BE GENIAL

On the cover of the 'Jolly Elk' February 1912 number, apears an item from the St. Paul Daily News, which we quote:

"Be Genial. A pleasant smile, a hearty handshake, a kind word, costs dered in getting the railroad bill you nothing and adds to the happi- through by the Insurgents, who exness of many. Let this genialty come from the heart. To have the good will of the people, to know they are glad when you enter their presence, will be your reward.

"Nobody in a right frame of mind can take pleasure in knowing that his coming casts a cloud over a company. Joy in life is not so abundant that one can afford to quench any of it. A genial 'good morning' has more influence than cold perfunctory greeting. Let heart talk to heart.

"Do not fear losing respect by being genial. If your character is worthy of respect, you will deserve it, and if you are sincerely genial, you will win good will, and even love. Have a thought for the little flame of gladness that may be in the breast of one near you. Be genial and fan it to greater warmth and brightness."

This little bit of advice has been tried and proven. If our city folk will read, heed and practice its lessons of good will they will do more than by any other means to help build up the beautiful city we have, beautiful by nature-Climate uasurpassed-resources unexcelled.

A news item from Salem states that 3000 children of Wasco County will each raise at least 30 hens during this spring, or a total of at least 90,-000 hens. At least 200 eggs per annum per hen, the state will produce during the twelve months following maturity about eighteen million eggs more than during the previous period of like duration, or 1,500,000 dozen at an average yearly price of 25 cents per dozen, say \$375,000 more from egg fruit than yet produced. This is a valuable addition to the product of any district and Wasco county is to be congratulated upon the prospects. with the hope that results will be as

expected. Clackamas County has better climate, better everything than other parts of our beautiful state and it cluded some useful limitations upon direction and fought him tooth and it to be hoped that school children here wil not be outdone by their Southern cousins. Why not raise 150,000 hens here? Just think of the shipments of stored eggs coming into our state every year, and yet we just sit aside, wonder at it, and pay the price. 30,000,000 eggs, or 2,500,000 dozen eggs more produced here, would bring greater returns in gross sales than many factory pay rolls. Get busy boys and girls. There is a

I indone anything to make the work of the president and his associates more effective by helping to pass legislation I made a like attempt with wool, but for the common good. Gifford Pinchot prides himself on being both Progressive and Insurgent; yet when President Taft wanted free lumber, Gifford Pinchot threw his influence into the scale for the retention of a \$2 duty on lumber, instead of backing the effort to put it on the free list. The best the president could zet was a \$1 duty.

Tariff Revision.

Criticism of President Taft and his administration comes with very poor grace from the Democrats. His own party reproached him for bringing two Democrats into his cabinet, Dickinson and MacVeagh. He has stood strongly for a tariff board and tariff revision by schedule, something that both Democrats and Insurgents have gone on record for in their speeches.

President Taft's first pledge when he was elected to office was to reduce the tariff; yet the Democrats tried to block every move he made in that

Without Craig the American team would have to depend upon Gwyn Henry, the youngster from Texas, or some of the other youthful sprinters in the college ranks. THE AFFECTIONS.

Young men and women sometimes assert flippantly that to deceive or play with the feelings of others is fair enough and does no special harm.
