CALIFORNIA BUYING POTATOES FOR SEED

California is demanding an increasing supply of potatoes for seed. Growers are beginning to offer much more freely and for extra select stock \$2 is now being freely offered and paid. While there are reports that \$2.05 to \$2.10 had been paid at one point in the Willamette valley during the past 24 hours, nothing above \$2 could be confirmed. In fact, the same growers who were taking off a nickel to a dime above this being available were actually selling at \$2. This alone would indicate that the reports were warm air.

The outward movement of potatoes from the Willamette valley is now the heaviest ever known to the trade at this period of the year. Potatoes are now being shipped to all centers along the Pacific slope. Texas and Arizona are still buying, notwithstanding the assertions that the price was too high Southern California and central California are taking heavy supplies and are paying the price.

Best values are being obtained for shipments that are wanted for seed. The river district of California is this season a very liberal buyer of Oregon stock for that purpose and price is scarcely an object. Some of the leading growers who have a reputation for select quality along the river are said to be offering as high as \$2.25 for something better, but cannot get the stock because nothing better is to be had.

BIG CUT MADE IN ELECTRICITY RATE

(Continued from page 1)

pense of mere generation of current is among the least. This applies alike to steam and water power plants. I mention this because laymen are inclined to judge rates for service simply by generating costs.

"The advertisement in this issue outlines pretty clearly the procedure which we hope will be followed by our customers in bringing about the change-over of contracts. Some 31,000 of our patrons will be effected by the change of lighting rates alone and for their convenience I would strongly urge that promptly on receipt of the new contract form each customer should sign name, have it properly witnessed, and mailed to the Electric Building."

HOTEL ARRIVALS

The following are registered at the Electric Hotel: William Lettermaler, James Adkins, William Freeman, Jack Lindahl, A. M. Rankin, Meadow Brook, Nebr.; C. S. Harvey, Meadow Brook, Nebr.; S. Pomeel, Portland; C. H. Morlier, City; F. Hoffman, Portland, Thomas Feely, Racine, Wis.; S. G. Bowen and wife, Portland; J. Johnson.

Cornell Athletes Can Train at Night

Cornell university has erected electric lights around the board track, which will be an aid to training at night by the athletes.
