JUDICIAL CONTEMPT OF PEOPLE.

For the past ten or fifteen years at least the Supreme Court of Ohio has been trying to acquire a reputation equal to that of the Supreme Court of Pennsylvania as a faithful servant of monopolistic corporations. When Attorney-General Monnett started a number of suits against the Standard Oil Company and similar monopolies, he found that the merits of his case cut very little figure with that court.

Wanted--Men With Brains, Energy and Judgment

By ATMORE L. BAGGOT, Chicago Millionaire, Who Has Retired at Fifty

LET ME REPEAT WHAT IS ALREADY WELL KNOWN THE COUNTRY OVER. THE GREATEST SHORTAGE HERE, THERE AND EVERYWHERE IS IN MEN WITH BRAINS, ENERGY AND JUDGMENT WHO ARE WORKERS. For men possessing these primary qualifications for success OPPORTUNITY COMES A-KNOCKING. I am sure I do not overstate the case when I say that a thousand men of just the right sort could slip into ten thousand dollar a year posts tomorrow, but the trouble is that IN ONE WAY OR ANOTHER MANY FALL SHORT. Brains without energy are like a hobbled horse. Energy without judgment requires the second man to direct the first, and so it goes.

There is a vigorous campaign being carried on in Ohio for the Initiative and Referendum, and it looks now as though there will be an overwhelming popular vote in favor of these measures. The interests are clearly alarmed. So when a question was brought before the Supreme Court relating to a law requiring physicians to make certain reports, that august body saw fit to render a decision nullifying this law in such a way as to give it an excuse to utter some irrelevant side remarks that might be construed as bearing on the Initiative and Referendum question.

ALL ESTIMATES OF HOP YIELD TOO HIGH

Every day's picking of hops in the Willamette Valley and in Washington proves more disappointing to growers as well as dealers. None is now estimating the local crop above 70,000 bales compared with 90,000 and even up to 95,000 estimated two weeks ago. The crop in Washington is coming down so much lighter than expected in the Western section that all are now estimating 20,000 bales for the state compared with a crop of 22,000 bales a year ago, and estimates of two weeks ago of 23,000 bales for 1911.

It has been noted that the better class yards in the Willamette Valley are coming down about 20 per cent less than expected, while the poorer yards have fallen fully one-half from earlier estimates.

No business in the hop market is reported and the season cannot really be said to be opened as yet. The nominal business shown last week was scarcely an indication of what the market will do as soon as picking is over and the full extent of the shortage is apparent.

No business is reported at Washington hop centers because growers there are busy with their picking and do not want to sell. Harvest operations, both in this state and in Washington, will likely be concluded within the next seven days.

A rather firm market is noted for hops at Sacramento. It is stated that 35c a pound has been bid there with growers not included to offer at that figure.

In New York state some business is reported passing at 50c a pound and it is expected that the very light crop there will be cleaned up within a short time.

While European hop markets are firm trade is quiet. Buyers on the other side are awaiting more definite returns from the crop here as well as samples to see the quality.

Solidified Gasoline May Soon Revolutionize Motor Traction

SOLIDIFIED gasoline as a substitute for liquid gasoline is commanding the attention of London experts. The accompanying illustration shows one of the jellylike blocks suspended on a fork. It is claimed that the solidified gasoline is more convenient for automobiles than liquid gasoline. The manufacture is explained thus: The gasoline is mixed with a small amount of stearin which has first been treated with hydrochloric acid.

SAVING TIME by TELEPHONE

WHEN a man feels the necessity of being in two places at the same time he goes to the nearest telephone and sends his voice.

It is not exactly the same thing, but when a man talks hundreds of miles in opposite directions from the same Bell Telephone, it is about as good.

In the daily use of the telephone a man travels all over town by wire in a few minutes. It is just as easy to travel all over the state and other states by means of the universal Long Distance Service of the Bell System.

Pacific Telephone and Telegraph Co. Every Bell Telephone is the Center of the System
