He will also visit the Shasta Springs and other points in Northern California, expecting to reach his home by July Fourth.

IN PINK AND BLACK
The quaintest of straw bonnets is shown in the drawing above, the shape is slightly on that of the poke, with a narrow veer turning back from the face in the front and opening in the back. The crown which is high and square is completely girdled by a flat band of broad velvet ribbon and huge bow at the back. Around the upper edge of this is a garland of pale pink roses and leaves. From this springs a puffed crown of delicate pink tulle over cream. A hat of this type would, of course, be appropriate with lingerie gowns.

BROWN DEPOSITS BLOCK OF VOTES

(Continued from page 1)

they are made to realize the true excellence of the Enterprise, it is not hard to get them to put down for a year or so. Mr. Brown called at the office yesterday and deposited a nice block of votes. While rather non-committal on the subject, it is presumed that he is holding back a good big block of votes.
Mr. Brown realizes what a great help the automobile would be to him in his business it is necessary for him to cover a good deal of ground which takes time and considerable effort when done on foot and costs too much to hire a conveyance. But a free automobile appeals to him as honey does to a bee or water to a fish.
Miss McCord visited the office yesterday morning for a new receipt book which shows the progress this young lady is making. She is a worker through and through and is going to continue the fight right straight through. The McCord farm, famed throughout the county, not only for the fertility of the soil, but also for the hospitality of the owners, is in the famous Twilight neighborhood and is something more than two miles from Oregon City—Too far to walk to town but hardly far enough to bother hitching up a team—So Miss McCord says she is going to simplify matters by winning the car. Her popularity in the city makes it essential that she attend a great many social functions, which will be easier for her if she gets the Ford.
Sheehan, with his big Schacht car, should have no trouble in getting out over the county to get votes. Joe is imbued with the optimism of youth and is confident that he will be the lucky individual in this contest when the final count is taken in June. That confidence does not keep him from working, however, for he is right after votes all the time.

LOWER ELECTRIC RATES

As a result of economic methods and the acquirement of additional facilities, the PORTLAND RAILWAY, LIGHT & POWER COMPANY takes a great deal of pleasure in announcing to the citizens of Oregon City and the surrounding territory an important reduction in its electric light and power rates.

IMPORTANT

It has been the constant policy of the Company to give good service at reasonable rates. The Company is more interested than anybody else in building up a bigger, busier and better Portland, and it fully recognizes the important influence of low rates and good service. The new lighting rate is 9, 7 and 4c per kilowatt hour. Details of this reduction and the conditions involved can be secured upon application at any of the Company's offices. Several months will be required to change over the 31,000 accounts which this reduction in lighting rates will affect. In order that our patrons may be put to the least possible inconvenience, new contracts will be mailed beginning May 1st. The Company earnestly requests that these be signed, witnessed and returned to the Company's representative in Oregon City as promptly as possible, thus avoiding the possibility of waiting in line at the office.
