While in this city Mr. Lofgren closed the land deal of the James estate, consisting of 250 acres located at Colton, the purchaser being N. P. Hult, of Colton. The land is among the finest pieces in Clackamas County, and is exceptionally good for apple growing.

Miss Elsie Schoenborn and Harry Schoenborn, of Carus, were in this city Wednesday. Mr. Schoenborn and his sister had an experience Saturday night when they were attending the debate at Shubel which they do not care to again experience. They had driven their horse and buggy to Shubel and leaving their large dog in the buggy, which acted as a protection and at the close of the meeting started for place where their horse had been hitched, but to their dismay found the animal gone and also the dog and buggy. Their home was five miles away and this was made on foot. The horse had taken another route home, and it was thought that some one had driven it in that direction intending to "get away" with it. The dog seemed to act as though stunned but is now apparently all right.

GOWN FOR SPRING BRIDE.

For the spring bride a design is given today which lends itself to an expensive development in, say silk or crepe de chine or a plainer rendering in a less expensive abtross or cashmere. The body of the gown has the appearance of being one with the tunic and opens over a vest and undershirt of chiffon or mousseline de soie. Bands of heavier silk fold back from the front and with the sleeves are daintily embroidered in a color contrasting with the gown. The sleeves and bottom of the tunic whose lower edge slopes gradually backward and downward into a slight train are finished with a self-tone silk fringe.

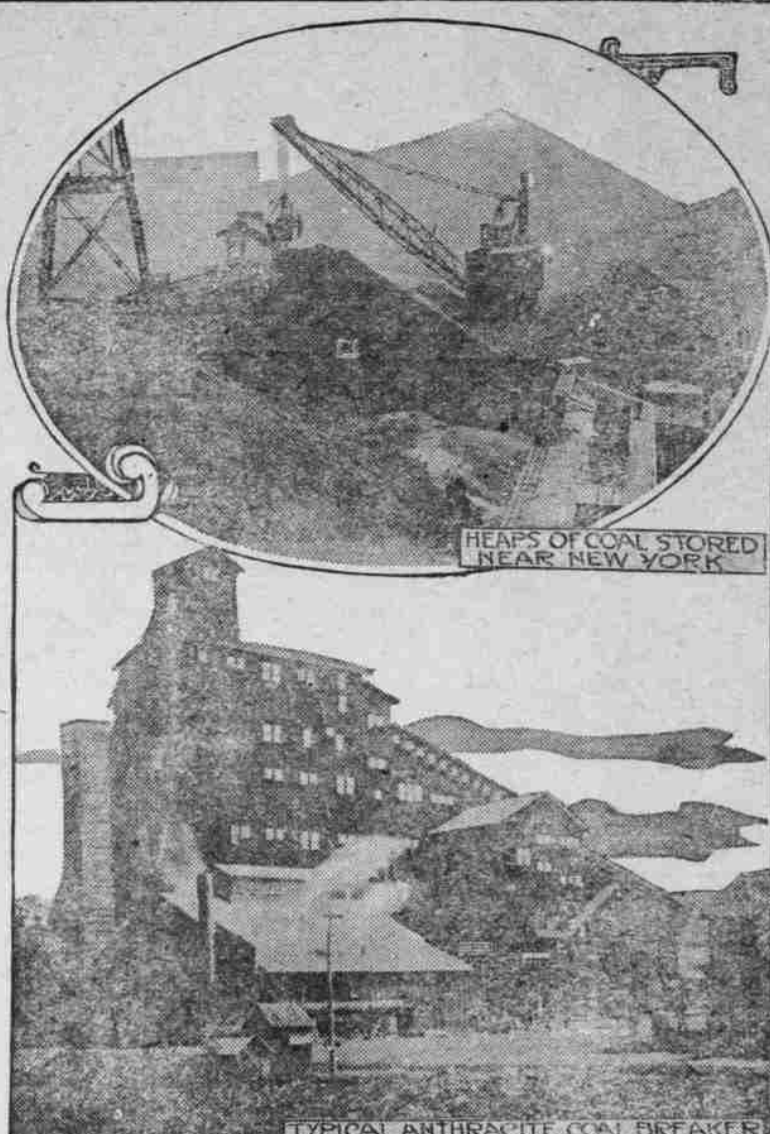

DIFFICULTIES.
To conquer difficulties is to increase our pleasures. When advancing toward any proposed object or when we see with satisfaction the completion of some favorite scheme the mind feels tranquil and contented and looks forward with pleasure to the coming day.

There's the Rub.
"Why is it that you are so strongly opposed to extending to women the right to vote?"
"My wife has become a suffragette."
"Well, what of it? Do you find that she neglects the children or that she isn't paying enough attention to the business of running the house?"
"No; it's not that. She's become so blamed well informed on public matters that I have to keep busy reading all the time in order to prevent her from finding out my ignorance concerning such things."—Judge.

Fungus Slippers.
Before the discovery of lucifer matches a large hoof shaped fungus growing on the trunks of trees was used throughout northern Europe for making amadou or tinder. The thick, brown, woody flesh of the same fungus, cut into slices and beaten until it assumes the appearance of felt, is used at the present day in some parts of Germany for the manufacture of chest protectors, caps, purses, bed-room slippers and various other articles.

The Cause of Earthquakes.
When there is an earthquake the Tibetans know just how it happened. There are evil spirits. "Some of them are gigantic brutes a mile in height, with tiny mouths which prevent them swallowing even the smallest crumb of any kind of food. Naturally they suffer from hunger, and in their agonized writhings they are the immediate cause of earthquakes."

Preparations Made Against A General Coal Mine Strike

Photos by American Press Association.

WITH coal miners in Great Britain, France, Belgium and Germany leaving their work—and in the first named country causing a general suspension of industry—and those of the anthracite and bituminous regions of the United States threatening a strike the dealers and consumers of the eastern cities have naturally been concerned over the prospects of a coal famine in this country. In preparation for such an eventuality great stocks of coal have been accumulated in the storage yards near New York, and the Pennsylvania operators have been rushing the coal already mined and screened to the great distributing depots. Prices have risen both for anthracite and bituminous coal, for, although the demands of the anthracite miners are more insistent than those of the bituminous workers, the latter have been considering the possibility of a walkout. The membership of the anthracite unions is estimated at 30,000, the total number of anthracite miners at about 170,000. The term "breaker" used in the caption of the illustration above is applied to the machinery by which the coal is broken into sizes for its various uses and to the building containing the machinery.

MOHAIR MARKET IS GROWING STRONGER

Much more interest is showing in the mohair trade at this time, and various prices are ruling. The competition between buyers at southern Oregon points is causing a stronger feeling to prevail among holders in other sections of the Willamette valley and dealers say that it is impossible to do business at this time.

While as high as 36c a pound is being offered for "hair" in southern Oregon where there is a fight between a banking interest and a local mill, buyers from the east are now offering over 34c a pound, and say that this is all the market can stand at present. As the outside mills consume the bulk of the supplies, it is apparent that the price will be of their making after the competition and fight among local dealers has subsided.

The sales date for the Lebanon-Sodaville pool has been set for April 25. It is not known how many fleeces will be offered there, as the list in the pool has not yet been completed. The only other pool that has thus far named its sales date is that at Eddyville.

Prevailing Oregon City prices are as follows:
DRYED FRUITS—(Buying)—Prunes on basis of 6 to 8 cents.

be opened next week. It will cost between \$3,000 and \$4,000. The city has issued \$20,000 bonds to defray the cost of building the water plant. Hoehler & Company, of Toledo, O., made the highest bid for the bonds, which was several hundred dollars above par, and probably will be the purchasers.

The First Thimble.
There is a tradition that a Dutch settler pondered over a certain notion which he had cherished long and silently in the slow working seams which he deemed his brain—a notion for a trinket, a fad, for a dignified lady of Holland. It must be a useful trinket, albeit a costly one, meet for so good a sempstress as Dame Alice Van Rensselaer. When the notion took definite shape, the thing was quickly wrought in precious metal by fingers as deft as the brain was slow, and the industrious housewife promptly wore not only her first thimble, but the first thimble possessed by any Dutch frau—Century.

Wm. Hammond Lawyer

To the voters of Justice District No. 4 and especially the members of the Republican party, as a candidate for the Republican nomination for Justice of the Peace in your district I will allow no influence except Law and Justice to govern my decisions if I am nominated and elected to serve the people in the said office. No man or body of men have any political strings tied to me and if I am elected I will have no political debts to pay. I will give my best efforts and use all my ability to give every one a square deal and to deal out justice without fear or favor. I will not enter into any combination with either plaintiffs or defendants, but will give every person, regardless of their station in life, their wealth or social influence a fair and impartial trial.

Justice District No. 4 includes Oregon City Nos. 1, 2, 3 and 4; West Oregon City, Willamette, Canham, Maple Lane, Abernethy and Gladstone.

Makes Sewing a Pleasure

If you could eliminate the tiresome drudgery of pedaling—wouldn't sewing be a pleasure instead of a task?

An electric sewing machine motor attached to your machine does all the WORK, giving any speed desired by the mere pressure of the foot on the treadle.

Current can be drawn from any one of your electric light sockets—at any time—in any room—at a cost of but a half-cent an hour.

Let us explain how simply the motor is attached—how easy the control—how safe the operation. Ask us today.

Portland Railway, Light and Power Company

MAIN OFFICE SEVENTH & ALDER STS.
PHONES MAIN 6688 AND A. 6131.

To The Legal Voters of Clackamas Co. Ore.

Gentlemen:
A man must be judged by his own words and deeds, not by the words of his enemies or false friends.

For weeks Christ Schuebel has been attacking me most shamefully. Some person or persons must be supplying him with large sums of money and his vocation surely does not keep him very busy since he finds so much time to roam over the whole county telling others how very, very good he himself is, and how despicable his opponents are. This I could not do. I have neither time nor money nor "brass" enough to attack and slander those who have always been friendly and kind to me. Neither can I understand how a person can afford to spend hundreds of dollars for the small recompensation he can honestly get if elected to the legislature.

Mr. Schuebel tries to make his audience believe that the "interests" or certain parties have "bought" me. Be not deceived! Not I but he has been bought, if signs fail not, and because he is used to being bought and being sold, as everybody knows, he made an effort to buy me in my own house. This happened March 31, 1912.

If I am elected, I shall be pleased, and I shall always remember my friends in thankfulness. If I am not elected, I shall harbor no bitter thoughts against anyone in my heart.

I never was a politician, desire to be none, and never shall be one. If elected, I shall seek to promote the general welfare, as I have promised, in a business way and without aspect of person.

The legal voters must decide whether they want honorable, experienced and successful men, chosen from their ranks, as their representatives, or whether they want politicians and demagogues, who seek only their own honor and welfare, who trample on the rights and honor of their fellowmen, and who are the cause that our political life is as corrupt as it is.

I declare and prove by my daily life that all attacks, which Mr. Schuebel is making on me, are malevolent lies, manufactured by himself and sown broadcast, contrary to his own better knowledge.

His whole life long Gust Schnoer was, and is, a laboring man. Every laboring man must know that Gust Schnoer will always plead the cause and fight valiantly for the just rights and interests of the laborer. Look up his past record, and if elected watch his work and look for results in the legislature.

GUST SCHNOERR.

Bigness of Texas.
The state of Texas is bigger than France, bigger than the whole German empire, bigger than Austria-Hungary, bigger twice over than the United Kingdom. It is rich in natural resources, and it settles as thickly as the Belgium it would have a population of 205,000,000, or nearly three times the present population of the entire United States.
