Albany schools, and Thurman Chaney, Superintendent of the Douglas County schools.

Men Entertain Women.

The men teachers gave a reception for the women teachers in the parlors of the Commercial Club in the evening. More than 200 teachers were in attendance. Vocal selections were rendered by the Gladstone quartet, and punch, sandwiches and wafers were served by the men. Mayor Brownell, who delivered the address of the evening, told of the good work that was being accomplished by the teachers of Oregon, and declared that they deserved more credit for the upbuilding of the state than the politicians, lawyers, and persons of all other vocations. The mayor declared that education was an essential to success, and Oregon, and especially Clackamas county, were fortunate in having such competent men and women in charge of the schools.

Superintendent of County Schools Gary, who arranged the program for the institute, Tuesday night issued an invitation to all citizens of Oregon and the county to be at the high school at 2:45 o'clock this afternoon when W. Oxygen and Hydrogen. Oxygen gas was discovered by Dr. Priestley about Aug. 1, 1774. Turquet de Mayre discovered the inflammability of hydrogen in 1656. In 1782 Cavendish proved hydrogen to be an elementary body, and in 1781 he and Watt first showed that in the combination of this gas with oxygen, water takes place when it is burnt, water is produced. Later Lavoisier decomposed water with its elements and gave hydrogen its present name, instead of its old one of inflammable air.

BOZUKUS' STRENGTH TOO MUCH FOR SMITH

Before a large audience at the Armory Tuesday night, Peter Bozuku, the Greek champion, to the light weight championship of the world, lived up to his agreement to throw "Auk" Smith, of this city, four times in an hour. He did even better than that, as the actual time consumed in pinning Smith's shoulders four times was a quarter of a minute more than a quarter of an hour.

The "scissors" hold, both body and head, was used by Bozuku, and all his falls were won by these holds. The first fall came after 10 1/2 minutes of grappling, the second in four minutes flat, the third in half a minute, the final one in three-quarters of a minute. Smith, during the forepart of the bout, displayed cleverness in breaking out of some of the "champ's" holds, but his opponent was too strong and too well versed in mat lore for him.

"Brick" Barry and "Dutch" Freeman, and "Young" Smith and "Kid" Bruce, in the preliminaries gave exhibitions which highly pleased the fans.

SERIES THAT DECIDES RACE STARTS TODAY

LOS ANGELES, Oct. 3.—(Special.)—The Beavers and Vernon team began a mighty struggle here tomorrow afternoon. It is really Portland's last grasp at the big prize—the Pacific Coast League pennant. Leaving home four points behind Hogan's men, it is up to McCredie's players to decisively defeat Vernon this week. An even break lands the pennant for the Tigers.

Let the Haps hold Portland to an even break and the final whirl of the season with the weak Los Angeles club will land them in first place for keeps. If Vernon takes the series, Hogan clinches the gonfalon; if Portland gets away a game to the good, the Beavers may still hope to cop the bunting.

The results Tuesday follow: Pacific Coast League. Oakland 4, San Francisco 0. Sacramento 5, Los Angeles 3. National League. New York 12, Philadelphia 3. Chicago 14, St. Louis 8; no other games scheduled.

Table with 3 columns: League, Team, Score. Includes American League (Philadelphia 4-0, Washington 2-2, New York 1-1, Boston 4-7) and Pacific Coast (Vernon 109-74, Portland 100-69, Oakland 99-90, San Francisco 84-102, Chicago 82-101, Los Angeles 75-113).

COMMISSION HAS MORE SUPPORTERS

(Continued from page 1.)

be understood that the responsibility rests entirely with one man. "This system has been tried in various departments of city affairs, for instance the schools, and has worked out admirably. The chairman should receive the highest salary and the other men should be paid according to their work."

Money-Saver, Says Story. Mr. Story declared that business men were needed in the council who would take an active interest in the welfare of the city. Under the present arrangement it is impossible for the members of the council to give as much time to the work of the city as should be done, said Mr. Story.

"I am convinced," the city attorney continued, "that the city would save money by employing three good men to look after the city's affairs. The commission form has been a success wherever it has been tried and there is no reason why it should not prove a success here, in a heartily in favor of giving it a trial."
