AUTOMOBILE LICENSES

It is reported that the license paid by automobiles and motor vehicles generally, even though it totals \$50, 600 or more annually is all eaten up in office expense, general expense and salaries in the office of the Secretary of State.

It would seem a poor tax, and a fool-hardy one which is all worn out in the effort made at collection.

The Grange stands for a tax of \$1 per horsepower, the proceeds to be placed in a general main trunk road fund; it is an expensive luxury in any event to own an auto car and why not have good roads at any cost to ride on.

ROSE SHOW

The ladies have completed their arrangements and June 8 will be a big day for Clackamas County. All the business houses are to decorate and the bargains to be offered will attract visitors from far and near. We need days of this nature. They should come oftener, and the result is evidence of the feeling existing between the different organizations, the business men and our neighbors, the people generally.

Get your hat into the ring auto enthusiasts. The big day is June 6th, Wednesday night at 6:30 at the Masonic Building Banquet Hall. There are 50 members now and 135 to draw from in Clackamas County. You need the club and the club needs you.

That crossing of the S. P. track at the Hop Drive between Oregon City and Park Place is dangerous and the County Court would be blessed by thousands of travellers every month if proper efforts were made to correct

What America Can Teach In Methods of Preventing Consumption

By NATHAN STRAUS, Merchant and Philanthropist

THERE is little that America can add to the knowledge of methods of preventing the infection of the well by tuberculous human beings, but there is MUCH THAT AMERICA CAN SAY TO THE NATIONS out of its experience and official investigations as to the importance of considering the other GREAT CAUSE OF TUBERCULOSIS—the USE OF MILK and other raw dairy products from tuberculous cattle.

PASTEURIZE AND THEREBY PREVENT TUBERCULOSIS.

Several years ago the milk produced under the certification of the New York County Medical society by one of the most famous dairy farms in the state showed an increase in bacteria, and tuberculosis was found in the herd. It developed that from the unknown date of the invasion of tuberculosis into the herd to its discovery customers, who were paying 20 cents a quart for this milk to be safe from tuberculosis, were in reality USING TUBERCULOUS MILK WITHOUT SUSPECTING THEIR DANGER. Pasteurization would have protected them.

WHAT PASTEURIZATION HAS DONE WHEREVER TRIED IT WILL DO IN A LARGER WAY WHEN RESORTED TO MORE GENERALLY, AND THE 40 PER CENT DROP IN TUBERCULOSIS IN NEW YORK CITY WHEN ONLY PART OF THE MILK SUPPLY WAS PASTEURIZED WILL BE PARALLELED AND OUTDONE, AND WE WILL MAKE HEADWAY AGAINST THE GREAT WHITE PLAGUE INSTEAD OF ALLOWING IT TO DESTROY OUR CIVILIZATION AND OUR RACE.

the trouble. Prevent loss of life at any cost, rather than take the matter up after a serious accident, liable to happen at any time.

Is Main street between Twelfth and Fourteenth completed. It is badly cut up and the track as placed is a menace to those forced to use the street with rubber tired vehicles.

This is our chief thoroughfare and should receive greater attention at the hands of our street department, and those doing street work for the different railroad lines.

The weather man is helping the Rose Festival. If the present weather continues this week the bloom should be about right for the great week of June 10 at Portland, but sunshine and a warm weather coming now would advance the roses beyond the best point. Mr. Weather Man keep up your good work.

This is examination week and more than one pupil has a worried look on his face.

Better hunt up those flags today and have them all ready for tomorrow.

Salem is about to close the deal to purchase 300 feet of water frontage for municipal dock purposes. Twelfth street is the probable site of Oregon City public dock--to be.

With the legal papers now in the hands of the Government for examination it is predicted that Uncle Sam will commence to operate the locks in a short time. All tolls will be abolished and the upper river shippers expect a reduction in freight tariffs. It will be interesting to notice just what changes will be made in the rates by the transportation companies.

Much has been said but little done in the way of providing a play ground and gymnasium for the boys and young men of this city. The urgent need of such an institution is apparent. In fact everyone admits it, and thanks to a few the matter will come before the people of the city at the July special election. That the measure will pass goes without saying as every voter wants to do his duty by the men of tomorrow. At present the pool halls attract the boys the high school athletes have no place to train, there is no ball park in the city limits, there are no shower baths in town and apparently there is no one to coach the boys in their games and track work. The high school gymnasium is not open to the boys in the evenings, and the town boys have

no place at all to go to play in-door baseball, basketball, handball, etc. Right now is the time for the young men interested in the public playground proposition to get together, form an athletic club and decide on the kind of a club house which should be erected this Fall on the ground that will be purchased if the proposed measure passes at the election. Let this club appoint its committees to interview the business and professional men of the city and attempt to enlist their assistance in carrying on this work. Let all the boys and young men in town unite in this movement, let them decide what they really want and what they themselves will do, and the playground and gymnasium will follow.

It does rather jar one to read of the girls in the employ of the Ladies Homes Journal dancing the turkey trot and the grizzly bear--but then girls will be girls.

That eastern man who paid \$400 an acre for 28 acres of land without seeing what he was buying is like the man who pays \$75 for a \$75 watch.

CONCERT PLANNED FOR ST. AGNES HOME

Preparations are being made in Portland for the concert to be given at the Holy Family Sunday afternoon, June 2, at 3 o'clock for the benefit of the St. Agnes Baby Home at Park place on the Oregon City car line. The concert will be given by Madame No-rell, the distinguished soprano, who is donating her services for the assistance of the orphans. The proceeds will be used to improve the Baby Home. A new furnace is needed, which will be installed during the summer. Repairs must be made, and unless there is outside assistance the Sisters of Mercy, who have done much to relieve the sufferings of many little ones, will have to have the work done. There are many cases where the Sisters of Mercy receive nothing for caring for children. They are given the best of care, however. There are ninety children in the institution, thirty-five of them mere infants. During the past two months six children have been adopted from the Home and given fine homes. There are many more pretty and bright children at the institution which may be adopted. The prices of the seats for the concert Sunday afternoon are less than half of what the music lovers usually pay to hear as eminent an artist as Mme. No-rell. Although Mme. No-rell is not a Catholic, she is donating her services for this great charity. The seats are on sale, and from indications there will be a large attendance, the price of seats being 25 cents and reserved seats being 50 cents, 75 cents and \$1.

The Sisters of Mercy are always glad to have visitors at the institution the visiting time being between 2 and 4 o'clock P. M. Thursdays and Sundays are the days visitors are taken through the institution to show the good work that is being carried on. The older children at the institution are given five meals, the last meal before bedtime of bread and milk. The milk is the best as the Sisters have their own cows.

The entertainment given Christmas by the little ones under the supervision of the Sisters of Mercy indicated what is being done at the home. During the summer months the little ones are allowed to romp in the yard surrounding the Home, which they thoroughly enjoy, and the young-er babies are taken each day out on the veranda, where they may enjoy the fresh air and sunshine.

BABY SHOW TO BE CARNIVAL FEATURE

(Communication.) Clackamas County babies against the world! And to prove this, the Woman's Club is arranging to hold a baby exhibit Saturday June 8. It has been demonstrated that our pigs, horses and other fine stock, also our roses have no superior in another county of this grand old state. Last but not least, it will be proved on this day that our babies will even outclass the pigs and roses for superiority.

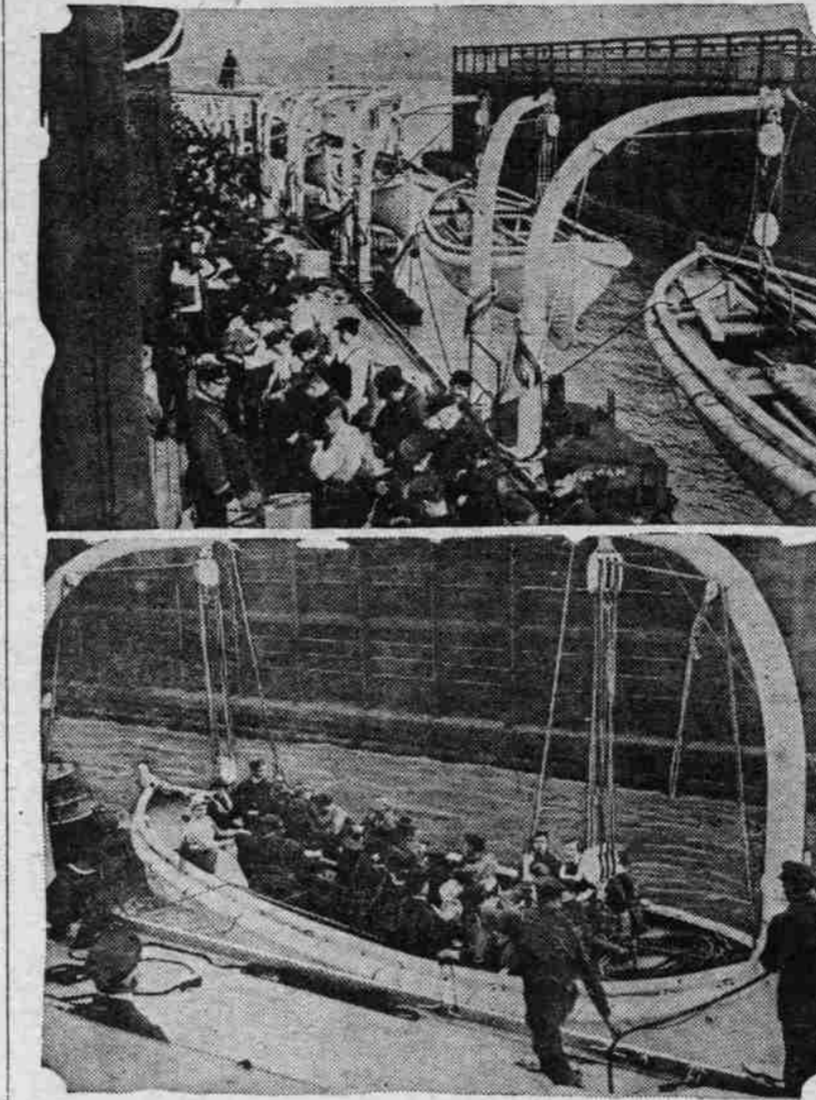

The classes follow: Class one--Boys under three years and over two; one year and under two years; six months and under one year, six months.

Class two--for girl babies of same age.

Class three--Best natured baby under three, largest baby under one year, handsomest twins, youngest baby.

Any baby meeting these conditions may be entered for prizes. Competition open to all of Clackamas County.

Lifeboat Drill on Board One of the German Liners

Photos by American Press Association.

AFTER the Titanic disaster no one who travels or expects to travel by sea can be indifferent to the subject of lifeboats and lifeboat drills. The crew of the German liner Kaiser Wilhelm II, when that vessel was last in port at New York, had a drill at which the photographs here reproduced were taken, the one giving a general view of the boat deck, the other a loaded boat swung outboard ready for launching. These drills, so far as this crack German ship is concerned, are held only while she is in port, the management of the line believing that drills at sea cause nervousness among passengers, but the harbor drills are frequent, and absence from them is punished by fine. When a seaman joins the vessel he receives the number of his life belt and lifeboat and is supposed to get regular practice, which includes rowing as well as launching the boats. Each boat is equipped with a mast and sail, six oars, a rudder, extra life preservers, a barrel of fresh water, re-vented at the end of each trip, and boxes of bread.

MOOSE LODGE TO HAVE POTATO MARKET BIG ENTERTAINMENT QUIET AND WEAK

At the regular meeting of the Moose Lodge tonight a class of at least twenty-five will be added to the herd which has so strangely entrenched itself in this city. No fraternal organization has ever come to Oregon City with better or under brighter auspices than the 'Loyal Order of Moose, and none has received so cordial a welcome or is more heartily endorsed and supported by all classes. Although only a few weeks old, already plans are on foot which will give the Moose of this city permanent, cozy and homelike club rooms, which will be attractive and a drawing card toward membership.

Several propositions for a location of a permanent nature have been submitted to the house committee, all of which have been carefully considered. One of these stands out prominently as most desirable as its qualifications seem to possess all the desired attributes for a durable home. It is understood that a promise has been made to the committee by the owner that if this location should be selected and the choice be ratified by the members of the lodge as a whole, that certain and very material alterations and extensive improvements and additions will be made which will not only make the new lodge and club-rooms of the Loyal Order of Moose equal to any home of any subordinate lodge of the order of twice or three times the age of the Oregon City Moose.

The house committee is composed of shrewd business men who can also benefit by the advance suggestion of Organizer Bert Westcott, and every member of the organization may be assured that careful and business-like principles will regulate every action and proposition which is laid before the lodge.

It is earnestly requested that all members will be present tonight as matters of weighty import will come up for discussion and debate.

Bland Acres

IDEAL ORCHARD, GARDEN AND POULTRY TRACTS. Bland Acres is situated just west from Oregon City, near the Willamette River and on Electric Car line.

The soil is of the Red Silt Free nature, loose enough to work easy, yet containing enough percentage of clay to give it a good moisture retaining capacity.

The property has a good elevation, overlooking the Tualatin and Willamette Valleys and slopes well making tiling unnecessary.

We have had this soil examined by an expert and he reports it IDEAL for apples, Prunes, Cherries, Grapes, Berries and Vegetables.

We are offering this land at \$140 per acre and up, in tracts of 5 or more acres and practically your own terms.

Here is your opportunity to get a Beautiful, Slightly Country home and land that will raise anything.

Write or come in and see us about it.
