECTED TO BE LARGEST IN HISTORY OF OREGON CITY.

SUPERINTENDENT MAKES STATEMENT

Parents Are Urged To Send Children First Day So All May Have Equal Chance—High School Opens Wednesday.

It is expected that the attendance at the Oregon City grammar schools which will open next Monday will be the largest in the history of the city. The high school will not open until Wednesday. The new \$40,000 building is ready for occupancy and the pupils for the first time will have the benefit of all modern equipment. It is thought that many boys and girls from the county will attend. All the school buildings have been renovated, and everything is in readiness for the opening.

Superintendent Tooze issued the following Thursday night:

The Oregon City grade schools—The Eastham and Barclay—will open Monday morning at 9 o'clock as scheduled in the announcement published sometime ago. The buildings are in most excellent condition and everything is ready for work at the outset. Parents are urged to send their children the first day in order that there may be no delay in starting out with their classes. There will be but one first grade room at the Barclay. A number of pupils equal to those taught in the gymnasium building last year will be provided for at the more sanitary rooms at the Eastham building. Parents are requested to send their children the first day to the building which is nearest their home. Readjustment will be made subserving the best interests of all as soon as the number of pupils can be ascertained. The first bell rings at 8:40 and the second at 8:55. All pupils who enter the Oregon City schools for the first time and who have been in school elsewhere will be classified by the principals.

The High School will open Wednesday morning instead of on Monday as formerly announced. Classification and entrance examination will occur on Tuesday at 9 o'clock at the High School building—not on Saturday as heretofore announced. General teachers' meeting at the High School building at 2 p. m., Saturday, as announced.
