ASTRONOMICAL EVENTS.

(From noon today to noon tomorrow.) Sun sets 4:50, rises 6:31; moon sets 5:16 a. m.

MAKING THE SOIL YIELD MORE.

One way to reduce the cost of living is to make the ground produce larger crops. Too many farmers are more intent on adding to the size of their farms than in getting bigger returns from the land they already own.

It is well known that in some European countries where conditions of soil and climate are scarcely as good as they are in this country the yield per acre of crops is much greater than with us. Germany produces twice as many bushels of wheat to the acre and England does even better.

We see similar contrasts even in our own land, and the strange thing about it is that states possessing the richest soil sometimes show the poorest relative returns in yield. Illinois, for instance, ranks high in soil fertility while the soil of Connecticut and Maine is naturally poorer, yet Connecticut gets 25 per cent more of corn off an acre than Illinois does, and in wheat Maine gets twice as much. A similar condition prevails as to potatoes, oats and some other crops, and this difference in yield is, of course, due to the difference between intensive and scientific farming and that which to a large extent is superficial.

It stands to reason that if a man is a benefactor to his race who makes two blades of grass grow where but one grew formerly, so also is the man who on a given amount of ground doubles the yield of corn, wheat and other crops—and the thing can be done.

That this would benefit the consumer goes without saying, but it would also benefit the farmer. True there would be a slight extra cost for labor and perhaps a somewhat smaller price for his products, but the much larger crop would more than balance this. Then, too, it must be remembered that it requires no more buildings, tools and fencing for a hundred acre farm producing thirty bushels of wheat to the acre than for the same size farm that yields but half the amount. And this fact is equally true as to other crops.

Many people who in the springtime enter with enthusiasm into the raising of poultry are now counting their losses and gains. And some of them are realizing to their sorrow that while anybody can keep poultry it is not everybody that poultry will keep.

The man who is marked by straightforward morality and every day righteousness stands higher in the estimation of his fellows than the man who is just made up of emotion and dogmatism.

If some of those politicians who are said to know their bible so much will only apply a little more of its teachings to their daily life the political atmosphere will be brighter and sweeter.

It is very clear that Dr. Wiley is the man on top. This gives joy to the consumer and anguish of heart to the unscrupulous manufacturer and trader.

Presiding Judge Bordwell and Scene of the McNamara Trial

Photos copyright by American Press Association, 1911.

JUDGE WALTER BORDWELL, who is presiding at the trial of James B. McNamara in Los Angeles, has a difficult task. Each side in this legal contest is represented by distinguished attorneys who are watching every move and are prepared to take advantage of every technicality that offers a chance to gain an advantage. Every ruling that the judge makes is therefore important, because it may serve as a basis for an appeal or for future legal proceedings. The picture above shows Judge Bordwell as he appears on the bench. The upper picture shows McNamara watching the examination of a witness. Sitting on his right is his attorney, Clarence S. Darrow, while next to him is Attorney Scott, also of the defense.

The bath tub trust has been dissolved. If the same fate would only overtake the bathtub or bathroom politician what a blessing it would be.

The chains of habit are generally too small to be felt till they are too strong to be broken.

As with sunbeams so with words, the more condensed they are the greater their power.

Hard words and ballstones are alike in their ability to do a lot of harm.

Heart to Heart Talks. By EDWIN A. NYE.

"NO TIME." "I would like to do several things if I had the time," said the young man, whereat I replied: "Your excuse is flimsy."

"What you lack is not time, but disposition and the determination to systematically employ your leisure." Think of Charles Lamb.

There's a man who wrote books that will live as long as English literature. Do you suppose he had plenty of time? He was employed as a clerk nearly a his life. He wrote his books in the hours after his work was done.

And William Herschel. Herschel was a poor music teacher and played a church organ. Becoming interested in astronomy, he studied the books in bed mornings and evenings. He worked long and patiently to build his own telescope. Herschel discovered the planet Uranus, and that fixed his fame for all time.

And Horace Greeley. Greeley put in nearly twice as many hours in his day as the average "printer's devil" of today. But he became the greatest editor of his time.

And Benjamin Franklin. Suppose Franklin had spent his time in the taverns with boon fellows instead of working at his experiments. The application of electricity might have been delayed perhaps fifty years.

President Andrew Johnson got all his education after he was married and while working at the tailor's trade.

Vice President Wilson laid the foundation for his speeches by working his brain while he worked his hands at the cobblers' bench.

Lincoln studied law between times. Clay learned to speak in a barn. No time?

The most successful lawyer I know studied Blackstone and Kent after his day's work at the carpenter's bench.

Thousands of young men and women today are taking mail courses in a correspondence school while pursuing their regular labors.

No time? Young man, you spend enough time separate from your regular employment—and some of it foolishly spent—to make you cultured or rich or famous.

Maple Sugar. It is said that the first sugar ever made in Vermont was made in Bennington in March, 1763, near the log cabin of Captain Samuel Robinson, the first settler of the town, who came from Hardwick, Mass. The sap was caught in short logs hollowed that held about a gallon. Many pounds of sugar were made and a liquor cask full of sirup.

Wants, For Sale, Etc.

Notices under these classified headings will be inserted at one cent a word, first insertion, half a cent additional insertions. One inch card, 25 per month, half inch card, 15 cents per month.

Cash must accompany order with no financial responsibility for errors, where errors occur free corrected notice will be printed for patron. Minimum charge 15c.

CITY NOTICES. Notice of Hearing of Taylor Street Assessment.

Notice is hereby given that the apportionment of the cost of the improvement of Taylor street, Oregon City, Oregon, from the north side of Seventh street, extending northerly to the south side of Twelfth street, has been ascertained and the apportionment is now on file in the office of the City Recorder of Oregon City and subject to examination. Any objections that may be made in writing to the City Council of Oregon City, and filed with the recorder thereof, within ten days after the first publication of this notice, will be heard and determined by the council before the passage of any ordinance assessing the cost of said improvement.

The property assessed for said improvement lies on both sides of said part of said Taylor street proposed to be improved and the line of lots abutting on said part of Taylor street farthest from said part of said Taylor street.

This notice is published in the Morning Enterprise, the first publication being the 27th day of October, 1911, and the City Council has set November 7th, 1911, at 8 o'clock p. m., in the Council Chamber of Oregon City, as the time and place of passing on said objections.

L. STIPP, Recorder. Administrator's Notice. Notice is hereby given that the undersigned was by order of the County Court of Clackamas county, Oregon, made and entered on the 3rd day of October, 1911, appointed administrator of the estate of John Thomas, deceased, and has qualified as such administrator. All persons having claims against the estate of said deceased shall present the same with vouchers duly verified, to me at the office of C. H. Dye, southwest corner Eighth and Main streets, Oregon City, Oregon, on or before six (6) months from the date hereof.

ROBERT LIVINGSTONE, Administrator of the estate of John Thomas, deceased. Dated October 7th, 1911.

Hotel Arrivals. The following are the arrivals at the Electric Hotel: E. W. Zuber, Portland; G. E. Tingle, G. P. Looney, Molalla; C. Dornhit, O. Bartley, Silverton; Fred Frank, Seattle; J. M. Judson, J. B. Cummins, A. W. Foster, Portland; N. B. Davis, San Francisco; Leo Black, Portland; J. W. R. Kelly, Portland; W. A. McWolf and wife, Portland.

Wage Earners cannot become employers until they have saved enough capital to make a start. A savings account at this bank will not only provide capital, but will give a training in finance which will prove a valuable business help.

FORUM OF THE PEOPLE

Protest Against Indiana. Editor Morning Enterprise. Dear Sir—A few months ago a certain district in Oregon City was greatly annoyed with an Indian woman and her followers. They petitioned these undesirable people be removed, they cared not where, but they did not want to be bothered with their nuisance. This seems very reasonable and just, but what of the neighborhood where the Indians were removed to? Should they not have consideration also?

When the woman, who is probably the oldest resident of Oregon City was forced to move from the district she had occupied for more than a half century, she located upon the South End road near the residence district of Lawton Heights. Here, some drunken revels continue, some low trash of men gather for the worst of purposes, and the beautiful drive into our city is the passage-way for those specimens of humanity that patronize the Indian resort. It has come to such a stage that women and children are afraid of traversing this road unaccompanied.

This public nuisance was not enough in a district which had police protection. It is time that some action is taken by the officials of the county for as it is now, the city officials have given their charge out to the county officers with their obligations. The citizens of this nation have circulated several petitions asking property owners who own camping ground of the type to move their renters but without effect so if any one knows of a place we plan to settle the matter as the community will suffer, they should be heard from at once. J. C. SPAGLIA.

Are you a subscriber to the Morning Enterprise? If not you should be and let us put your name on the subscription list immediately.

METHOD

The secret of getting through work is method. Order, it has been said, is God's first law. Let it be yours. Do not let your work accumulate upon your hands. It is not work that kills, but arrears of work. Work put off is work put on heavy interest. "Sufficient unto the day is the evil thereof." It becomes intolerable if it be laid upon tomorrow.

LIFE AND LIVING

We reduce life to the pettiness of our daily living. We should exalt our living to the grandeur of life.—Phillips Brooks.

By WILLIAM J. BRYAN.

Education a Curse if Sought to Avoid Hard Work. Idler is a Disgrace

THERE should be a greater appreciation of the DIGNITY OF LABOR. Today the struggle of mankind is to avoid work, to put it upon others, and, as Tolstoy has said, we no sooner shift the burden of labor upon others than we begin to look down upon them. A lack of sympathy with our fellow men is the CENTER AND CAUSE of most of human injustice and misery.

TOO OFTEN EDUCATION IS SOUGHT TO ENABLE ONE TO AVOID HARD WORK. WHEN THIS BECOMES THE PREVALENT IDEA EDUCATION CEASES TO BECOME A BLESSING AND BECOMES A CURSE. THE MOST IMPORTANT THOUGHT THAT CAN BE LODGED IN EACH CHILD'S MIND IS THAT EDUCATION IS TO ENLARGE ONE'S CAPACITY FOR WORK AND NOT TO RELIEVE THE NECESSITY FOR IT.

I believe that we will only do our full duty to ourselves, our countrymen and posterity when we emphasize the fact that it is the IDLER, not the toiler, who is a DISGRACE. In disseminating this idea there is work for us all. The mother may aid when she teaches her daughter that it is better to link her future with a poor man who has strength and ambition to carve for himself a future than to link her future with an idler who merely waits the time when he can squander the money amassed by some one else.

The father can help when he teaches his son that he is prouder when he sees him working at honest labor than idling his time in waiting for the time to come when he will inherit a fortune. Teachers and preachers have UNLIMITED SCOPE for their work along this line. Sunday after Sunday the preacher should strive to press home the idea which Christ taught the world that happiness and greatness depend upon service.

Here is a work large enough for us all and a work that should be inviting. Here is an opportunity as large as we can crave. It presents itself as the most important work that is to be done, to raise up a NEW IDEAL OF LIFE that will give a man a proper conception of society. It is a lesson that can be learned best on the FARM. It turns itself upon us with the rays of the sun, we breathe it with the air, and we quaff it with the pure water from the stream.

education after he was married and while working at the tailor's trade. Vice President Wilson laid the foundation for his speeches by working his brain while he worked his hands at the cobblers' bench. Lincoln studied law between times. Clay learned to speak in a barn. No time? The most successful lawyer I know studied Blackstone and Kent after his day's work at the carpenter's bench.
