**BODIES OF BIG SHIP DISASTER PICKED UP**

NEW YORK, April 22.—The White Star Line announced this afternoon that it had received the following wireless from the cable ship Mackay-Bennett, which is on the scene of the Titanic disaster searching for bodies:  
 "Heavy southwest squall has interfered with operators. Fifty bodies recovered. All not embalmed will be buried at sea at 8 P. M. with divine services. Can bring only embalmed bodies to port."  
 General passenger agent Jeffries, of the White Star Line today denied the report that an officers and woman steerage passenger of the Titanic were picked up by the Celtic, which arrived Saturday morning as related in a dispatch last night from Muncie, Ind.  
 Word by wireless from the cable ship Mackay-Bennett, which has been searching the sea near the scene of the Titanic disaster, and has reported the recovery of 64 bodies, was eagerly awaited early today as the cable ship was under instructions to send forward immediately identifications of the dead and other information obtainable.  
 The White Star Line officials said that any information from the Mackay-Bennett, which is under orders to remain in the vicinity of the wreck for a week would be made public on receipt. Only those bodies that have been identified or admitted being identified will be brought back. Some of the victims undoubtedly have been mutilated by ice, so that identification is impossible.  
 The steamship Rhein reported to the White Star Line by wireless that wreckage and bodies were passed in 42:01 latitude, 49:13 longitude, and the Mackay-Bennett was heading for that position. This message indicated that the Gulf Stream is carrying the bodies and wreckage 50 miles east of where the Titanic sank.  
 Survivors who were taken to hospitals on their arrival at the Cape have now practically recovered, and many of them have left for their homes. Relief societies have gathered more than a quarter of a million dollars, and relief committees have been swamped with contributions.  
 Not only that, but countless letters were received, all offering assistance of every sort.

**HEADDRESS IN GOLD AND BLUE.**

The headdresses for evening and theatre wear are at times positively startling so unusual are they. They are many and varied, running the scale from Oriental turbans to coquette mob caps. A hint of Medievalism is given in this casque like headdress today. The coloring, too, is reminiscent of the gorgeousness of knights and ladies. The high leaf-like crown is covered with Nattier blue velvet while the rever which occupies the left side is composed of gold lace. Standing almost directly up the back of the hat and following its line is a luxuriant ostrich plume of blue.

**Fashion For Flowers.**

The woman who neglects opportunities for decorating her costume with artificial flowers is indeed careless. Never were made blossoms more life-like, whether of velvet, satin or gauze. All smart evening gowns carry a group of mixed blooms or three orchids with ferns. The single American Beauty rose is a favorite; also the red poinsettias. Small flowers are not in fashion.

**A Costly Kitchen.**

It cost a barrel of money to furnish the kitchens of the shah of Persia, but should the shah desire to pledge his kitchen requisites he might realize a couple of million dollars. Every sauce pan of this monarch is gilded inside, and the dishes which appear on the table are of solid gold, as well as the spoons, knives and forks. The handles of the latter, moreover, are ornamented with costly stones, and some are worth as much as \$500 each. In preparing lunch for the shah none but silver spoons can be used, and any covering used for keeping cold meats must also be of silver. His majesty has a staff of over thirty chefs, and altogether his kitchen workers number 120.

**CATTLE MARKET IS STRONG AND ACTIVE**

The Portland Union Stock Yards Company reports as follows:  
 Receipts for the week were 1713 cattle; 71 calves; 1982 hogs; 2313 sheep and 12 horses.  
 The cattle market was strong to higher all along the line. There was an active demand for everything that was offered and as high prices would have prevailed had the receipts been larger. Calves sold as high as 8.75 which is a high price on any market.  
 The hog market was steady to strong around \$8.40. One sale was made at \$8.50 but the general price was around \$8.40. The market was lightly supplied and more than double the number of hogs that were offered could have been sold at the prices mentioned.  
 The sheep market was strong to higher. Lambs at \$7.35 and wethers at \$6.35 indicate the strength of the market.

**The One Thing He Did.**  
 "I remember an American at a ball in Monte Carlo," said an American actress. "His self reliant Americanism stood out well amid the elegance of the counts and earls and grand dukes who were there. I overheard a Russian princess talking to him on the moonlit terrace. 'Do you dance?' she said. 'No; he didn't dance. 'Do you speak French?' 'No; he only spoke American. 'Do you play bridge?' 'No.' The princess raised her aristocratic eyebrows. 'May I ask,' she said, 'what you do do?' 'I earn my own living,' said the American. The princess laughed gaily and approvingly. He was, and she knew it, the only man there who did."

**Class Distinctions.**  
 Travelling in a second class carriage, a gentleman had a little misunderstanding with a lady, the only occupant of the compartment besides himself, in reference to the opening of the window.  
 "You don't appear to know the difference between the second and third class," said the lady cuttingly.  
 "Oh, madam," replied he, "I am an old railway traveler. I know all the class distinctions. In the first class the passengers behave rudely to the guard; in the third the guards behave rudely to the passengers; in the second (with a bow to his fellow passenger) the passengers behave rudely to each other."—London Answers.

**ROOSEVELT COULD CARRY ILLINOIS**

**RESULTS OF PRIMARY INDICATE THAT PRESIDENT MIGHT LOSE STATE**

**CLARK HAS STRONG FOLLOWING**

Instructed Delegates Chosen Up To Date Are For Colonel—Taft Reported To Be Losing Ground

WASHINGTON, D. C., April 22, (Special).—The complete figures of the vote at the Presidential primaries in Illinois on April 9th throw an illuminating light on what that great Republican state may be expected to do at the election next November.  
 The total Republican vote was:  
 Roosevelt ..... 252,628  
 Taft ..... 122,978  
 La Follette ..... 40,958

Total 416,562  
 The total Democratic vote was:  
 Clark ..... 211,809  
 Wilson ..... 77,781

Total 289,590  
 That is a Republican majority of 126,972. It shows what many expected from Lincoln's state in November, provided the Republicans are satisfied with their candidate for president.

A comparison of some of these votes demonstrates beyond question what would be the result in Illinois in case Taft and Clark should be the opposing candidate, and what would be the result in case Roosevelt and Clark should be the contestants.

The situation as between Clark and Taft is presented graphically in the following table:  
 Clark ..... 211,809  
 Taft ..... 122,978

Clark's majority 88,831  
 That is, if Taft is the nominee the Republican party will lose Illinois, but with Roosevelt as the nominee the Republicans will win, as shown by the following table:

Roosevelt's majority 40,817  
 Missouri is the latest state to demonstrate that Colonel Roosevelt is the choice of the people. Of the nine congressional districts that have elected their delegates to the Chicago-convention, seven are for Colonel Roosevelt giving him fourteen delegates. At least six of the other seven will also go for Roosevelt. In the election of delegates to the state convention the Roosevelt forces have prevailed by a great majority, more than 600 Roosevelt delegates having been elected already. There will be 1,171 delegates in the state convention, in St. Louis county, where Taft was supposed to have his greatest strength, the county convention sprung a surprise on the Taft managers by electing a solid Roosevelt delegation to the state convention. The thirty-four St. Louis county delegates clinch the Roosevelt control of the state convention and insure the election of four delegates at large from Missouri for him.

The last week has been one of disaster for the Taft campaign. The first and most decisive blow was delivered on Tuesday in Illinois when that State followed the lead of Wisconsin and North Dakota and repudiated the Taft administration by an overwhelming majority. On the same date the New York state convention refused to instruct their delegates for Mr. Taft.

New England followed close upon Illinois. Maine led off with a solid Roosevelt delegation of twelve, then came Vermont, with two delegates instructed for Roosevelt and six un-instructed. This double reverse in New England emphasizes the disaster to Taft in Illinois.

Senator Dixon at the Roosevelt headquarters today said: 510 delegates to the Republican National Convention have been elected up to date, 138 having been elected during the past week. Of these, 151 are for Colonel Roosevelt, 49 for Mr. Taft, 4 for Senator Cummins, 36 for Senator La Follette, 106 un-instructed, including 88 from New York State; and contests are pending in cases of the remaining 164.

**NOT EXPENSIVE**
