ENEMIES OF FAIR PLAY.

By the latest census the population of Missouri was 3,293,335. It is an

easy sum in arithmetic to divide this number into equal state senatorial and congressional districts. Good maps of Missouri are in common use and any person of ordinary ability could readily take the units of equal population and locate them in contiguous compact areas.

The time has arrived to redistrict Missouri again. Secretary of State Roach and Attorney General Major have applied the usual Democratic plan, which avoids the simple arithmetical fact that each state senatorial district should have a population of about 97,000.

A distinguished man once said, "never send off a letter, and especially if it is likely to involve you in an angry discussion with another person, by the evening post."

Unveiling the Silver Service Given to the Battleship Utah

DISTINCTIONS are crowding upon the battleship Utah. Not only is she one of the two largest battleships in the navy, but she is the possessor of the finest silver service ever presented by an American state to its naval armament.

A miscellaneous shower was given Thursday evening at the home of Dr. and Mrs. L. G. Lee, the guest of honor being Miss Nora Hanifin, who is soon to become a bride.

A young couple recently got married at the unearthly hour of three o'clock in the morning in order to escape hazing from their foolish friends. This custom of indulging in rough horse play and silly practical jokes at the expense of the bride and groom cannot be too severely condemned.

In Germany the advent of hard times and costly living is called a "pinch". In most countries it is a real "squeeze."

A New England woman about to be married speaks fifty-four languages. One certain lecture in the family will probably be enough.

In western Canada wheat threshers are studying how best to carry on their work in snowdrifts with the mercury below zero.

Complaints are heard in all parts of the country in regard to increased taxes. The taxes must be going up in sympathy with food prices.

No matter how short the crops may have been they are always referred to as "bountiful harvests" in the governor's Thanksgiving proclamations.

Tennessee and Missouri have Republican governors, Kentucky has a retiring republican governor and Maryland a newly elected Republican governor.

Only, of course, all these developments take time, and when there has been no education at all for centuries of generations everything cannot be reformed in a minute.

They should have a part in the government as soon as they are READY FOR IT. It is a joke now to say that Chinese women are capable of such an undertaking.

But I do not see why the vote is refused to the women of England and America. In those countries for generations women have been taught to use their minds the same as men.

I believe in the FULLEST and FREEST individual development for all men, women and children. That is why I am exceedingly glad that American ideas and methods are creeping into China.

The influence is felt not only in the establishment of more schools, but in business of all kinds. Even the farmers and small merchants are beginning to depend on something besides instinct in conducting their affairs.

WENDELL SEEMS SET FOR GREAT CAREER.

Harvard Player Promised to Become Greatest Back in History.

Percy Langdon Wendell, nicknamed "the human bullet" by Crimson undergraduates, is this year's contribution of the famous Wendell family to Harvard athletics.

Photo by American Press Association.

WENDELL, HARVARD'S GREAT PLUNGING BACK, is a decided rarity, as the rules tend to prevent such gainings. Whether or not there is a hole opened in the line, young Wendell may nearly always be depended upon to make a substantial gain.

In games this year, particularly in that with Brown, he was seen pushing four men ahead of him for a distance of ten yards after they had begun to try to stop his progress.

Of course, as has been said, the reason the man can do this is that he is short, stocky, heavy and gathers speed very rapidly, and there is but one kind of tackling that will bring him to earth, and this kind of tackling is done by but one or two men on the college gridirons of today.

In this man Harvard undoubtedly has the wonder as well as the freak of the football world. It is safe to say that when he completes his college course, with another year on the football field, he will be hailed as the greatest line smashing halfback ever produced in the annals of the gridiron.

Nap Team Has Had Many Pilets. Harry Davis is the sixth manager of the Naps in the past eleven years.

England to Send Mixed Tennis Team. England is to send a mixed lawn tennis team, including three women, to South Africa for a series of matches.

Monster Stadium Planned at Yale. Yale university's proposed new stadium will seat 70,000.

DROP KICKS

Wagonhurst, who is putting up a wonderful game for Lafayette this season, is a brother of Otto Wagonhurst, who played on Penn's team in '04 and '05.

West Point has a good substitute at quarterback in Harmon, who will be of value. Hyatt is laid up, Harmon catches punts well, is speedy and very slippery in a broken field.

Walter Eckersall says that the western college football teams suffer from want of material because most of the schoolboy stars who go to college choose an eastern institution and that it means a lot to a westerner to be able to make the varsity at Harvard, Princeton, Yale or Dartmouth.

A city couple had been staying at the farm one autumn for two weeks, resting up for the winter's round of pleasure. One evening after supper she suggested to her country cousin that they get up a bridge party some evening.

"My sakes, Arabella," was the horrified reply. "They ain't no bridge waster than four mile, and that one's awful rickety. This time of year you'd better have pneumonia. For crazy newfangled ideas give me you crazy folks!" Philadelphia Times.

American Ideas Are Responsible For China's Rapid Development. Western Women's Charm Lies In Their Education.

By Rear Admiral CHIN PIH KWANG, Head of Chinese Navy

I ADMIRE American women not for their beauty or their chic, but for their EDUCATION. They are so clever.

I have met a great many American women in London and Paris and other European capitals, and with some of them I have become excellent friends. Always I have been impressed with the THINGS THEY KNOW. Their great and special charm lies there.

They are beautiful, yes, though the type is so different from our own. What our women must learn from yours is the WISDOM OF SCHOOLS. The wisest of us in China know this need to be a fact beyond discussion. We have an immense admiration for that WONDERFUL CONSTITUTION OF YOURS. We know American history. I have studied it all my life. And we read "all men are entitled to the pursuit of happiness" as "entitled to the pursuit of education, self development."

New schools are opening constantly in China. WOMEN are filling many of them. We believe, of course; that wifehood and motherhood must be the common lot. But we are coming to believe that woman fulfills both those functions more perfectly as she comes to KNOW MORE.

IN THE FUTURE WE WILL NOT HINDER WOMEN FROM ENTERING BUSINESS AND THE PROFESSIONS, ALWAYS BEARING IN MIND THAT NONE OF THESE THINGS SHALL COME INTO CONFLICT WITH THE INTERESTS OF THE HOME. WE ALREADY HAVE SOME WOMEN PHYSICIANS.

Only, of course, all these developments take time, and when there has been no education at all for centuries of generations everything cannot be reformed in a minute.

They should have a part in the government as soon as they are READY FOR IT. It is a joke now to say that Chinese women are capable of such an undertaking.

But I do not see why the vote is refused to the women of England and America. In those countries for generations women have been taught to use their minds the same as men. Why should they be kept out of the world of politics when they are such prominent figures in the closely akin world of business?

I believe in the FULLEST and FREEST individual development for all men, women and children. That is why I am exceedingly glad that American ideas and methods are creeping into China. The influence is felt not only in the establishment of more schools, but in business of all kinds. Even the farmers and small merchants are beginning to depend on something besides instinct in conducting their affairs. It is an excellent and hopeful sign.

SHOWER IS GIVEN MISS NORA HANIFIN

A miscellaneous shower was given Thursday evening at the home of Dr. and Mrs. L. G. Lee, the guest of honor being Miss Nora Hanifin, who is soon to become a bride.

The living room was prettily decorated with ivy, ferns and Oregon grape, while the dining room was decorated with festoons of red hearts caught in the center by a cupid. The electricians were entwined with vines. A delicious repast was served. The amusements were games, one of which was a hat-making contest of crepe paper, the judge being Mrs. Vatcher. The prize, a Dutch vase, for the most artistic and becoming hat was won by Mrs. J. B. Garretson, while the consolation prize, a lemon squeezer, was won by Mrs. A. Nathellin.

In the bean-guessing contest Mrs. Walker Wentworth won first prize, which was a Haviland plate. Mrs. Lee was assisted in entertaining by Mrs. Jacob Miller and Mrs. Samuel Stevens. Miss Hanifin was presented with useful articles, including cutglass, china, linen, etc.

The guests were Miss Genevieve Kelly, Mrs. J. B. Garretson, Mrs. L. A. Barry, Mrs. A. M. Sinnott, Mrs. J. Hanny, Miss Margaret Hanifin, Mrs. G. W. McMillan, Mrs. K. P. Stanich, Mrs. George Hall, Mrs. T. P. O'Neil, Mrs. N. Storich, Mrs. P. Soreghan, Mrs. M. Johns, Mrs. G. W. Kelly, Mrs. A. Natterlin, Mrs. F. Williamson, Mrs. Charles Monell, Mrs. M. Hanlin, Mrs. M. Clancy, Mrs. Herbert Hanifin, Miss Sallie Clancy, Mrs. S. L. Stevens, Mrs. Clayton White, Mrs. Walter Wentworth, Mrs. F. C. Gadke, Mrs. F. V. Vatcher, Mrs. L. G. Lee, Mrs. Jacob Miller, Miss Nora Hanifin.

JUDGE MORROW SITS IN DAMAGE SUIT HERE

The damage suit of J. L. Ellis against A. J. Kitzmiller, the plaintiff alleging malicious prosecution and asking \$1,500 damages, was tried in the Circuit Court Friday. Judge Morrow, of Portland, presiding. Judge Campbell, who had presided at a former trial of the case, occupied the bench of Judge Morrow in Portland at the hearing of a similar case. Kitzmiller had Ellis arrested on a charge of stealing posts in June, 1910. The posts were made from trees, cut from a right-of-way on the Kitzmiller road, north of Eagle Creek, by Kitzmiller and his son, George. Kitzmiller, it is said, had permission of the county court to make the posts. Ellis, manager of the East Side Milling Company, said the trees from which the posts were made, were on land belonging to that company. Ellis was arrested by Kitzmiller for taking the posts, and the former accused Kitzmiller of assault and battery. Both charges were discussed. Brownell and Stone represent Kitzmiller.
