JOBBERS ANNOUNCE ADVANCE IN SUGAR

To the surprise of many who had believed that the recent declining tendency of the sugar market would continue for some time to come, the jobbers have announced an advance of 15 cents a hundred on all grades of sugar. This puts the market on a standard granulated and fruit and berry sugar on a \$6.40 basis, a price still 40 cents under the refinery basis. In explanation of the advance it is declared that the jobbers were merely tired of selling below cost; that the unloading movement had been so large that they were sure that there would be no burdensome surplus on their hands at the time of the arrival of the first offerings of the coming crop. The market at the advance was held to be healthy in tone.

Prevailing Oregon City prices are as follows:

INFORMATION by TELEPHONE

PEOPLE are not leaving so much to chance in these days of universal telephone service.

Instead of risking disappointment they telephone and get the facts. Will school be held on a stormy morning, will your friend be in if you call, what does the weather man predict and when does the train leave—are samples of myriads of questions constantly passing over the wire, and being answered by the proper authorities.

There are also questions to be asked about the telephone service, how somebody can be reached over the Bell Long Distance Telephone and what it will cost, and similar questions, which are being answered by the information operators.
