CREAM MARQUINETTE

A girlish frock of cream marquette with trimmings of fillet lace has been selected for the fashion suggestion today. It is made with a draped front of the material having a wide tuck which runs its length and lace insertion on either side. The sleeve consists of a slight puff above the elbow with a short cuff of lace and material. Black velvet is used for girdle, and is gracefully knotted at the back, falling in two long ends. The skirt is quite full but hangs closely to the figure. It has one broad and one narrow band of the lace running around the bottom.

New York's Clothing Factories. It is said that the production of ready made garments within a radius of twenty miles of the city built, New York, exceeds by almost \$20,000,000 in value the yearly output of iron and steel plants in the whole country.

The money question in our store has cash for an answer. Cash is a strong factor in saving money. The family that pays its bills two or three times a year, pays interest on the creditor's mortgage, and for the bookkeeping necessary for his accounts. In most stores a family pays more for every article than is paid by the woman who is a cash buyer.

We pay cash for our goods, and we pay only for the goods. None of our money helps pay the credit department in a wholesale house. We save money by discounting our bills and you have the same discount by saving your S. & H. Green Trading Stamps that we give you with every purchase. We sell to all at one price—one customer's money is as good as another's. A penny is the father of a dollar.
