BLUE VIOLET GOWN.

A serviceable frock of old blue voile over self-tone taffeta, the latter also used as trimming, is presented today. The plain kimona blouse of voile opens over a wide vest formed of the taffeta laid in tiny vertical tucks and headed by a band of silk passementerie. This is in turn finished on the upper edge by a narrow binding of black velvet. Plain gathered yoke of blue chiffon, cuffs of the lace finished with a narrow pleating of taffeta and a flat bow of black velvet. Plain skirt and tunic, the latter bordered with the passementerie. A black velvet girdle with two stole-like ends at the front completes the frock.

Mr. Forward was made toastmaster although a few minutes before he did not know there was to be a supper. The table was prettily decorated with cut flowers and the feast was enjoyed by about twenty members.

THEN GET BUSY

Remember the times when we had to smoke the mosquitoes away of an evening? And to brush the flies or simply endure them? How times have changed! Now we know that these insects were the means of spreading dangerous diseases, and protect our homes and families by screening them out.

It pays, both from the standpoint of comfort and convenience or health. Our stock of screens and screening permits you to fit any door or window. We handle the best quality which will last for years. This means that you can put them up in a few minutes next season, thus saving you the time and trouble of fitting new ones as well as the cost of buying them.

How about screening off that porch? It will be the most popular place in the neighborhood. Come in and see how little it will cost.

Local merchants should look after their stock of purple and white bunting and crepe paper—and the proper kind of Rose Show decorations.
Banker Morse was released on the plea that he would die in a few months. After a protracted trip in Europe, he has returned to the United States looking hale and hearty, apparently having lost his way enroute to the Styx. How about our Oregon banker at Salem?
The so-called vigilantes at San Diego are keeping "law" but breaking laws to keep it.
The city should not issue licenses to any one to "peddle" eye glasses. "It's a most pitiful thing to see these sharks parading up and down Main street with a pocket full of "eye glasses" and selling them at "factory prices" to innocent purchasers. Of course people ought to know better than to patronize these itinerant "specialists," but they don't seem to realize that the worthiest lugs they can do is to wear poorly fitted glasses.
