Private Ownership of Public Utilities Root of Civic Corruption

By FRANCIS J. HENEY, Noted Craft Prosecutor

WE have been trying self government for ONE HUNDRED AND TWENTY YEARS. It took ONE HUNDRED AND TWELVE YEARS for us to find the PROPER way to cast our BALLOTS, and we got this from faroff Australia. In spite of Fourth of July speeches, in which we assure each other that we are the most intelligent people on earth, we have as yet attained only a PARTIAL SELF GOVERNMENT.

Private Ownership of Public Utilities Root of Civic Corruption

In our city government we have been the most CONSPICUOUS FAILURES, and the PRIVATE OWNERSHIP OF PUBLIC UTILITIES is at the bottom of about all the troubles we have. Small offenders can be punished, but not so with men connected with public utilities.

To JAIL individual agents is like screening a yellow fever patient

so that the mosquito cannot bite the patient and thus spread the disease. Effectual progress can only be made by destroying the CAUSE of the corruption.

IN MY OPINION THE ONLY PERMANENT REMEDY IS THE PUBLIC OWNERSHIP OF ALL PUBLIC UTILITIES. THIS WOULD ENLIST ALL THOSE ENERGETIC, WEALTHY AND INFLUENTIAL MEN ON THE SIDE OF GOOD GOVERNMENT AT ALL TIMES IN ORDER TO OBTAIN GENERAL PROSPERITY IN THE CITY THROUGH EFFICIENT MANAGEMENT OF THESE UTILITIES.

MRS. SHAW CONDUCTS MEETING OF TEACHERS

The first semi-monthly teachers meeting under the supervision of Mrs. Emilie S. Shaw was held at the Wilchka school house last Saturday. About thirty teachers were present. The primary work was ably taken up by Miss Sedwick of the Wilchka school in actual class practice, while Mrs. Shaw spoke on mathematical instruction. Refreshments were served by Mr. Gibson, of the school board. The following resolutions were adopted:

"Be it resolved by the teachers present, that we extend our thanks to Miss Sedwick for her excellent methods shown in her primary instruction, to Mrs. Hollaman, principal of the school, to Mrs. Shaw for the interest she is showing in the school work of our district, and to the directors of the Wilchka school for the use of the school building."

The Evergreen school, six miles east of town, will probably be the place of the next meeting, two weeks hence.

COUNTY FAIR TRACK LEASED BY VAUGHAN

W. O. Vaughan has leased the race track of the Clackamas County Fair Association at Canby for the winter. Mr. Vaughan, who is the owner of Captain Apperson, Haltamout, and other fine horses, will use it as a training track. He expects to have many horses to train. Mr. Vaughan was the manager of the races at the recent county fair, and was highly complimented upon his work. Captain Apperson and Haltamout were two of the best horses in the Oregon circuit the past season.

FEW ASSESSMENT PROTESTS MADE

(Continued from page 1.) same as last year. Assessor Jack says he thinks that 1910 assessment was under the real value of the property. G. B. Howard, part owner of southeast quarter section 14, township 3 south, range 5 east, asks that the assessment be reduced from \$1,600 to \$800.

Gave Him a Start.

"Now, then," said the auctioneer, holding up a pair of antique silver candlesticks, "give me a start."

Her Missing Arms.

The Venus of Milo explained. "I sewed my arms off making clothes for my summer vacation," she cried.

The Horse.

A horse will live twenty-five days without solid food, merely drinking water, seventeen days without either eating or drinking and only five days when partaking of solid food without water.

Nature's Beauties.

If we were charged so much a head for sunsets or if God sent round a drum before the hawthorn came in flower, what a work we should make about their beauty.—Robert Louis Stevenson.

Not Full Grief.

"Gladys is very strict in her ideas about the appropriate touch in dress."

Cornered.

He—So you think I was intoxicated last night? Do you know that I sat up for an hour reading after I came home? She—Yes, and do you know that you were reading my curl papers?—Exchange.

Hard Work For the Girl.

In a New England weekly newspaper there appeared not long ago the following advertisement: "A stonemason or his daughter may receive one quarter's music lessons in exchange for work on a cellar."

Railroad Bridge in Kentucky Is 308 Feet Above the River Level

KENTUCKY can now boast the highest bridge over a navigable stream in America. The Cincinnati, New Orleans and Pacific Railroad company has recently constructed a bridge over the Kentucky river that bears this distinction. It is 308 feet higher than the old bridge, around which it was built. The old bridge was used constantly while the new one was being constructed, and there was no interruption of traffic. Now that the new bridge is in service the old one, which can be seen in the photograph, will be removed. The new bridge is much more strong as the old, and it is estimated by engineers as being four times as strong as the bridge it replaces. In the picture above the first passenger train that crossed the new bridge is shown.

UPWARD TURN TAKEN IN PRICE OF HOPS

The strong upward turn taken by the hop market within the past few days fully bears out the predictions made by some of the dealers a month ago. At that time a 40-cent market was counted on for the near future, the trade figuring on the well-known shortage in English and on the Continent. Values have already passed the 40-cent mark, sales at 42 cents having been made in the Valley this week, and the prediction is freely made now that the market will go to a still higher level before the end of the month.

Within the past week Eastern dealers and brewers have come to a full realization of what the future of the market promises in the way of prices, and as a result they have gone into the market to buy in a much freer way than at any time since the opening of the present season. The latest statistics on the movement of hops in the London market, as compared with the showing for September a year ago, indicate that the English dealers have to date sent out of that country—for the most part to the Continent—a far greater total than in September of last year, while the imports this season are away short of the imports of last year.

CORRESPONDENCE

LOGAN. Sunday was an ideal October day. The sportsmen are happy as to open season but where are the "buds" 'Tis rumored the oil well has changed hands. Clear Creek Creamery has on sale 102 feet deep now with 76 feet of water. A hunting party, Ned Hutchins, J. Holcomb, Luther Mumpower and Jim Hattor left for the mountains in search of game and likewise a good time. It is a rare treat when men get a chance to eat their own cooking. Clear Creek Creamery patrons received 35 cents a pound for their butter fat for September. Mrs. Anderson, Gersbor, and Johnson went to Gladstone Tuesday to call on Mrs. Freytag who is seriously ill. Mrs. Emilie Shaw, the school inspector, visited our school again this week and made some good suggestions, yet, like all people in that line of work, they overlook the fact that it takes money to do these things. Henry Huber just finished cutting a field of barley, which shows that grain grows and ripens most "early old time" in Clackamas County. R. W. Swink of Newburg made his annual trip through here this week, taking subscriptions for the Oregonian. Mrs. N. L. Kirchem is visiting relatives at Carrville this week. Mr. and Mrs. M. C. Ward will leave for South Junction Monday.

Moved to Oak Grove five years ago and made her home with her daughter, Mrs. Ada Cosgriff of Court Street.

BARLOW.

R. E. Irwin and son Elmer returned from the East Sunday. They report a good visit and an enjoyable time, but Mr. Irwin says: "I would not live in Iowa again if they would give me my old farm back. Oregon is good enough for me." Mrs. Irwin went to Portland to meet them. Mrs. Lowry, Mr. Irwin's relief agent, has gone to Canby to act as assistant agent.
