Mr. and Mrs. Frank Brobst entertained a large number of friends delightfully Tuesday evening with a Halloween party. The usual array of ghosts, a fortune teller and Halloween games were features of the evening's pleasure. Select music was enjoyed, dainty refreshments were served, and the guests were loud in their praise of this lovely party given by the host and hostess at their beautiful home.
The Methodist Ladies' Aid society met in the basement of the church Wednesday and laid plans for a sumptuous repast to be served in the near future to fatten the treasury of their society. These ladies assumed a good deal of church debt to be raised, and we are sure that every resident of our village will do his or her part, toward helping to make the only church home in Wilsonville cozy and attractive.

Henry Wilhelm turned down an offer of 35c for his hops recently.
Digging potatoes in the order of the day out in the country districts, and the crops near Wilsonville are as usual good in both quality and quantity.
Jake Peters our enterprising hardware man, has replaced the windows broken by the storm, with handsome plate glass, which is an added attraction to this elegant and commodious store.

Albert Larkins, Eugene Cummins and son, Archie, had good luck Sunday in the form of a big buck deer. Their hauls started out near Timbergrove and before the hounds ran it very far they killed it. The deer seems to be quite a number of deer around. Le Wallace, over near Falls View, killed one and Robert Snodgrass and his son-in-law, Wm. Bohlander killed two fawns with the help of their hounds.

STAFFORD.
We are still enjoying beautiful fall weather: for 17-days no rain except a little sprinkle on the 23rd, and farm work goes steadily on. In some places a slight frost has helped to ripen the potatoes, so some are being dug for the first time, which is sure to come in time.
Gus Gebhardt has had teams and men plowing and preparing the ground for a five acre field of hops, which he intends to plant this fall.
Fred Daker hauled his binder home from Mr. Gage's field on the afternoon of Halloween just in time to escape the rain, which was out in full force at night as usual, although it hardly ever do much damage in Stafford, just remove a few gates and go home, and the victims feel disposed to laugh at their evident labors, and sing with Mr. Gage as he replaced his heavy gate alone, while it took six husky boys to remove it.
Boys will be boys.
Wherever they be,
And more I will tell you
How Stormy boys served me.
John Byrom, 80 years old and still active, and his wife, a few years younger, visited at Mr. Milam's for a week or more. He is a brother of Ed. Byrom's, of Tualatin, who is two or three years his senior and has been very feeble for the past month. John Byrom had not been here since the naming of Stafford, about 40 years in fact. His home is in California. He sees a great change in the country as he remembers it, and but few of the men and women he remembers in their prime are left, the majority gone to that long home and some to other scenes.

ANSON HENRY, son of the late Gordon Henry, who had the house now owned by Mr. Weddle, H. E. Hayes being the architect and builder about the year 1876, was calling upon old friends and neighbors last week. The family sold out and went to Olympia. His son is on his way to

The meetings at the new chapel, which have been held every evening for two weeks, were discontinued on the 29th. Mr. and Mrs. Neal are both good speakers, and we believe earnest in their chosen work. Their words and work seem to say, "Come let us reason together." They never occupy the rostrum as a place for spectacular gymnastics, or shouting as from the housetop, but their influence is felt like the quiet stream flowing through the meadows, while the torrent tears through leaving only muddy waters behind.

MODISH MATTERS.
The Peasant Style of Blouse to Remain in Vogue.
Peasant bodices remain in style, though their severity is relieved by braidings, tuckings and embroideries.
The fashionable sleeve of the winter ends halfway between the wrist and the elbow. It has a six inch flaring cuff, slightly stiffened by an undersleeve of all over lace or net finished with a frill of lace.
Navy blue silk serge, sarah silk or French serge will be the material for

FANCY TUCKED BLOUSE
The one piece street dress of the autumn. Its neatness recommends it to the business girl for office wear.
Some of the new cloth coats are forty inches long, while thirty-six inches is a moderate length.
The modish waist line remains slightly raised, with a narrow belt of the material securing the skirt to the blouse.
The tucked bodice in peasant style is a pretty one for many materials. If narrow fabrics are used the joinings may be made beneath the tucks. The yoke in the blouse pictured is a novel and attractive one and is made from all over lace. JUDIC CHOLLET.

MILLINERY NOTES.
Fan Shaped Trimmings on the New Hats--Feathered Effects.
Fans on hats! They are really not fans, but ornaments made of various materials in fan shape. You have seen the trick done ever since you were a child with any piece of ribbon or paper that was convenient, and now this trick is used to achieve a hat trimming. The wide open fan is placed in front of the hat, and the colors used harmonize with the hat coloring or is in direct contrast with it.
One wonders how long and how wide ostrich feathers are likely to

SIX GORED SKIRT.
The shops are showing a most wonderful selection. Gigantic feather butterflies of tropical colors, fringed with silrets, are a novelty. In ostrich plumes some are of vivid pink, fringed with black or smoke gray. Many of them show three shades of color.
The tam crown surmounting a rolled or other small brim is a favorite this fall among the velvet and felt hats. One style has proved so attractive that already it has been copied from the imported model a number of times. It has a full, rather low tam of white surah, pushed up a bit at one side by the trimming, and a brim of black velvet. In a hat that costs between \$15 and \$20 this is a fine model.
This skirt gives a panel effect front and back, yet is all in one with inverted plaits at the sides, which provide a comfortable flare for walking. JUDIC CHOLLET.

This May Manton pattern is cut in sizes from 22 to 32 inches waist measure. Send 10 cents to this office, giving number, 718, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

Crying the riotous.
Roman public criers called out the hours before the introduction of water clocks in 158 B. C.

WIN YOUR SPURS.
Young men talk of trusting to the spur of the occasion. That trust is vain. Occasions cannot make spurs. If you expect to make spurs you must win them. If you wish to use them you must buckle them to your heels before you go into the fight.

WHOLESALE WIN BIG SUGAR FIGHT
Wholesale jobbers continue to shade their sugar quotations and sales at this time, are general 50c per hundred pounds under the prices listed.
The list price of sugar is unchanged and purchases are billed out at that figure, but the amount of the cut is deducted when the bills are paid.
Sugar refiners are not making any change in their quotations, but the market is considerably weaker. However, jobbers are at this time selling sugar in the local territory at a much lower price than they can obtain at the refinery.
Practically everyone is still loaded up with sugar. Jobbers have made more money from the recent advances than ever before in the history of the business. They purchased huge supplies much in advance of the time of delivery, and when the stock was delivered the market was always far beyond what they paid for the stock. While they are now in a hurry to let go of their supplies--in fact most of them have unloaded three quarters of their speculation--their profits are still very heavy even at the cut figures.
This is the first time for years that wholesalers have "put it over" the refiners and the latter are therefore figuring upon a scheme so that it will never happen again. In former advances the profits of speculation went to refiners, but this time the wholesalers reaped the benefits.

Prevailing Oregon City prices are as follows:
