How Is Your Watch?

If it is not running accurately perhaps it needs a little adjusting. Bring it in to us and we'll give it expert attention. A watchmaker should be a watchmaker, not a tinker. Ten years' experience in repairing all kinds of timepieces from the simplest to the most complicated have helped us to master the art of watch repairing.

OUR WATCH WORDS ARE CAREFULNESS, COURTESY AND

The owner of a much appreciated watch often hesitates about intrusting his timepiece to a repairer, and justly so, since a good watch may easily be spoiled by carelessless

JOU have seen the big pretentious, showy cars clattering noisily up the hill on the low gear, like taking a big freight elevator to the sixteenth floor --- the idea has gone out of date. Henry Ford exploded it long ago. He brought out cars of ample size, but built the bodies as well as other parts, light in weight, and put in motors of ample power. Now Ford cars are the greyhounds of the road. They take hills on the high gear. They are noiseless and vibrationless. Easy to run and inexpensive to operate

Visit the Ford exhibition at our garage at the corner of Fourth and Main Streets, and a moment's inspection of the Ford Car will convince the most skeptical that it is the car that will do all its maker claims.
