Women have long enjoyed suffage in Colorado and members of their sex have held many public offices. One of the ablest and most active of their leaders is Mrs. Sarah Platt Decker. She has been the director of a number of reform movements and has assisted in numerous others She is credited with having done more than any one else in bringing about general suffrage in Colorado.

Mrs. Decker is now put forward as Catholic a candidate for United States Senator. Her friends have started an educational campaign with this end in view They propose to try to have her elected next August as the successor of Senator Hughes, deceased. If they fail in this they will endeavor to have tor Guggenheim, whose term expires March 4, 1913, and who has just announced that he will not be a candidate for re-election.

Mrs Decker will be elected if the women of Colorado are united in their support. At the outside, she would reed only the help of comparative few men voters. These she would would be certain of getting. So it is not at all improbable that the traditions of the senate will receive a rude jar by the election of a woman to membership in that august body.

THILE the aeroplane has lately had almost a monopoly of public attention in this country, in Germany, which honors Count Zeppelin as the pioneer of the air, interest in dirigible balloons is still acute. Only recently a number of Prussian princes and other royal personages made an ascent in the new dirigible Schwaben. Among them were Prince Bitel Friedrich, the kaiser's second son; Prince and Princess August Wilhelm and Prince George of Greece, As the Schwaben is fitted for carrying passengers-for a handsome fee-it is perhaps natural that it should have a dining spartment, although the appetite of some passengers would probably be too much affected by the novel circumstances of the meal to enable them to get the worth of their money out of the menu.

SEED POTATOES HERE

California is again buying seed potatoes in this territory. Salea of American Wonders are again reported at nearby Willamette Valley points. As a rule shippers are offering \$1.50 per cental for this variety, but it is FOR SALE-Cedar poles, suitable for stated that as high as \$1,60 has been paid, although the rumor cannot be confirmed.

With the coming of rains in the south, the ground has been placed in a condition for immediate planting. For that reason there has been a re newal of the call for seed stock and practically all of this business comes

The American Wonder seems to be the favorite at this time. The fact that it is an early grower and of very good quality has placed it in the front rank in the south within the space of a few years. While the Burbanks continue to lead all others in area of planting this is due to the fact that the latter is a late variety and therefore a better marketable article for all around purposes.
