PLANS TO IMPROVE ROADS SUGGESTED

(Continued from page 1.)

be apportioned among the several counties of the state according to their respective area in square miles. The bill further provides that before any apportionment of the state highway fund shall be made to any county, said county must first expend an equal amount of money in the construction of public highways in said county, the work to be done under the supervision of the State Highway Commissioner. The bill further provides the method by which county courts and other officers shall avail themselves of the provisions of this act, and further, how said county shall be reimbursed from the state treasury.

Elections May Be Called

The fourth measure, known as the Bonding Act, is very brief and is as follows:
"That any county may, by an election called by the County Court upon petition of ten per cent of the legal voters computed upon the last registration lists compiled in said county, by a majority of those voting on the question create and issue bonds, warrants, or other evidences of indebtedness or for the permanent roads or for the construction, maintenance, improvement or repair of the same within said county."

The question of counties bonding themselves for funds was passed at the last election, but the measure was not considered self-acting and this proposed bonding act is in the nature of an enabling act.

In addition to the measure mentioned was also made that an initiative measure be prepared for submission to the people at the next general election providing for an issue of 30 years 5 per cent bonds to the extent of \$20,000,000. It is suggested that these bonds be issued at the rate of \$2,000,000 per year covering a period of ten years.
No action was taken in regard to the working of convicts as the com-

mittee was disposed to leave this matter in the hands of the governor for the time being.

The bills were the result of a careful research and the best thought of the committee and were adopted by a very large majority. There were not more than four dissenting votes at any one time of any measure.

All the floors are new, and the building is considered one of the best in the county. The interior finish is of cream and brown.

The Last Train.
An Irishman got a job as a porter on one of the English railroads. Shortly after he began his duties a woman went up to him and said:
"I have just lost the train. How long shall I have to wait for the next?"
"Be jabbers, you had better go and find the one you lost, else the company will be after yes," returned Pat.—London Answers.
