THE CIGARETTE EVIL.

Drastic action by the authorities of Notre Dame College in Indiana, imposing the penalty of expulsion on students who persist in smoking cigarettes will not be regarded as too severe. A youth of a sufficient age to have entered the freshman class of any college, and who is so far under the influence of the cigarette habit that nothing but ostracism can save him, should be saved in that way. Such ostracism can not save will have to be lost, even if they be so far lost that at their funeral obsequies, it will be impossible to pay even the negative tribute that was paid to Bill Stoen in Tombstone, and who is so far under the influence of the cigarette habit that nothing but ostracism can save him, should be saved in that way.

Socialism Strong Enough to Prevent a War

By Representative VICTOR BERGER of Wisconsin, Only Socialist in Congress. It is no exaggeration to say that the GREATEST POWER FOR PEACE in the world today is the SOCIALISTIC movement.

11TH AND MAIN STS. Oregon City. There will never be a war between Germany and England over the Morocco or ANY OTHER question. The workingmen of those nations would never stand for it.

there, as elsewhere, is permitted to continue the waste for this point in his immature years. What this waste at Notre Dame establishes beyond question that cigarettes are, within the easy reach of the male students at that college. It is a condition and not a theory the faculty there is dealing with and they are dealing with it in the only way that it can ever be met successfully. Ostracism, with its strong appeal to the sense of pride and self-respect in such of our youth as possess them, can do more than statutes, however drastic. The best of the youth of the land can be protected by this means after all other means have failed.

Heart to Heart Talks. By EDWIN A. NYE.

THE BATTLE OF LIFE. Fight, Be a soldier—Trop. The modest little admiral who won the Russian fleet to the bottom of the sea of Japan in the most spectacular fight of the age, like most great war leaders, is a man of few words.

Largest Cheese in the World Prepared for Mr. Taft's Knife

WISCONSIN ranks high as a dairy state and it was with a view of emphasizing its importance that the dairymen of the state arranged to construct a cheese that would be bigger than any other cheese ever made. The producers of 1,200 dairies were interested in the plan. They mixed 5,000 registered Holsteins at the same time and then shipped the seventy-two tons of milk to thirty-two auxiliary cheese factories where 12,000 pounds of curd were attracted. This curd was then sent to Appleton, Wis., where Nicholas Simon, a noted cheese expert, and Dairy and Food Commissioners John D. Cannon of Wisconsin, and A. W. Perkins of Minnesota superintended the construction of the gigantic cheese. The milk was cooled to the same temperature in the dairies, and the curd was treated by the same process in each of the cheese factories so it would be uniform. More than 200 pounds of salt were used in the curd, which made the total weight of the cheese something in excess of six tons. The cheese was sent to the national dairy show at Chicago to be on exhibition until President Taft's visit, Oct. 20, when he was to cut and sample the jambo. The upper picture shows the vat in which the curd was mixed, while the lower picture shows workmen packing the curd into place and forming the cheese.

The Smallest Shop Best Lighted

Will do more business than a large store poorly lighted. The new MAZDA Economy Diffusers make it possible to flood small business places with electric light at a very small cost. The light from these new lamps is so brilliant and is so perfectly diffused that often only one cluster is needed. The turn-down switch gives just the degree of light desired. You will be interested in the terms we can offer you on these lights. Ask about them.
