The whole country irrespective of party and locality, rejoices over the admission of New Mexico to statehood. The president's proclamation, citing that that community had complied with the terms of the enabling act, makes agreeable reading for all Americans. On the Isle of Man-still a primitive place-you find the village cobbler. He has a last for every man, every boy in the place, and centuries before the card index system came into vogue the village cobbler of Man needed only to be told by Shamus that he wanted a pair of boots and he went to the back of his shop and produced the lasts and patterns. Of course with children feet would change, and so now and then he remeasured. The village shoeshop in a Man town is apt to be the rallying place of the gossips. # Why All Progressive Merchants Are Using Electric Light

Progressive merchants everywhere have found the wonderful MAZDA LAMP an immeasurable benefit to their business. This lamp radiates brilliant white rays nearly like those of the sun. This SUPERIOR QUALITY of artificial light is produced by a rare metal filament that not only radiates a perfect light, but gives nearly THREE TIMES as much light as the ordinary incandescent-and COSTS NO MORE to burn. It is this remarkable combination of facts that is causing thousands of people to have their houses and placee of business wired for electric light. In fact, this new MAZDA LAMP is swiftly revolutinizing artifcial lighting. It is making electricity the universal illuminant.
