Full line of latest and up to date hats at Miss Goldsmith's.
Tom Myers was among Saturday's

TEACHERS' INSTITUTE STARTS TOMORROW

Superintendent of County Schools Gary announced Saturday that Deputy State Superintendent E. C. Carleton would be one of the speakers at the county school institute which will be convened at the high school tomorrow. Mr. Carleton will be here Tuesday. The institute will close Wednesday. Dr. William T. Foster, witnessed of Reed Institute, Portland, will speak Wednesday afternoon on "The Professional Spirit." The members of the Women's club and many other residents of the city will be present to hear this famous educator.

POLICEMAN RESCUES MAN IN NICK OF TIME

Policeman Jack Frost saved a drunken man from being killed by a train on the Southern Pacific tracks at the Fourth street steps Saturday night. The man was lying prostrate on the rails when he was found by the policeman just five minutes before a fast passenger, southbound, was due. Mr. Frost took the stranger to the station house, but he was too drunk to tell his name. But for the vigilance of the policeman the man undoubtedly would have been killed.

A Geographical Possibility.
Scientists assert that additional islands are now forming in the China sea to the southward, extending toward Australia. It is a notable fact that all the continents of the earth extend to a point at the southern extremity with the exception of Australia. Australia tapers southward beneath the surface of the sea. Who can say but that Australia will some day become the southern point of another large continent, with the Philippines and Borneo forming the trunk—Pacific boundary.

Canaries to Detect Firedamp.
A cage containing a canary is indispensable on approaching a mine after an explosion. Canaries and small warm blooded animals, such as mice, are, probably because of their extremely delicate organisms, particularly sensitive to carbon monoxide. Thus a cage containing one or two canaries should always be taken with an advance exploration party. They are affected by minute quantities of this gas a short time before it will affect a human being.—Cassler's Magazine.

SEALS OVERWHELMED BY FAST BEAVERS

PORTLAND, Sept. 30.—(Special.)—The Seals were overwhelmed today by the Beavers. The score was 12 to 4. Never did the visitors have a look-in. Harkness allowed eight hits, but he had the game well in hand at all stages. Sutor tossed up "sultors" to McCredie's bingle men, who made sixteen hits. More than 5000 persons witnessed the slaughter. The same teams will play a double header today and if the Portland men win both they'll be pretty sure of the pennant. Vernon won again so the flag race is still close.
The results Saturday follow:
Pacific Coast league—Portland 12, San Francisco 4; Vernon 6, Los Angeles 3; Oakland 4, Sacramento 3.
Northwestern league—Portland 10, Spokane 3; Tacoma 10, Seattle 4; Vancouver 11, Victoria 11, called by mistake of scorer.
American league—New York 4, St. Louis 5; Chicago 9, Boston 12; Philadelphia 6, Cleveland 14; Washington 3, Detroit 2.
National league—Pittsburg 6, Philadelphia 2; Cincinnati 14, Boston 19; New York 3, Chicago 1; St. Louis 6, Brooklyn 6, called in the 11th because of darkness.

O'TOOLE'S FAREWELL

Manager of St. Paul Awards the Twister a Bright Red Sweater.
When Marty O'Toole, the \$225,500 pitcher of the Pittsburgh Nationals, handed in his uniform to Manager Kelley at St. Paul it was with a sigh of regret, for in his own words he has gained every bit of reputation he has wearing those colors.
"Here, Marty, you can keep this red sweater vest, said Kelley as O'Toole tossed it into his locker. "Take it along, and when you wear it think of St. Paul and the Saints."
"You bet I will," was Marty's comeback. "I learned more wearing that red coat between innings than I ever expect to cram in my head during the rest of my days."
"A wonderful chap," said Kelley when O'Toole was out of hearing distance. "The best fellow I ever knew." Marty whispered to his neighbor at the same time.

MAY QUIT ROWING GAME.

Shepherd Disappointed at Failure to Win Sculling Championship.
Satisfied with the record he has made, but disappointed because he failed in many attempts to capture the title of single sculling champion of the United States and Canada, Frederick Shepherd, the crack oarsman of the Harlem (New York) Rowing club, may be seen in a racing shell no more.
Shepherd when he crossed the line a winner with Frederick Fuesel, his partner, in the senior double scull at the middle states regatta in Baltimore Labor day probably rowed his last race.
Shepherd said he remained in the game this year solely out of a desire to win the single sculling championship and to retain the double sculling championship. He did not win the former and lost the latter. He now believes it time to retire.
"Made a Show of Himself."
"That was rough on Davis."
"What?"
"He stepped on a piece of orange peel, fell and was arrested for giving a street performance without a license."—London Ideas

HERE'S A BARGAIN.

20 acres, 6 acres cleared, balance slashed and seeded, all under good fence; 6 room house, barn and chicken house, granary and good well, all in good order and no waste land. All level and on good road, one mile from new Clackamas Southern R. R.—one mile to school. One and one-half miles to town. \$2500 cash.

Room 11, Stevens Bldg., Oregon City.

In This Picture You See Three Beautiful Garments

But the pictures do not begin to portray the beauties of the garments themselves. If you'll come here and see the coats, you'll know—more than the pictures can say—what perfect specimens they are.
Take for instance, that garment on the right. It's a fine example of a semi-dress coat in black chiffon broadcloth. The black velvet collar, the new cut revers and deep cuffs, trimmed with wide black combination braid and buttons, add elegance and distinction to the garment. And it's lined in tan satin, making a splendid garment.
A neat little coat for misses is shown by the central figure. It's of blue cheviot, effectively trimmed. Back is Empire style, button trimmed. Collar and revers are inlaid with black and white check material, finished with loops of soutache and buttons. Cuffs are deep and pockets are trimmed to harmonize. It's an exquisite coat.
Just one other in the group—that one on the left. It's a decided novelty both in style and fabric. Cloth is a tan stripe velours. Model is a straight line, with seamless fronts, fastening at one side with fancy buttons. Charlotte Corday collar and long revers are trimmed with brown and green velvet. Very deep cuffs. Satin lining.

These three coats may give you a faint idea of the splendid style and great value of all our "Palmer Garment" suits and coats.
We'd be glad to have you come and see for yourselves.

OREGON CITY'S BIG DEPARTMENT STORE.

Gaining a Bit.
At a Philadelphia club a discouraged musician was speaking to a friend concerning his latest work. He was extremely melancholy. "There's no denying it," he muttered. "I can't compose as well as I did five years ago."
"Oh, yes, you can," said the tried and honest friend to whom he made the confession. "It's only that your taste is improving."—Lippincott's.

Our greatest clubbing offer. The Morning Enterprise by mail and the Weekly Oregonian, both until November 1, 1912, for only \$3. Offer closes October 31, 1911.

We Give Service We Give Service "Tea and Toast"

There's something quaint about the mere suggestion; there are traditions behind it that hark back to a less strenuous age; to an age when the dear old ladies met at the weekly sewing circle to coin nice ripe gossip, and sip tea and eat Toast.

As a universal institution the sewing circle is now a memory, but "Tea and Toast" is more popular than ever.

This popularity is largely due to the invention of the Electric Radiant Toaster. This attractive little device makes Toast scientifically, for its radiant heat forces the absolutely necessary chemical change in the bread. This means Perfect Toast in any degree that suits your individual taste. And it will surprise you to know that the net cost is the merest fraction of a cent per slice. Also that it makes Toast faster than the average family can eat it.

Entirely aside from these vital features—utility, speed and economy—there is a genuine charm in operating the Electric Radiant Toaster. The soothing glow of the coils on a neat porcelain base creates a snug and cheerful atmosphere.
The Electric Radiant Toaster is a unique ornament wherever it is used—on the finest polished table, or on the finest damask table cloth.
