SALESMANSHIP OF HIGHEST CHARACTER.

"Advertising is salesmanship of the highest character, and, with a single exception, religion, is the greatest force in the world," is what A. O. Loomis told the retail merchants of Spokane, Wash., at their recent convention. "It will make you know the one thing in a thousand that is worth knowing; reduce the selling cost of any commodity, and so reduce the cost of the article itself; build a mighty institution of industry from an insignificant beginning in a few years; and, last and best, make the merchant who uses it more prosperous, the town in which he lives more prosperous and the land around him more valuable."

In other words the newspaper advertising columns create a mutuality of interest between the seller and buyer. Advertising reduces the selling cost, thus saving money for the seller, and reduces the actual cost, thus bringing economy to the purchaser. The newspaper advertising columns are the basis of co-operation between buyer and seller.

"I intend keeping my eye upon these gentlemen and not to unnecessarily put any weapons into their hands," Colonel Roosevelt quotes Lincoln as having said.

In the matter of political attacks it seems to be just one Wilson after another.

Senator La Follette says "politicians make asses of themselves." True. But the Senator's observation would have been much more interesting had he mentioned a few names.

Every inmate of Sing Sing and Danmora is in favor of the recall and in favor of one term only.

DON'T BE ENVOUS.

The men or women who envy those who happen to be able to dress well and to enjoy the pleasures of life a little more than those who are compelled to work continually will be miserable all their days, for, no matter how high they may get, they will find others still higher. The envious person is never satisfied and never can be.

CONTEST FOR AUTO STARTS TOMORROW

ager. These votes will be counted from time to time and the exact standing of each contestant will be published in both the Weekly and Daily Enterprise.

In these days of "strenuous times" in which we are now living, the daily newspaper is deemed a necessity. The Daily Enterprise fills a long felt want in this community by supplying the news, both local and general, in a readable form. Any contestant who enters this contest and solicits subscriptions will be accorded a hearty welcome everywhere, for sooner or later every one will want to subscribe for Clackamas county's leading newspaper.

THOMAS SHUTE WAS PROGRESSIVE CITIZENS

In the death of Thomas Shute at the home of Mr. and Mrs. Brown, son-in-law and daughter, in Maple Lane, there was the passing of more than an ordinary man. He was born in New Hampshire nearly 100 years ago, and came West through the Ohio and Mississippi valleys to California, and from California he came to Oregon and settled in Clackamas county.

He was a citizen of high standing wherever he lived and was always active in promoting the best interests of society. He served his native state in the Legislature and in the judiciary, and in all the positions he was called upon to fill he justified the confidence and expectations of the people. Frank T. Shute, of Highland, this county, is his son.

Sea Serpents. Sea serpents date back to the days of Aristotle, who wrote: "The serpents of Libya are of enormous size. Navigators along the coast report having seen a great quantity of bones of oxen, which they believe without doubt to have been devoured by the serpents. These serpents pursued them (the seamen) when they left the shore and upset one of their triremes."

Olaus Magnus wrote in the middle ages of a sea serpent 200 feet long and 20 feet thick which haunted rocks and caves near the seacoast, the old writer adding: "And he puts up his head on high like a pillar and catcheth away men, and he devours them."

Filing Steel. If a little chalk be rubbed on a file before filing steel it will prevent chips sticking to the file to scratch the work.

An Odd Court Incident. Sensational incidents are not uncommon in the closing stages of famous criminal trials. One of the most remarkable occurred in Melbourne on the last day of the trial of Ned Kelly, known as the "Ironbald bushranger of Australia."

No matter what the nature of your malady is, or of how long standing, don't give up hope until you have consulted this great physician, whose wonderful cures are already the talk of the town. His vast experience and adept ability to diagnose disease, makes it almost impossible to estimate his worth in dollars and cents. Were Dr. Madison to appropriate these inherent gifts he possesses to the exclusive aggrandizement of his purse, the services would be beyond the reach of only the very wealthy; but Dr. Madison is not the slave of purely mercenary ambitions, he considers his prime mission is to relieve as much suffering as possible in the space of time he is allotted to each territory. Don't hesitate to call. Consultation free. Will remain in Oregon City until Feb. 29, closing at 5 p. m.

YOURSELF.

Man's greatest enemy is himself. If every man in the world should be as careful of deserving an honest opinion of himself as he is of getting the good opinion of others there would be a vast difference in the standing of the majority of mankind.

The Inhumanity of War and What Its End Would Mean

By ABRAHAM GRUBER, Lawyer and Politician

WAR is ORGANIZED PREMEDITATION TO KILL HUMAN BEINGS as if they were wild animals that must be destroyed. The individual high character, sweetness of soul and great intelligence of the men to be killed make the killing more atrocious, but they are not the slightest protection.

The nations of the earth in preparing for war are today but SPENDERS OF MAN'S HARD EARNED WAGE. They are as far away from the right mission of men as evil is from good. If, when war is declared, the kings and the male members of their families and the presidents and their children were compelled to march in the front rank in every battle wars would cease.

WITH THE END OF WARS WOULD COME A PROPER SETTLEMENT OF MOST OF OUR SOCIAL AND ECONOMIC TROUBLES. MUCH OF THE HUNGER, MISERY AND POVERTY OF OUR PRESENT CIVILIZATION WOULD BE GONE FOREVER IF THE MONEY, TIME, PHYSICAL AND MENTAL ENERGY NOW DEVOTED TO THE PURPOSES OF WAR WERE DEVOTED TO EDUCATION, A BETTER WAGE TO THE WORKINGMAN AND THE HELP AND CARE OF THE LARGE ARMY OF UNFORTUNATE BUT GOOD PEOPLE WHO INHABIT THE EARTH.
