

MRS. LATOURETTE IS CHARMING HOSTESS

One of the prettiest and most enjoyable card parties ever given in this city was at the home of Mrs. Charles D. Latourette Saturday afternoon from 2 to 5 o'clock, when many of her friends from Portland and this city enjoyed her hospitality. The pretty home of Mrs. Latourette was artistically decorated, the color scheme of yellow and green being carried out in the parlors, living room and the dining room, while the reception hall was in green and red. A profusion of Scotch broom artistically arranged in Indian baskets, yellow dandelions and asparagus ferns were used among the decorations, in the parlors the decorations were completed by graceful festoons of yellow tulle. The electroluxes were shaded with yellow, and bows of the tulle among the clusters of the shaded lights. The rooms were darkened and the bright yellow shades presented a very pretty sight. On each table, where cards were played, were pretty yellow b-n bon boxes shaped like chrysanthemums, and in them were yellow candles. The score cards hand painted. Red carnations were used in the reception hall.

The first prize, a set of silver teaspoons, was won by Miss Bala; second prize, silver deposit cream and sugar bowl, Mrs. Edward Schwab; third prize, Mrs. M. J. Brown, a silver deposit plate, and consolation Mrs. Bess Daulton, conserve jar.

Among the enjoyable features were the vocal selections rendered by Mrs. Kathryn Ward Pope, of Portland, one of the well known soloists of that city, and niece of Mr. and Mrs. C. D. Latourette. Mrs. Pope has a sweet soprano voice, and each selection rendered by her won the highest praise and she was forced to respond to several encores. Her numbers were "Sunbeams," "Hayfields and Butterflies" and "Happy Songs."

In the entertainment of her guests Mrs. Latourette was assisted by Mrs. Howard F. Latourette, of Portland, and Mrs. Mortimer D. Latourette of this city. Mrs. Latourette wore a handsome gown of yellow chiffon over yellow silk; Mrs. H. E. Latourette wore a beautiful gown of blue messaline over blue silk, while Mrs. M. D. Latourette was attired in a becoming gown of yellow marquisette over yellow silk. A delicious luncheon was served.

Those attending were Mrs. Charles B. Moores, Mrs. E. A. Sommer, Mrs. Ryland Scott, Mrs. Brice C. Curry, Mrs. John P. Kootine, Mrs. Howard F. To Make Work a Pleasure.
Mothers, wives, make the home homeable. Let God's air in. Start your boys and girls, your husbands, out fresh and clean in the morning. Send them off with a kiss and a smile. It makes all the difference in the world. You can accomplish more, and so can they, because a body that is fresh and clean and wholesome and a heart that is happy and glad give physical strength and endurance, so that work is not merely a grind, but a pleasure.—Suburban Life.

Rider Haggard's First Success.
The incident which inspired Sir Henry Rider Haggard's first successful venture in authorship is interesting. He and one of his brothers were riding in the train together from Norfolk to London. He bought "Treasure Island" to read in the train, finished it and said as he dropped it into his bag, "Well, I think I could write a better boys' story than that."

"If you think it's so easy as all that, why don't you try?" asked the skeptical relative.

"I will," he rejoined, and he did. A few weeks afterward he had finished "King Solomon's Mines," of which 10,000 copies were sold during the first five years.—Pall Mall Gazette.

Tumblers and Hot Water.
Incredible as it may seem, a thin tumbler stands hot water better than a thick one. Glass is a poor conductor of heat, and when very hot water is poured into a thick tumbler the inner layers of the glass are soon heated to a much higher temperature than the outer ones. The higher temperature causes the inner layers to expand greatly and to burst the outer layers. In the case of a thin tumbler the whole thickness of the glass is raised to practically the same temperature almost at once. Consequently, as all parts expand equally and at the same time, no excessive strain is produced and the glass does not break.

Now, Who Could Blame Him?
A thin little woman who couldn't have weighed a hundred stood on a corner with a heavy baby in her arms. The rest of her stepladder family, ranging from three to seven, were grouped around her. She wanted to flag a motor bus, and a passer by saw her difficulty. He halted one, put the little woman's hands were so fully occupied with the fat baby. He was beginning to feel that glow over doing a decent thing decently when he heard a woman in the bus say:
"Look at that great big man allowing his poor little wife to carry that big child!"
Then he got sore.—Chicago Tribune.

Forbidden Fruit.
A request was once made to the authorities of one of the colleges at Cambridge that room might be found on the spacious lawns of their garden for the lady students of Girton college to play lawn tennis. Guessing clearly enough what would be the result of the admission of these students of the fairer sex among the undergraduates, the master replied that it was ordered in the statutes of the college that the gardens must be devoted to the purposes of horticulture and must not be used for husbandry.—Spare Moments.

Oranges Once a Prohibited Fruit.
Oranges were for some years a prohibited fruit in Holland. When the Batavian republic was established the badge and color of the stadtholder's family became so hateful to the popular party that, not satisfied with expelling their prince, they passed a law forbidding the sale of oranges and carrots and ordering all persons who grew lilies or marigolds in their gardens to pluck up the plants and destroy them. This prohibition remained in force until 1806, when Napoleon made his brother Louis king of Holland.

Makes Sewing a Pleasure

If you could eliminate the tiresome drudgery of pedaling—wouldn't sewing be a pleasure instead of a task?

An electric sewing machine motor attached to your machine does all the WORK, giving any speed desired by the mere pressure of the foot on the treadle.

Current can be drawn from any one of your electric light sockets—at any time—in any room—at a cost of but a half-cent an hour.

Let us explain how simply the motor is attached—how easy the control—how safe the operation. Ask us today.

Enthusiasm.
Nothing is so contagious as enthusiasm. It is the real allegory of the tale of Orpheus; it moves stones; it charms brutes. Enthusiasm is the genius of sincerity, and truth accomplishes no victories without it.—Bulwer.

Rhubarb.
According to ancient records, rhubarb was used as an article of diet in China as far back as 2700 B. C.
