WHITE AND SILVER EVENING GOWN

Nothing is more graceful especially in this material than accordion pleating. The all white evening gown shown in the drawing is of chiffon. It has a simple gathered blouse full into a round neck, the front crossed diagonally by a broad band of white lace, picked out in silver thread. Over the shoulder and down the outside of the arm is a narrow band of silver passementerie into which the drapery of the sleeve is closely gathered. Silver fringe finishes the bottom of the sleeve. A semi princess effect is given by the joining of the skirt to the blouse by a puffing of the material. The accordion pleated tunic has a deep point on either side and is edged with silver fringe.

THE CHILDREN.

Handwork to Be Smart on Children's Summer Clothes.

Handwork will be much seen this summer on the children's clothes. It will appear on everything from the wee baby's first dress to little daughter's dancing frock.

A very dainty way to finish the new one piece frocks for the small child is to scallop it around neck and short sleeves, embroidering large or small dots in every other scallop.

The blouse that gives the vestee effect is very new and an exceedingly chic one. This gown combines a blouse of this sort with a skirt that suits it to

HOP MARKET FIRM AT 26 CENTS POUND

While the market for contracts is firm at 26c a pound for 1911 growth of hops, little business is passing. Growers are not in a selling mood and few of them are in a position where their financial requirements are such that they need to tie up their crops unless they are inclined to let go.

Demand for contracts is almost entirely confined to American brewers. Foreigners are showing not the slightest interest in our trade at present.

Practically no movement in spot goods is reported. Prices in that line are nominal, but business could be secured at these figures if holders were inclined to let go.

Prevailing Oregon City prices are as follows:

LOWER ELECTRIC RATES

As a result of economic methods and the acquirement of additional facilities, the PORTLAND RAILWAY, LIGHT & POWER COMPANY takes a great deal of pleasure in announcing to the citizens of Oregon City and the surrounding territory an important reduction in its electric light and power rates.

IMPORTANT

It has been the constant policy of the Company to give good service at reasonable rates. The Company is more interested than anybody else in building up a bigger, busier and better Portland, and it fully recognizes the important influence of low rates and good service. The new lighting rate is 9, 7 and 4c per kilowatt hour. Details of this reduction and the conditions involved can be secured upon application at any of the Company's offices. Several months will be required to change over the 31,000 accounts which this reduction in lighting rates will affect. In order that our patrons may be put to the least possible inconvenience, new contracts will be mailed beginning May 1st. The Company earnestly requests that these be signed, witnessed and returned to the Company's representative in Oregon City as promptly as possible, thus avoiding the possibility of waiting in line at the office.
